Hunger Pains Beginning of End for Fugitive in Manhunt

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

By WALTER S. CLARK JR.
Freeman Staff Writer

Two ex-convict parolees, both with long criminal records and one of whom had boasted "I'll never be taken alive—I'm too hot", were confined in the Ulster County jail today without bail awaiting grand jury action on felony charges arising from the shooting of a state trooper at Napanoch last Thursday night.

The capture of the second of the pair on Saturday climaxed an extensive and determined manhunt through the rugged mountains and woodlands in Southern Ulster County.

Eighty uniformed state troopers, 16 or 17 Bureau of Criminal Investigation officers, deputy sheriffs, town constables and village police, in command of Major A. J. Robson, Troop C commander and Captain Edward Croswell, BCI commander in this zone, had united in the massive manhunt for a heavily armed and dangerous fugitive sought in connection with the trooper shooting.

The apprehension of Roy Edison Davis, 25, laborer, of 228 Irvington Village, Houston, Tex., took place on lonely Whitfield Road not far off Route 209, Town of Wawarsing, at about 10:40 a. m. Saturday. The arrest was made by Troopers J. E. Jackson and P. E. Howard of Richfield Springs, who had taken part throughout the manhunt.

Wesley Allen Brown, 31, of Spencerville, Md., accomplice of Davis, who troopers charge was the man who shot and wounded Trooper Stanley Kowalik, 26, as he questioned the pair in front of Smith Brothers Garage in Napanoch, Thursday night, had been apprehended at a roadblock two hours after the shooting.

The brazen shooting of the state trooper by one of the pair, a bullet punctuated high speed chase, the switch of drivers of a get away car traveling at speeds of 110 miles an hour, the intentional crash of a car and other exciting incidents highlighted Ulster County's greatest manhunt in scores of years.

Attempted burglaries, hopes of cowering some area residents at gunpoint to submit to threats and be hostages to aid the armed parolee to sneak out of a heavily patroled mountainous area in the Town of Shawangunk, faded with the capture of the accomplice of the man who allegedly shot the Ellenville trooper Thursday night.

The crime escapades of two men with long criminal records has ended in this county, at least temporarily, and according to reports the tough pair is wanted in other states for major crimes, and the outlook for their future appears to be long years of imprisonment, if convicted.

Davis and Brown were arraigned separately before Justice of the Peace Herbert Poppel, Town of Wawarsing. Both waived their right to preliminary examination and were ordered committed to jail in Kingston without bail. The case was referred to the grand jury. The two men were specifically charged with first degree assault on a police officer.

Both are wanted by Seattle, Wash., authorities for armed robbery. Although the Federal Bureau of Investigation criminal records of the pair have not been received here by State Police officials, it was said Davis and Brown both have long criminal records.

According to Senior BCI Investigator Edward Shannon, who with Senior Investigator Michael Lisman took a leading part in the direction of the manhunt, Davis was at all times within less than two miles of the spot where their station wagon crashed into a fence on Route 209 during the high-speed chase with Trooper Kowalik in pursuit last Thursday night.

While heavily armed patrols of troopers, constables, deputy sheriffs and others moved cautiously through the darkness of Thursday and Friday nights and throughout Friday and until after 10 a. m. Saturday, Davis was in the dense woods in the area at all times watching the movements of the searchers.

Investigator Shannon revealed that Davis was equipped not only with a .22 caliber rifle, a 9 mm revolver, a knife and steel hammer, but he had a pair of binoculars he used to spot the location of the authorities so he

CAPTURED WITHOUT INCIDENT—Ulster County's greatest manhunt in decades ended at about 10:40 a. m. Saturday when the second of two much-wanted armed men was caught by Troopers J. E. Jackson (l) and P. E. Howard (r) of Richfield Springs, who were members of the manhunt party for about 39 hours. Object of the massive search through Town of Shawangunk mountains was Roy Edison Davis, 25, of Houston, Tex. He and Wesley Allen Brown, 31, of Spencerville, Md., are in the county jail facing drst degree assault charges in connection with the shooting of Trooper Stanley Kowalik of Ellenville last Thursday night. State Police officials said both men have long criminal records and are wanted in Seattle, Wash., for armed robbery. When Davis was picked up on Whitfield Road by Jackson and Howard he was armed with a loaded 9mm revolver but made no attempt to use it. He also had a .22 caliber rifle, binoculars, a knife and metal hammer. (Freeman photo by Kruh) Other photo on page 32.

Yanks Mass Along Demilitarized Zone

SAIGON, South Viet Nam (AP) — The United States moved heavy reinforcements up to the embattled demilitarized zone today as B52 bombers raided North Vietnamese infiltration routes just above the buffer area.

Simultaneously, U.S. Secretary of Defense Robert S. McNamara arrived in Saigon for a four-day visit to the battlefronts and a survey of the men and money needed for the war.

U. S. military headquarters announced that the two Marine divisions already in the northern provinces were moved closer to the 17th Parallel demilitarized zone which separates North and South Viet Nam.

A battalion of the 173rd Airborne Brigade was moved to Da Nang to reinforce the Leathernecks. It was the first time in the war that U.S. Army troops were deployed in the northern provinces.

U.S. reinforcements were massed in the north to help stem the mounting influx of North Vietnamese forces into South Viet Nam and to bolster the allied forces against an expected major Communist offensive.

Heavy fighting has been in progress just south of the demilitarized zone almost continuously since mid-July. In the last nine weeks, the Leathernecks have killed 1,071 North Vietnamese regulars — the equivalent of two battalions, the Marines have taken many casualties, but their losses are officially termed moderate.

The battlefront just south of the demilitarized zone was reported quiet. No contact was made with the enemy, but

OFFERS PEACE PLAN — George Brown, new British foreign secretary, mops brows while outlining six-point Viet Nam peace plan before Labor party's annual convention at Brighton, Sussex. (AP Wirephoto)

Cong Rejects Anglo Plan, Pope's Pleas

TOKYO (AP) — The Viet Cong today rejected Britain's plan for peace in Viet Nam and Pope Paul VI's appeals for peace.

Hanoi, Soviet Rejections

"It is of no avail at this moment to issue vague calls for peace in Viet Nam without pointing one's finger at the U.S. war criminals and obliging them to withdraw their troops from South Viet Nam," a commentary by the Communist Liberation Press Agency, said.

On Saturday North Viet Nam and the Soviet Union rejected the plan put forward by British Foreign Secretary George Brown last week. The plan called for the Viet Cong to be present at any peace talks.

The Viet Cong commentary did not name the Pope but it referred to the mission he sent to Saigon Last week.

Satisfied With Trip

Archbishop Sergio Pignedoli, head of the papal mission, returned to the Vatican Sunday and expressed satisfaction with his trip. He said contact with leaders of various religions in South Viet Nam "has convinced me that there is a common denominator on which to build mutual understanding and collaborate for the good of the country."

At the same time, Communist China said it will not accept any peace proposal unless the United States and its allies withdraw their troops from Viet Nam "immediately and completely."

People's Daily, official organ of the Chinese Communist party, in a lengthy editorial, turned down the latest U.S. and U.N. peace offers and said:

Calls Issue Clear

"The issue of what is right and what is wrong over the Viet Nam question is quite clear. The United States is the aggressor and Viet Nam is the victim of aggression.

"The U.S. aggression against Viet Nam must be roundly condemned and the U.S. aggressor troops must be pulled out of Viet Nam immediately and completely. On this question of principle there can be absolutely no brooking of compromise."

The editorial was broadcast

2 Deaths Mar Weekend in Valley Area

New York State recorded 34 accidental deaths over the weekend including 23 traffic fatalities, one of which claimed the life of a Dutchess County girl, and another that killed four members of a Manhattan family.

A teenager was accidently killed in Greene County Sunday when he was struck by a .22 caliber slug in the head while sitting in a car in the Town of Durham.

Two persons suffered superficial wounds as the result of an unusual accident on the Couse farm in the Town of Athens.

Dover Teener Killed

Dutchess County Sheriff Lawrence M. Quinlan told The Freeman that Miss Joyce Wrisley, 18, of Dover Plains, was fatally injured at 2:35 a. m. Sunday when the car in which she was riding went out of control on Salt Point Road, Pleasant Valley, careened off the highway and hit a tree.

The car was driven by Patrick Wing, 21, of Wing Road, Millbrook.

An investigation by Chief Deputy Charles Borchers noted that Wing was driving northeast on Salt Point Road when his car failed to negotiate a left curve. The vehicle went off the east side of the road, hit a tree, rolled

4 Boats Damaged In Blaze on Sunday

(Photo on Page 25)

Three boats at Hidden Harbor Yacht Club, Port Ewen, were badly damaged by fire Sunday afternoon, two of them were sunk and a fourth was slightly damaged.

The fire started shortly after 4 p. m. in an explosion aboard the inboard-outboard cruiser of Heyward Johnson of Accord, and spread to other boats in the basin. It was reported the fire started when Johnson attempted to start his engine and it backfired. It is believed fumes in the bilge ignited. He suffered a burn of the hand and his hair was singed in the blast.

Hauled to Shore

Flames spread to the outboard of James Smith of Kingston and both the Johnson and Smith boats sunk. Flames communicated to the outboard of James Sweeney, Hemlock Avenue, and that boat was badly damaged but hauled ashore. A 26-foot sailboat of William Windrum of 181 Bayard Street, Port Ewen, was also damaged. Two floats at the yacht basin were burned.

Deputy Sheriff Carl Cline notified the sheriff's office at 4:10 p. m. that three boats were on fire at the yacht basin and Sheriff William B. Martin dispatched Deputy Sheriffs Robert Jordan and David Hughes to investigate.

Port Ewen firemen under Assistant Chief Myron Lane Jr. fought the blaze and Chief Wesley Clark was notified of the fire and went to the scene.

No Estimate of Damage

The Port Ewen firemen used foam, dry chemical and fog to bring the fire under control.

No estimate of the damage was available and it was expected the sunken boats would be raised later today.

Thwart Apparent Burglary Try at Broadway Store

Broken glass and a gun shot broke the early morning calm of Kingston at 1:20 a. m. today as a Kingston policeman thwarted an apparent attempt to burglarize Spada's Sport Shop, 594 Broadway.

Patrolman Albert Brown heard the sound of glass being shattered at the sport shop and rushed to the scene to find a gaping hole in the plate glass doorway and, according to Brown's report, Frank J. Torrisi, 20, pointing a 16-guage shotgun at him.

Brown fired his service revolver at Torrisi but the bullet deflected off the thick glass and missed the suspect, who ducked behind the counter.

Brown then ordered Torrisi to

Acts on Request For Ambulance Service Hearing

Ulster County Assemblyman Kenneth L. Wilson anounced today he has received word from Governor Nelson A. Rockefeller that a formal request has been directed to Dr. Hollis S. Ingraham, State commissioner of health, asking the Department of Health hold a series of statewide meetings at which all interested persons would be given a full opportunity to be heard concerning the new rules and regulations governing the operation of private ambulance services.

Last week Assemblyman Wilson contacted the Governor with a request that these public hearings be held for the purpose of better acquainting all private ambulance operators with the exact details of the new Health Department regulations, and to find out what objections there were to the various provisions of the new rules.

Dept. Granted Right

Wilson pointed out that this year a law was passed which granted the State Health Department the right to formulate regulations concerning the operation of private ambulance companies, in the opinion of the department, would add a greater measure of protection for the health, safety, and welfare of the residents of the State.

Assemblyman Wilson said he and other members of the Legislature saw on objection to establishing certain minimum standards for the operation of privately operated ambulance, but Wilson added there would be a very large degree of objection if the rules set forth by the De-

Rocky Splits With Udall on U.S. Plan

ALBANY, N.Y. (AP) — Gov. Rockefeller and the secretary of the interior were at odds today over a federal plan for the Hudson River Valley that Rockefeller denounces as "shallow, self-serving and partisan."

Rockefeller said Sunday in a letter to Secretary Stewart Udall that the plan "raises issues of grave concern for the people of New York State."

One part, he said, is a "highly competent, professional study of the Hudson River Valley, obviously prepared on a non-political basis by the Bureau of Outdoor Recreation."

The other part, the Republican governor charged, "consists of shallow, self-serving and partisan conclusions and recommendations which bear no relation to the professional" study.

Udall released the federal plan in a report Saturday which calls, in part, for a three-member commission compact and an advisory unit to aid the commission.

The federal - interstate commission would number one member each from New York, New Jersey and the federal government.

The role of the commission would be "to preserve and restore the natural beauty of the river and to guide the future growth and development of the entire Hudson River Basin, Udall said in report titled "Focus on the Hudson."

Calls State Better Plan

The Republican governor told Udall that the 15-member commission established by the State Legislature was a "far more equitable body for an area which is 95 per cent within New York State." The commission would have nine members from New York State and three each from New Jersey and the federal government.

On the other hand, Rockefeller argued, the arrangment proposed by Udall would "usurp local and state responsibilities."

"The report would give the commission a veto over any project in the valley," he said, "and would give the commission the power to tax and the power to overturn local zoning laws."

Must Win Fast, Ike Insists, Not For Nuclear Use

GETTYSBURG, Pa. (AP) — Former President Dwight D. Eisenhower still insists "we must do whatever is necessary to win" fast in Viet Nam. But he calls it silly for anyone to conclude this means he favors U.S. use of nuclear weapons there.

Up to LBJ Signals

The five-star general who led Allied forces to victory in Europe in World War II says it is an entirely different kind of war in Viet Nam — a guerrilla type which exposes friend and foe alike to any weapons used. Only President Johnson, Eisenhower adds, ultimately can call the signals on broad policy and grand strategy.

Eisenhower says his only advice is that it ought to be a strategy aimed at winning quickly and putting an end to loss of American lives.

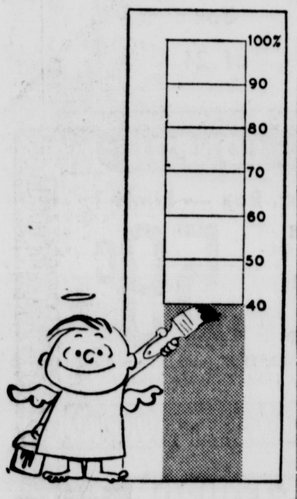

But to anyone who got the idea — and some did — that in recent remarks he was calling for or even suggesting use of nuclear weapons to achieve a swift victory, Eisenhower — in response to a quest for comment — has this to say:

"This is silly. How would you use nuclear weapons in Viet Nam? I ask: Do you have any idea?

"Personally, I would say whatever the President finds out he must do, I shall not criticize him. I do not know whether this war is going to escalate or

Chest Figures

The Ulster County Community Chest reached the 44 per cent point today with announcement that $134,056 has been pledged for the 1967 campaign.

With a goal of $299,600, a total of $165,544 is still to be realized, Campaign Chairmen Charles E. Raible and George W. Tamke said this morning.

It is hoped that 80 per cent of the campaign will be completed by Oct. 15, making it unnecessary to extend the drive. However, it was pointed out, all campaign workers must complete their calls and report results.

Inez May Spare South Texas As It Slams Mexican Coast

BROWNSVILLE, Tex. (AP)—Hurricane Inez slashed the Mexican Coast north of Tampico today and headed inland on a course that may spare South Texas and its multimillion-dollar citrus crop.

The Weather Bureau at New Orleans reported that Tampico, a city of 200,000 population, had wind gusts of 90 miles an hour.

A portion of the 17-day-old storm, which has taken at least 150 lives since developing out in the Caribbean, moved over the Mexican Coast, the Weather Bureau said.

It added in a 6 a.m. EDT advisory that the 50-mile-wide eye of the storm was expected to go inland this morning 25 to 100 miles north of Tampico and 150 to 225 miles south of Brownsville, near the villages of Moron El Sabino and Nuevo in the state of Tamaulipas.

The dangerous hurricane was located by Brownsville radar about 195 miles south of Brownsville. Inez was moving westward at six miles per hour.

It was the second recent change in course for the hurricane. Early today Inez swung to a more westerly path and headed toward the Tampico area.

About 24 hours earlier it had deserted a similar course and

See Albany Houses With Same Balance

ALBANY, N.Y. (AP) — The outlook is that the Legislature will emerge from the November election with the same political balance — Republicans in control of the Senate and the Assembly in Democratic hands.

At the same time, Democrats appear likely to retain their numerical superiority in New York's delegation to Congress, although Republicans have an outside chance of turning the tables.

This is the picture that emerged from an Associated Press mid-campaign survey of legislative and congressional prospects. The analysis is based on a study of election trends at the local level and conversations with knowledgeable leaders of the major political parties.

At this point, the consensus is that the gubernatorial struggle between incumbent Republican Nelson A. Rockefeller and Democrat Frank D. O'Connor will have little effect on these races.

Largely the congressional

BACKS FIRE PREVENTION WEEK — Mayor Raymond W. Garraghan signs proclamation in support of local observance of Fire Prevention Week from Oct. 9 to 15. The week is observed annually to include Oct. 9, anniversary date of the Great Chicago Fire in 1871. The proclamation notes a new high national fire loss of $1,760,000,000, and asks that the American Red Cross, Chamber of Commerce, business, labor and farm organizations, as well as schools, the public civic groups, and public information agencies, observe the week "by bringing fire safety facts effectively to the attention of all". 4,883 Register for Nov. 8, Top Gubernatorial of 1962

A total of 4,883 persons registered to vote in the first two days the polls were open, Friday and Saturday, according to figures released by the City Police Department.

This figure was expected to be higher since this is both a gubernatorial election year and the race for Congress in the 28th District has caused much interest in the area.

The figures for the two days were almost identical, with 2,445 registrations on Friday compared to 2,438 on Saturday.

The marked difference was in the Second Ward, First District which saw 176 persons registering on Friday but jumped to 356 on Saturday. The total registration for that Ward in 1965 was only 756 in the four days the polls were open.

The 12th Ward, Second District showed the biggest decrease in the two days, going from 309 on Friday to only 228 on Saturday.

Overall, registration is well be-

Powell Offers Own Definition

NEW YORK (AP) — Rep. Adam Clayton Powell, D-N.Y., urges Negroes to utilize responsible "black power" but condemns those who use it for "misguided and selfish ends."

The Harlem congressman, preaching Sunday at the Abyssinian Baptist Church where he is pastor, said: "Black power is a constructive approach to the new life of freedom for black people in the great society. Violence must play no part in the fulfillment."

He said there is "no violence nor anti-white feelings in the 'black power' I seek for black people."

Wrong Words

"There are those who scream 'burn, baby, burn!' when they should be shouting 'learn, baby, learn.'"

At the same time, Powell labeled all civil rights demonstrations during the last five years a "magnificent exercise of near-futility."

"We have indulged ourselves ... with our marches, our sit-ins, our demonstrations, our picketing and now our rebellions — and we are still where we were," Powell said.

"We have called the white man's attention to our sorry condition," he continued, "but we have made no conversions. We have transformed few minds. And we have made no significant changes in the economic conditions of the black masses."

'Loving Control' Urged

Negroes, he told the congregation, must exercise "a massive responsibility for their fate ... must assume a loving control and direction of their destiny."

Powell later told newsmen the purpose of his sermon was "to bring the fragments" together, to define and give direction to "black power."

O'Connor Endorsed By Syracuse Council

SYRACUSE, N.Y. (AP)—The Syracuse Central Trades and Labor Council of 122 unions with 50,000 members endorses Frank D. O'Connor in his bid for the State Executive Mansion.

Ironically, the president of the Syracuse Council is John Ewanisyzk, also regional director for the United Steel Workers, which has endorsed Republican Gov. Rockefeller in his bid for a third term.

In other support garnered Saturday, the Democratic gubernatorial candidate also won endorsement from:

—In Jamestown, the Jamestown Labor Council, representing 15,000 members in 40 unions.

—In New York City, five locals of the International Union of Dolls, Toys, Novelties and Allied products, with 17,000 members, and the 2,000-member local 122 of the Wine and Liquor Store Employes Union.

Funeral Workers Strike Averted

NEW YORK (AP) — Agreement was reached early today between metropolitan area funeral parlors and their employes, averting a threatened strike that had been set for 12:01 a.m. today.

The agreement was ratified by the union membership at 12.40 a.m., according to the office of State Mediation Board Chairman Vincent D. McDonnell.

The union, local 407 of the Building Service Employes International Union, AFL-CIO, voted to accept a two-year contract calling for an $8 raise the first year and a $7 raise in the second.

The agreement was hammered out after state mediators had worked with both sides through the weekend.

Mediator Meyer Drucker said that in addition to the pay increase the union members will receive one more holiday and a three-day bereavement period.

Full details of the settlement were to be presented to the mediators later today.

The union represents 450 funeral directors and embalmers employed by funeral parlors in the metropolitan area.

Bath Coup Saves Trick

By Oswald & James Jacoby
Newspaper Enterprise Assn.

The Bath coup derives its name from the resort town of Bath in England. Bath was a great whist center in the 19th century and the play was supposedly first used there.

Specifically it consists of letting an adversary's king hold the trick when you have both ace and jack. If the adversary continues the suit you make both your ace and jack. If he shifts you may gain time to go after tricks somewhere else.

Today's hand which is taken from Ely Culberston's Red Book illustrates an effective use of the Bath coup.

If South takes the heart lead with his ace East will get in with the ace of diamonds and give his partner two heart tricks.

When South ducks the first heart West is helpless. If he continues hearts he allows South to make his jack good. If he leads another suit South will draw trumps and knock out the ace of diamonds whereupon the jack of hearts will be discarded on one of dummy's long cards in that suit.

While this hand is 30 years old, we have modernized the bidding a great deal. East's jump to three spades was not the sort of bid you would meet in Culberston's day. You don't see it too often these days except in expert competition where most modern experts use that particular jump as a sort of preempt. In this case it puts considerable strain on North and South, particularly on North, who well might have passed at four clubs instead of going on to the game.

Senate to Vote Today on Cloture Over Home Rule

WASHINGTON (AP) — The Senate votes today on a motion to block a threatened filibuster against a proposal to give home rule to the District of Columbia.

The cloture motion needs a two-thirds majority of those voting. And opponents predicted its failure — particularly because a filibuster had not even begun.

Senate Democratic Leader Mike Mansfield, in calling for today's cloture vote, said prolonged dispute over home rule "would snuff out the last flicker of hope for an October adjournment" of the 89th Congress. Leaders still hope for adjournment by the end of next week.

Home rule, which has racial overtones because the nation's capital is 63 per cent Negro, has been strongly opposed by Southern senators.

The district now is governed by Congress and by three commissioners appointed by the President.

Sen. Wayne Morse, D-Ore., offered the home rule proposal Friday as an amendment to a $4.4-billion bill that would extend the Higher Education Act for three years. Morse's amendment would provide a district government with an elected mayor and an elected city council.

Action on several major bills must await the outcome of the home rule test.

One of those requiring such action is the college aid bill, which the Senate is expected to pass speedily once it comes up. That would clear the way for calling up three appropriation bills and important tax legislation.

The House has scheduled action on some minor, but fiercely conested bills before taking up the last major piece of President Johnson's legislature program: A far-ranging housing bill authorizing money to rebuild whole sections of cities. The Senate passed it earlier in the session.

One minor bill would establish an 11,000-acre national park in the Indiana dunes along the south shore of Lake Michigan. It has been caught in controversy for years.

Questions Often Asked About Chest Drives

How is the Chest goal determined? Why an increase of 50 per cent in one year? are questions frequently asked in view of the present Community Chest campaign to raise $299,600, for 1967 operating expenses for the 13 member health, welfare, recreation and character building agencies.

This year's goal of $299,600 represents the actual needs of the 13 agencies. In May, the agencies submitted budgets which were reviewed by the Budget Committee. The four panels of the committee review each budget carefully. Their experiennce and training enables them to eliminate all unnecessary expense. The Budget Committee members are not on the board of directors or affiliated with any agency and can, therefore, give an objective review. Our goal then is the sum of these budget amounts. Yes, it is 50 per cent more than last year but you see the agencies have been living on starvation budgets for years and cannot provide the needed services.

The Chest campaign organization has, therefore, accepted the challenge to raise the $299,600. It is confident it can through a carefully selected group of workers to present the Chest story to every citizen and give them an opportunity to contribute.

Meteorite Explodes

BREWSTER, N.Y. (AP) — State police said burning chunks of metal believed to be pieces of meteorite exploded in a baseball field here early Saturday.

Village Patrolman Gene Blaney heard the explosion at 3:30 a.m. and rushed to the field, where he saw "a big ball of flame shooting up maybe seven or eight feet."

"You should have seen the white smoke," he said. "It came rolling out like clouds. I thought it would never stop."

The Fire Department doused the flames and several pieces of metal — one larger than a basketball — were turned over to the state police. A meteorologist is to check the metal to determine if it is a meteorite.

Blaney said the pieces were very light weight and brownish green in color. "It looks like an old piece of soft coal," he said.

The patrolman said that while he was at the ballfield he heard several more explosions in the mountains, indicating other pieces fell there.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute.

This substance is now available in *suppository* or *ointment form* under the name *Preparation H®*. At all drug counters.

Why Buy a Mattress with your hands? (you don't sleep on them!)

You want a mattress to sleep on. A mattress that's flexibly firm. That gives proper support to your whole body. So you should test it with your whole body. Not just with your hands. In this kind of lie-down, stretch-out test, a Beautyrest wins hands down. *The* Beautyrest By Simmons. Immediately, you feel it's made differently. Beautyrest is built with separate individual coils.

They're not wired together, so they can't sag down together under body weight. Each coil is free to do what your body wants it to do. Now shift a hip. Dig in a shoulder. Roll over. See how separate coils give separate, flexibly firm support to every inch of your body. Natural support. You'll sleep like a lamb—wake like a lion.

So don't buy a mattress with your hands. Lie down on the job. And then insist—firmly—on a Beautyrest.

NEWSPAPER SERVICES

Newspaper Week, which currently is being observed throughout the nation, is an appropriate time to draw everyone's attention to his daily dependence on the written word for his knowledge of local, national and world affairs.

The written words, appearing regularly in some 11,000 American newspapers throughout the 50 states are the permanent record of news and information. Total circulation of all daily newspapers in 1965 was 60,357,563, the second consecutive year above the 60-million mark. Of the dailies, many more serve smaller communities than are published in the metropolitan centers.

It is well to remember that news of importance is not confined to the national and international level. It is equally important to be well informed regarding local issues, events and personalities. Perhaps more important because these things affect your life directly every day.

News from distant points reaches the newspaper through organized news services. Local news is gathered and written by the newspapers reportorial staffs.

Who died? Who was married? Where was the accident? Where was the fire? What took place in the courts and at the meetings of the Board of Supervisors, the Common Council and the School Board?

The newspaper records the vital statistics of the community, the social life of its people. Even beyond this, the newspaper is the "messenger" for every worthwhile organization which must get its message before the people in order to succeed in its undertaking.

Churches, schools, fraternal organizations, Community Chest agencies and others reach the community through newspapers. This is the newspaper's responsibility to its readers and the community it serves.

In addition to the news columns, there also are many features and special departments designed to help the reader in all sorts of pursuits.

Advertising, the life blood of any newspaper, falls into three general classifications:

National, which is designed to inform the reader about products, their superiority and to keep the product name before the public.

Local, an important service to the reader, tells him where he can obtain merchandise and the price of the item.

Want Ads, the market place for people to buy and sell goods, also help them to find jobs, homes and lost articles among many other things.

Johnson denies being at odds with intellectuals, but some still have a hunch that is motto is, "You've got to break eggheads to make an omelet."

The Office of Economic Opportunity has 50 "supergrade" employes in the $19,00-$24,300 slash. Even in the anti-poverty war, the generals dine well.

A Cabinet level Department of Transportation wins approval. Its director is expected to be a man who's interested in going places.

American's per capita consumption of beef last year was 99.3 pounds, which proves one thing: we're big spenders.

Nixon forecasts a Viet Nam buildup after the November elections—and hopes for a Nixon buildup in 1968.

More than 360,000 tons of gaseous waste are going into the air above America daily. And this doesn't include campaign speeches.

SMOG SOURS MILKY WAY

Just at the time man is bounding into space, the idustrialization that has made it possible is blurring his view of what's out there.

"Air pollution is no longer merely an earthly problem," complains Prof. Orren C. Mohler, chairman of the University of Michigan astronomy department. "It is affecting our observation of the stars."

Haze in the atmosphere, coupled with greatly increased night lighting, has already made observations of faint heavenly bodies impossible from optical telescopes situated near population centers, he says.

Smog is also a problem for radio astronomers because small particels of dust and dirt also emit radio waves and heat, creating "ghost" readings on their instruments.

The ideal location for an observatory, short of outer space, would be on top of a high mountain thousands of miles from the nearest human beings.

"But then," says Mohler, "you wouldn't be able to get astronomers to go there."

'These Days'

By JOHN CHAMBERLAIN

THE POLLUTION ISSUE WON'T GO AWAY

Apart from the Vietnamese War and the high cost of living, the issue of our physical surroundings seems to strike more sensitive nerves than any other issue affecting the 1966 political campaigns. The very mention of "pollution" in a column touches off the letter writers as nothing else does. Some of the letters are nostalgic and romantic, full of dreams of the past when the streams were clear and every small town was a Tom Sawyer - Huck Finn paradise. Other letters are argumentive, and some of them make points that should, in the interests of fairness, be presented.

Thus Don Miller, the Outdoor Editor of the Elyria, Ohio, Chronicle-Telegram, picks up a remark made in this column apropos Lake Erie. The remark was purely tangential, put forward in an article that was partly devoted to a scientist's proposal to turn Long Island Sound into a fresh water lake by damming it at two ends. "Soon," I wrote, "we would have an eastern seaboard version of Lake Erie, where the fish are reputedly dying for lack of oxygen."

The word "reputedly" was used advisedly, for my information about Lake Erie came from other people's articles and not from any personal dunking in the lake. What Mr. Miller says is that the many words written about Lake Erie being a "cesspool" are way off base. Mr. Miller admits that samplings of the lake "revealed an area of oxygen depletion in deep water, off Lorain." But this, so he continues, "has not killed fish. They merely avoid such areas. In turn, these areas of oxygen depletion normally are not permanent; they exist because of a combination of circumstances which can be varied by so little as a shift in wind direction."

Mr. Miller's report should be heartening to those who have assumed that pollution of U.S. lakes and rivers has reached a point of no return.

"On Lake Erie," he says, "we have a problem of combating pollution, most of it stemming from the Detroit area, and this is under attack now. Today it is a fine body of water. On my last walleye fishing trip, from four to eight P.M., I caught thirty-nine. It is not at all unusual for me to catch from five to ten smallmouth bass per outing, with the average varying from two to three pounds . . . Anyone can, in an afternoon of fishing for yellow perch, take 150 fish per indidual . . .

Mr. Miller is bothered because the more perfervid accounts of Lake Erie pollution are destroying his favorite lake as a playground for vacationers. "I have no economic interest in cottages, marinas or commercial fishing," he says. "My only interest is in letting people know the truth about this five million-acre body of water."

Since the conservation issue in all its many facets is being picked up by political candidates everywhere, it is good to have all the pros and cons laid out for inspection. Last month this column let Barry Goldwater have his say about the proposal to dam the Colorado River in a couple of places below the Grand Canyon. Goldwater says the damming would not harm the Grand Canyon from the spectatorial point of view. Since he is a native of Arizona, and an honest man who would not knowingly violate the truth, I thought Goldwater was entitled to his opinion, which hadn't had much play in the headlines.

Barry's opinion, however, has by no means won the conservatives to his pro-Arizona argument that damming the Coloradio will produce economic benefits that outweigh any esthetic loss in Grand Canyon scenery. "The New Guard," which is the monthly magazine of Young Americans for Freedom, a group which has always stood staunchly in Barry's corner, comes out boldly against the damming of the Colorado. "The New Guard" editors call the proposition a "boondoggle" which would destroy invaluable geological records and block the side canyons with silt that would create a nasty situation at "low tide" in the river system.

So the conservative camp is split down the middle on the subject of tampering with the Colorado River. Well, the more argument here, the better. Regardless of the rights and wrongs in the damming issue, it is good to know that conservatives can be trusted to keep open minds until the evidence has been thoroughly sifted.

Love, Bit of Frustration Is Good 'Diet' for Child

By WAYNE G. BRANDSTADT, M.D.
Newspaper Enterprise Assn.

Q—Our 2-year-old daughter won't mind a thing we tell her. When we try to force her she has tantrums. She gets plenty of spanking but nothing seems to work. She isn't spoiled. What is your advice?

A—All of us have our daily frustrations but there is a great deal of difference in the way we react to them.

If you want a happy baby you must frustrate him a little every day starting in infancy. Frustration is one of the facts of life he will have to learn to live with.

Small doses early can be compared to vaccination; they prepare your child for the bigger frustrations that are bound to come.

The baby whose parents instantly give him first the bottle, then toys, money, a bike and an auto as he grows older will not be as well-adjusted an adult as the one who learns that he will receive none of these on demand.

He should learn that he must earn them through patience or his own efforts or do without.

You seem to have made a bad start with your daughter but age two is not too late to start a course of small frustrations and is much better than waiting until she is four or 14.

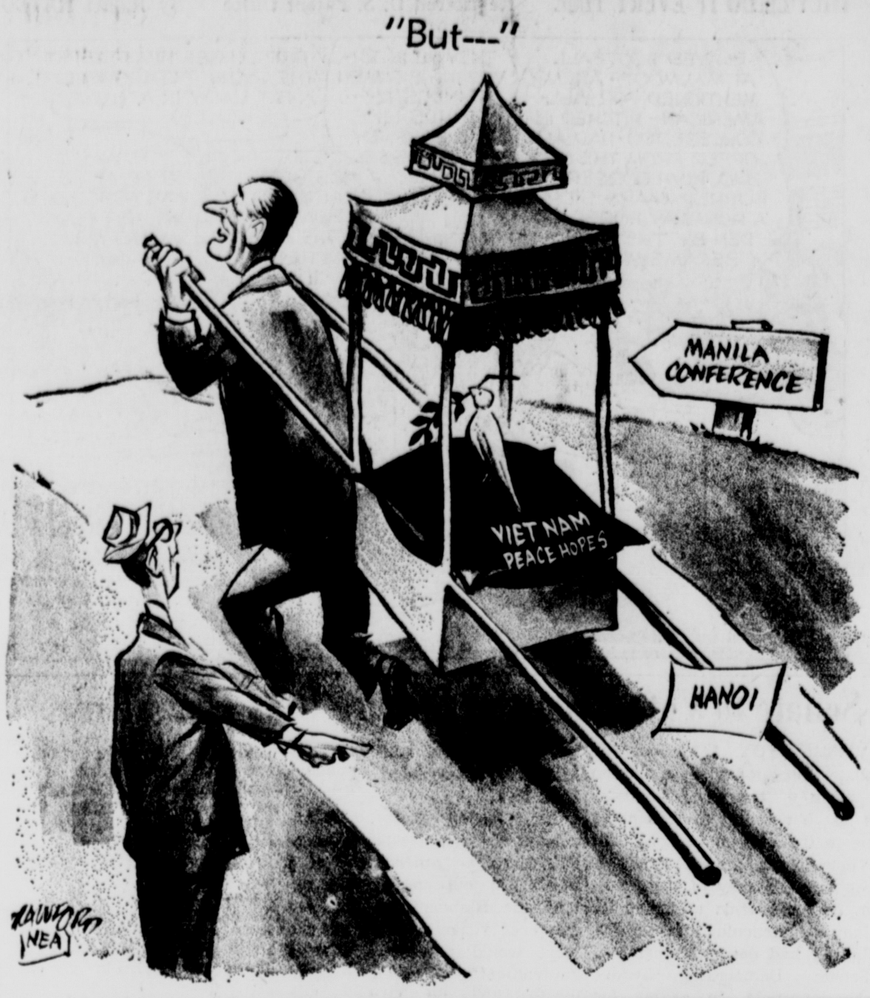

Spanking doesn't help, as you have discovered, so why not show her at all times that you love her even when failing to comply with her demands and forget the spankings which she may interpret as a withholding of love, the most frightening thing that can happen to a child.

* * *

It will soon be Halloween again and the trick-or-treat experts will get you if you don't watch out. Motorists should be extra cautious when driving during the early evening hours on Halloween but all of the responsibility for your children's safety should not be placed on the drivers. You should warn your children against crossing the street anywhere except at a well-lighted intersection.

Whether you have children or not, you should keep your dogs indoors for a few hours during the height of the Halloween activity.. It is also wise to put away your garden tools, trash cans and other movable objects on the principle that it is better to avoid trouble than to fight with your neighbors after an act of vandalism has been committed. Vandalism may be as abhorrent to you as it is to all civilized persons but it cannot be said to be dead.

It is a fine and necessary thing for children to release some of their excess energies from time to time. See that when they do, they do not overstep the bounds of safety.

Washington News

Washington Correspondent

WASHINGTON (NEA)—Barry Goldwater's attempt to precommit the 1968 Republican convention against Michigan's Gov. George Romney is a fascinating endeavor — without precedent in modern GOP annals.

Goldwater keeps saying that the 1968 convention will be largely a carbon copy of the 1964 pro-Goldwater affair in its delegate make-up and then signaling potential delegates that he heartily disapproves of Romney.

The man he is talking about is, at the moment, the one most favored by rank and file Republicans. Romney's poll margin over Richard Nixon is roughly 4 to 3. Polls also show the Michigan governor trailing President Johnson only 51-49, while Nixon runs behind LBJ 57-43.

These figures could, of course, change radically against Romney in the long months between now and nominating time. Nixon or a possibly victorious Ronald Reagan in California might alter the equation.

Presumably, too, Romney needs not only to win a big re-election vote this November but to risk and win some key presidential primaries in 1968.

If he does all this, however, his poll status as the most favored Republican may be not only maintained but enhanced as well.

Goldwater thus is putting himself in the position of opposing flatly, nearly two years before convention time, a potential candidate who is today and could be then his party's best vote-getting bet to overturn Lyndon Johnson.

His signals to like-minded conservatives do not say: Don't vote for Romney." They simply say, in effect: "I don't think these people would vote for Romney."

Goldwater's opposition, incidentally, appears rooted in displeasure over the governor's refusal to campaign for Goldwater as GOP presidential nominee in 1964, and over Romney's presumed liberalism—though he is, in fact, an almost indefinable blend of liberal and conservative.

Should Romney continue to maintain top party stature as presidential timber, some cold-eyed Republican professionals suggest that continued Goldwater disapproval, telegraphed constantly to other conservatives, would amount to a suicidal impulse.

It strikes these professionals as incredible that any major party leader would try to slam the door on any man who might by early 1968 have a solid chance to unseat LBJ.

Actually, though, their annoyance is tempered by a conviction that the Barry Goldwater of 1966-68 could not likely make a veto of Romney stick.

One party veterans says privately that he believes Goldwater's real following is very sharply diminished from 1964.

Moreover, the former senator's contention that the 1968 delegate make-up will duplicate 1964 is widely contested.

Party officials say that in recent conventions prior to 1964 the delegate repeaters came to 45 to 50 per cent of the total. The heavy Goldwater flood that year reduced the percentage of repeaters to around 35 per cent.

Ample signs already have been noted by state GOP leaders and others that a good share of the 1964 pro-Goldwater delegates will not be back. The proportion of repeaters is being estimated at from 35 to 45 per cent.

A convention with newcomers adding to possibly 55 to 65 per cent of the total can hardly be dubbed a carbon of 1964, even if many new choices show conservative leanings. Seasoned professionals look, in fact, for a roster more flexible than 1964, more dedicated to winning and hence more receptive to a George Romney or anybody else who might look like a winner.

Says Government Can Take Action in Racial Imbalance

BY DAVID LAWRENCE

WASHINGTON — The U. S. Department of Justice, through acting Attorney General Ramsey Clark, has notified the House Rules Committee that the federal government feels it has complete power to order the reassignment of teachers, professors or members of the staffs of any educational institution receiving federal assistance if there is any reason to believe that "racial allocation of faculty" denies to students "equality of educational opportunity."

Mr. Clark submitted a lengthy opinion which contends that, even if the schools are desegrated as to pupils, the presence in the faculty of too many teachers of one race could nevertheless effect the quality of the education given to the students.

A U. S. court of appeals decision, however, in July 1966—which is cited in part by the department of justice memorandum as a basis for the action now advocated—decries discrimination in the selection of teachers but does not conclude that racial imbalance is necessarily unlawful. The court said:

Opened to All

"Vacant teacher positions in the future . . . should be opened to all applicants, and each filled by the best qualified applicant regardless of race. Moreover, the order should encourage transfers at the next session by present members of the faculty to schools in which pupils are wholly or predominantly of a race other than such teacher's."

The Civil Rights Act of 1964 specifically says in title IV:

" 'Desegregation' means the assignment of students to public schools and within such schools without regard to their race, color, religion, or national origin, but 'desegregation' shall not mean the assignment of students to public schools in order to overcome racial imbalance."

Yet the department of justice now claims that Title IV is virtually superseded by Title VI, which is called "nondiscrimination in federally assisted programs." It says:

"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance."

But section 604 of Title VI says that no action which withholds federal funds is authorized "with respect to any employment practice of any employer." Teachers, of course, are employees, and their employers are local governments. Yet in the document submitted by the acting Attorney General is the following declaration suggesting interference with employment practices in hiring or assigning school teachers:

"The assignment of teachers to particular schools could be a most effective means of practicing racial discdimination against students who are intended beneficiaries of a federally supported educational program. Surely, if a school district pursued an official policy of assigning teachers with class 'A' teaching certificates only to schools attended by white students the discrimination against the Negro students would be obvious. Congress could hardly have intended by the language of section 604 (Title VI) to exclude such a gross discrimination from the reach of the statute, particularly in light of the specific reference made by Senator Humphrey that Title VI, as it passed the House, would reach teacher segregation.."

Just what were the words of Mr. Humphrey, who has since become Vice President? He said at the time:

Might Be Justified

"The commissioner might also be justified in requiring elimination of racial discrimination in employment or assignment of teachers, at least where such discrimination affected the educational opportunities of students.

"This does not mean that Title VI would authorize a federal official to prescribe pupil assignments, or to select a faculty, as opponents of the bill have suggested. The only authority conferred would be authority to adopt, with the approval of the President, a general requirement that the local school authority refrain from racial discrimination in treatment of pupils and teachers, and authority to achieve compliance with that requirement by cutoff of funds or by other means authorized by law."

Hubert Humphrey's statements made in 1964, however, now are being interpreted as permitting a system of teacher assignment to correct imbalance in the faculty of a public school or college. The Department of Justice today is assuming, in effect, that a teaching staff denies equal opportunity for education just because there are many more teachers of one race than another in a public school or university receiving federal assistance.

Do You Remember by Sophie Miller

I have a copy of the Kingston Daily Freeman of Sept. 12, 1888, which was given to me some years ago by Max Oppenheimer of the Public Works Department. One item tells about members of the Retail Merchants Association, from Dutchess and Ulster and neighboring counties having a parade of its members in Poughkeepsie. The parade was formed at 10 o'clock with almost every business being represented. The procession marched to the Driving Park, where it was reviewed by Acting Mayor Nesbitt and members of the Common Council. At the Driving Park, they had bicycle races, horse trotting, foot races, sack races, and a clambake and dancing.

This paper of Sept. 12, 1888 tells about members of the C. S. Connelly Gun Squad of Port Ewen, firing 21 guns in honor of the election parties in Maine. In the days of the D and H Canal business in Rondout, "There arrived at tidewater at Eddyville, forty-nine Delaware and Hudson Canal boats, laden with six thousand, three hundred and seventy tons of coal."

They describe races at the Kingston Driving Park. Horsemen were coming from all over for these races. "The pacing race will be comparatively new to this track." There was also to be a running race between two speedy horses.

I see the list of Republican Nominations in this Sept. 12, 1888 issue. For President of the United States, Benjamin Harrison of Indiana. For Vice President, Levi P. Morton of New York. For electors at Large, William H. Seward of Cayuga. I see one advertisement from Spore and Elting of No. 8 Wall Street selling "Torches for the Political Campaign, for processions and parades." In those days politicians had to speak right up, for they marched in these torch parades and then had to talk from balconies like from the Mansion House balcony, and sometimes hecklers added to the show.

My neighbor, Mrs. D. LaTorre often gives me an interesting little booklet called The Houghton Line published at 303 West Lehigh Avenue, Philadelphia 33, Pa., which covers their products of oils, chemicals. They in turn pick up items from other concerns, like Warner and Swasy of Cleveland, Ohio who had an editorial on the life of the youth of America of some years back . . . which reads in part: "Busy, cutting lawns, shoveling snow, running errands, delivering packages for 10 cents, selling newspapers, doing housecleaning for my mother, and going to school. I passed my grades, too;" or face the consequences at home from my parents.

This item further reads in part: "No one concerned himself about my amusements, either. What fun we had, we arranged ourselves. But if we did any damage like breaking a window in a ball game, we paid for it by working it out. We never heard these modern phrases like 'standard of living,' 'subsistence level,' 'minimum requirements.'" Further the article explained: "Our standard of living was whatever my father and I earned. I don't suppose anyone took the trouble to 'understand' me. Why should they? And certainly no one ever gave a thought to my 'problems.'" They were mine, and he solved them without getting into trouble. When his father was laid off they lived on the savings until another job came along, and along the way the family had self-respect, because whatever they had, however little it was, they earned it themselves. He concludes that is why America is such a strong nation today, and "it will stay strong only as long as there are enough Americans more interested in earning than getting. Today the powers that be, the politicians don't look in the "kitty" or the sugar bowl to see if there is something to spend, they run up obligations knowing they can squeze it out of the taxpayers one way or another. Like one author wrote, a politician is one who thinks of himself and his salary, and a statesman is one who thinks of the good he can do for his section and country. This bookelt also likes to cover old trolley-cars, covered bridges, and other interesting old Americana, which the politicians do not make any effort to preserve. Let's have more statesman and less politicians.

Kills Estranged Wife, Then Self

BUFFALO, N.Y. (AP)—A 40-year - old man, who had sought a reconciliation with his wife, shot her fatally and then put a bullet in his head, police say.

The bodies of Lawrence Fortson and his wife, Mary, 35, both of Buffalo, were found early Sunday at the home of Mrs. Fortson's cousin, Miss Margaret R. Lewis.

James J. Creighton, an Erie County medical examiner, ruled the deaths a murder and suicide.

Officials said the couple had been separated for several days. Mrs. Fortson had been visiting her cousin's apartment.

Police said Miss Lewis told them that Fortson came to her apartment seeking reconciliation with his wife. Miss Lewis said she left the couple alone in the living room to discuss their problems in private and that later she heard shots.

Mrs. Fortson's body was found on the couch. Police discovered Fortson's body on the front steps of the house with a .38 caliber revolver at his side.

INVESTOR FORUM

By HARRY C. FRANCE

Tight money is no respecter of corporations. When interest rates are high, as they are at present, enterprises with the best credit rating must pay dearly for the money they borrow. The prime interest rate today is higher than it has been for many years.

That is why corporation securities, sold to the investing public when money was cheaper, are selling in the market at low prices. And not in 40 years have investors been so privileged to buy bonds and preferred stocks on such a favorable basis.

Now is a wonderful time for conservative investors to buy the preferred stocks of scores of leading corporations. Yields of from five to six per cent are available. And these preferreds, listed on the New York Stock Exchange, enjoy good markets. They can be bought and sold instantly.

General Motors, the world's largest production and sales organization — doing an annual business of $20,000,000,000—has outstanding two very high-grade preferred stocks paying $5 and $3.75 a year, respectively. The five-dollar preferred is redeemable at $120 a share; the three-and-three-quarter stock at $102.

As this is written, the $5 stock is selling at $95 a share, affording a yield of more than five per cent. The $3.75 stock can be bought for $72 a share—$30 under call price.

In 1965, General Motors made over $2,000,000,000 after taxes on sales of more than 20 billions. And the preferred dividends were earned 150 times over.

Tight money has set up an ideal investment situation for savers who must have liquidity and a good yield. If, in 1967-1968-1969, money should get cheaper, these preferred stocks would appreciate in price a great deal.

DuPont, the world's top-ranking chemical corporation, has outstanding two very high-grade preferred stocks — one paying $3.50 a share a year and selling at $70 a share to yield five per cent a year; the other, paying $4.50 a share and selling at $87 a share, yielding more than five per cent.

A wealthy bond owner who buys large quantities of fixed-dollar obligations has recently bought 600 shares of Du Pont $4.50 preferred with dollars realized from maturing bonds.

That is a cue for thousands of small investors with a thousand or two thousand dollars they would like to employ profitably without taking any chances.

One of America's great railroads, Atchison, Topeka and Santa Fe, has outstanding a preferred stock paying 50 cents a share a year, that can be bought at $9 a share to yield 5½ per cent. It will not go down much and if money were to get cheaper, it coud appreciate a dollar or two a share.

The big packer, Armour, has a $4.75 preferred outstanding. Consolidated Edison has a $5 preferred. Niagara-Mohawk has a $5.25 preferred. Radio a $3.50 stock; Westinghouse a $3.80 preferred. Pices are low, reflecting expensive money. There are a score of others.

Not in 40 years have conservative investors been more privileged to buy high-grade stocks with good yields and instant marketability than now.

Predict High Viet Toll

WASHINGTON (AP) — Statistics indicate that more than 5,000 U.S. servicemen may be killed in Viet Nam this year.

Between last Jan. 1 and last week, 3,765 Americans had been killed, including 91 during the week ended last Saturday. Records show that 6,944 South Vietnamese had been killed in the nine-month period, including 87 during the week ended last Saturday.

As the U.S. forces take a bigger part in the war, both their death toll and its percentage in relation to Vietnamese losses have climbed. American losses through last weekend were 54 per cent of the Vietnamese deaths. And they have been at 58 per cent since June 30.

Records also show that more than 22,000 American troops have been wounded in action since the year began.

Carol Burnett Rates 'A' With New Faces, Talent

By CYNTHIA LOWRY
AP TV-Radio Writer

NEW YORK (AP) — Regardless of her show's grades, Carol Burnett rates an "A" and the audiences' gratitude for getting some new faces and fresh talent into her specials.

Sunday night, in her first CBS outing of the season, Miss Burnett came up with Rock Hudson and Ken Berry. Both gentlemen have had considerable exposure to audiences, but never before in the context of a musical variety show.

Berry Excels

Hudson with a pleasant singing voice, entered into the spirit of a rough house sketch with Carol with considerable uncertainty but enthusiasm.

The most attractive and surprising guest star was Ken Berry. He is comedian in the weekly series, "F Troop," and plays the captain who is forever tripping over his sword. But Sunday night after a series of comedy falls, he strolled into a nimble dance solo which was a professional imitation of early Fred Astaire style.

Frank Gorshin, the impressionist, the only variety show veteran on the show, even turned temporarily into a singer — after he went through his usual series of imitations.

It was a tuneful, bright if not particularly inspired hour. Most of all, though, it provided a nice change from the usual guest star lineup which seems to consist of the same people turning up on one show after another with approximately the same routines and songs.

Garry Picks Up

The Burnett special was part of a curious programing set-up. It followed two previous hours CBS devoted to variety shows. Three solid hours of this sort of thing is a little excessive.

"The Garry Moore Show" which preceded it, seems to have picked up a little needed steam, although its sketches and comedy material generally remain on the lackluster side.

The effort Sunday night was to get funny answers to questions about air pollution, but none was forthcoming.

But the song and dance numbers were bright and sprightly and the production numbers handsome. The show is increasing its writing staff with some well-known comedy writing talent, which ought to start paying off within the next couple of weeks. And last night was a marked improvement over the earlier shows.

Wallace Sets Stage Again

Likens Nixon to LBJ In Prepping for' 68

MONTGOMERY, Ala. (AP) — "I'm not only against Lyndon B. Johnson," says Alabama's Gov. George C. Wallace. "I'm against Richard Milhous Nixon also."

Thus Wallace, campaigning for his wife to succeed him, has set the stage for another presidential venture. And he has answered Republican critics who have sought to tie him, through party identification, to President Johnson's administration.

LBJ Major Issue

Johnson's demonstrated unpopularity in Alabama has become a major issue in a race which will give the state its first woman governor in history or its first Republican governor in almost a century.

Wallace's wife, Lurleen — running as a standin for her husband because he is prohibited by law from succeeding himself — is a heavy favorite to defeat her GOP opponent, Congressman James D. Martin, and an Independent, Dr. Carl Robinson, in the Nov. 8 election.

Martin says his own polls show Mrs. Wallace's margin is narrowing.

Wallace, a symbol of segregationist resistance in the Deep South, is counting heavily on his defiance of federal desegregation orders to put his wife into office. Again and again, as he speaks in her behalf, he has promised an unending struggle for "the right to run our own affairs."

He has never said unequivocally that he will run for president in 1968, as he did in 1964. But he has told campaign crowds that he "just might" be a candidate "unless the major parties give us someone (a conservative) we can vote for."

And then he systematically rules out every Democrat or Republican thus far mentioned as a nominee, including former Vice President Nixon, who is Rep. Martin's choice.

Stands for Same

Wallace says Nixon was partly responsible for the use of troops to integrate Central High School at Little Rock, Ark., in 1957 and that Nixon supported civil rights bills.

"Nixon stands for the same things Lyndon B. Johnson is for," says the governor. "So what do you gain if you defeat Lyndon Johnson with Richard Milhous Nixon? You're jumping from the frying pan into the fire."

Martin, who almost defeated veteran Sen. Lister Hill four years ago and then was elected to the House in the 1964 Alabama landslide for Barry Goldwater, has sought to make an issue of Wallace's presidential ambitions.

He argues that a third party race for president would split the anti-Johnson vote and help re-elect the President.

Wallace's reply to that is, "Sure, we want to hurt them. We want to hurt both parties. Then maybe they will pay attention to us."

Editorial Writers Elect Lockport Man

NEW YORK (AP)—Charles J. Wellner, editor of the Lockport, N.Y., Union-Sun & Journal, is a new member of the editorial board of the National Conference of Editorial Writers.

Wellner was elected Saturday at the closing session of the 20th annual meeting. The editorial writers also voted to hold their 1967 conference in Nashville, Tenn., and their 1968 meeting in San Diego, Calif.

Wilbur D. Elston, editorial page director of the Detroit News, was elected president of the group.

Asthma Formula Prescribed Most By Doctors—Available Now Without Prescription

Stops Attacks in Minutes . . . Relief Lasts for Hours!

New York, N.Y. (Special)—The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription.

Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms.

This formula is so effective that it is the physicians' leading asthma prescription—so safe when used as directed that now it can be sold without prescription in most states—in tiny tablets called *Primatene®*. These Primatene Tablets open bronchial tubes, loosen congestion, relieve taut nervous tension. All without painful injections.

The secret is—Primatene combines 3 medicines (in full prescription strength) found most effective in combination for asthma distress. Each performs a special purpose.

So look forward to sleep at night, and freedom from asthma spasms. *Get Primatene at any druggists.*

Buffalo Probes Bizarre Slaying

BUFFALO, N.Y. (AP)—Police searched for a motive today in the bizarre slaying of a 48-year-old man they described as a free-lance photographer.

The body of Charles E. Harris was discovered Sunday by police when they broke into his apartment after a rent collector said she was unable to gain admittance.

A medical examiner said Harris had been shot with a small - caliber firearm, twice in the chest and once in the head up to two days before. The weapon was not recovered.

Police said the man's body lay on his bed with his feet extended over the end. A half-smoked cigar was in his mouth, a glass of wine or whiskey was in his right hand and a wine bottle was between his legs, they said.

A crucifix and a cloth bag containing about $8 in pennies had been placed on his chest, they added, and his torso and legs had been covered with photographs, letters and papers.

The bedroom of Harris' apartment had been thoroughly ransacked, investigators said. They theorized that he had been placed on the bed after being shot.

Harris lived at 28 Milner St.

Dies of Burns

BUFFALO, N.Y. (AP)— Leroy F. Stutz, 61, of suburban West Seneca, died Saturday in Sisters Hospital of burns suffered Thursday while working in a plant of the National Aniline Division of Allied Chemical Corp.

A hot caustic solution erupted from tanks and splashed over Stutz, causing third - degree burns over 90 per cent of his body, hospital officials said.

His address was 220 Mineral Springs Road.

Alcoholism Big Problem

ALBANY, N.Y. (AP)—"Alcoholism is one of the state's most serious and misunderstood health problems," says Gov. Rockefeller, who promises a new health program for alcoholics, if he is re-elected.

Rockefeller said Friday there were about 700,000 New Yorkers afflicted with drinking problems and made proposals that would:

—Develop a plan for helping the alcoholic who gets in trouble with the law.

—Establish a program of assistance for state employes who have on-the-job problems connected with the use of alcohol.

—Appoint a committee of key labor and management figures to promote industrial educational programs on alcohol.

—Expand the state's public education campaign on alcohol and driver safety.

Today's Business Mirror

By JOHN CUNNIFF, AP Business News Analyst

NEW YORK (AP) — The company that made your toaster or perhaps the tires on your automobile may be among those joining in the newest growth industry, building cities.

General Electric Co. has made plans to add cities to its product line within a year. The expected cost for each city will be about $800 million to $1 billion over a 15-to-20-year period.

Goodyear Investing $1 Billion

Goodyear Tire & Rubber Co. is building what it hopes will be a city of 100,000 persons near Phoenix, Ariz. It also expects to invest about $1 billion.

Humble Oil & Refining Co. is heavily invested in Clear Lake City, Tex. and millions of dollars of corporate money backed the private developers of Reston, Va., and Columbia, Md.

The new industry has a vast concept. It encompasses the houses, churches, museums, the fire house — all built from the cellar holes up undeterred by red tape or old-fashioned building codes.

Logical Consequence

The production of brand new towns is perhaps a logical consequence of urban blight, the profit motive, the population boom. It is a modern-day evolution, greatly expanded, of what we once knew as housing developments.

For Goodyear, now building Litchfield Park, Ariz., the motivation was the population boom, the profit motive and the availability of land.

During World War I the company bought 13,000 acres of ranchland to grow long staple cotton for tires. Synthetics meanwhile replaced cotton; and the booming city of Phoenix, less than 18 miles away, rattled the ranch gates.

'New' City

Goodyear decided to utilize the land over 2½ decades. When the town is finished, therefore, nothing in it will be older than 25 years — not the factories, nor museums, nor churches nor curbstones.

The question arises of whether a corporation should create towns. Accustomed to production line methods, can the corporation attune itself to the individuality that brings vitality?

Will the corporate stamp, for example, be impressed upon the design of churches, the town houses, the patio homes of Litchfield Park?

Only Basic Facilities

Goodyear, at least, believes not. "We're putting in the basic facilities," said Patrick Cusick Jr., general manager, "but the actual designs are left to the individual owners, to the churches and the museums."

Cusick, who holds a master's degree in city planning from Harvard and a big reputation as one of the rebuilders of Pittsburgh, believes the emerging city in Arizona is a creative project, one that is still developing and which won't show a distinct pattern for five or 10 years. About 600 people live there now.

Will Maintain Quality

After a decade or less the people who have purchased lots and built homes and encouraged churches and museums to locate in Litchfield Park will find it in their own best interests to maintain the quality of the city.

As the town grows there may be pressure for incorporation and then perhaps a mayor will be elected or a city manager named. The role of the corporation, presumably, will be to diminish and then leave.

206 Days of Racing

FRANKFORT, Ky. (AP) — Kentucky will have had 206 days of horse racing this year when the 1966 season closes at Latonia Dec. 17.

Oct. Adjournment For Senate Nixed By District Snarl

WASHINGTON (AP) — The Senate's part-time job as Washington's City Council produced a parliamentary snarl today and threatened the quest for late October adjournment of the 89th Congress.

It led to orders for a token Senate session today. That, in turn, will permit a Monday vote to end a filibuster which hasn't started.

Started Friday

The parliamentary spin began Friday when Sen. Wayne Morse, D-Ore., proposed an amendment to grant self-government to people who live in the District of Columbia. The capital now is governed by Congress and commissioners appointed by the President.

Senate Democratic Leader Mike Mansfield said the amendment — which Morse proposed as a rider to a pending higher education aid bill — was confronted with "the promise of a filibuster," presumably by Southerners. Washington's population is about 63 per cent Negro.

Acknowledging that his action was unusual, Mansfield promptly filed a petition seeking to limit debate on the amendment before any debate had been heard.

Due to Lapse

Today's Senate session was called because the rules require a lapse of one legislative day between the filing of a cloture petition and the automatic roll call vote on debate limitation.

If Mansfield's petition — signed by 21 other senators — wins the required two-thirds backing, it virtually will assure Senate adoption of the Morse amendment.

The odds are against approval of cloture on a measure that hasn't yet faced debate.

Possible New Problems

If the Senate should approve the amendment, it would go to a House-Senate conference committee, then, presumably, to the House itself. And Southern opposition, plus a different set of parliamentary guidelines, could create new problems there.

Amid the maneuvering, Mansfield — seeking adjournment within two week — talked in less than optimistic terms about the prospects for ending the session this month.

He said an October adjournment "now remains in the realm of the possible," but any filibuster on the Morse amendment "would most assuredly snuff the last flicker of hope."

Named to Wage Group

ALBANY, N.Y. (AP) — F. Clark Hamlin of Chaumont, Jefferson County, is a new member of the Advisory Board on Prevailing Rates of Wages in Public Work, State Labor Department.

Hamlin was named Saturday to succeed Addison Mallery of Saratoga Springs, who resigned.

The 45-year-old Hamlin is clerk of the Jefferson County board of supervisors.

Withdraws Suit

NEW YORK (AP) — The Department of Justice has formally withdrawn its anti-trust suit against the World Journal Tribune following the merged paper's decision to permit bidding by other New York area dailies on 19 disputed columns and features.

Attorneys for the government and the newspaper signed a stipulation withdrawing the action in Federal Court Friday.

The step was only a formality because the World Journal Tribune had filed a consent judgment Thursday making the syndicated material available to other newspapers in the metropolitan area.

The Justice Department had originally charged that the month-old paper's acquisition of the features from the defunct Herald Tribune could restrict competition among the city's papers and threaten the existence of the afternoon New York Post.

The World Journal Tribune is the product of the April merger of the Herald Tribune, World-Telegram & The Sun and the Journal American

Talk Could Mean Better Atmosphere

WASHINGTON (AP) — President Johnson meets with Soviet Foreign Minister Andrei A. Gromyko late today amid a scent of slight improvement in U. S.-Soviet relations.

U. S. sources cautioned against any great expectations from the White House session, which was in the nature of a courtesy visit since Gromyko is in this ountry attending the U.N. General Assembly fall session.

But the mere fact of a Gromyko trip to Washington was a step above the icy atmosphere that set in with the massive U. S. military involvement in Viet Nam in 1965.

A year ago Gromyko stayed away from the U. S. capital, though he went to New York as usual for the annual U.N. opening and had stopped at the White House in previous years.

The Kremlin still supports North Viet Nam against what it terms American aggression, and it has served notice it will not move for peace talks until Hanoi wants them. Gromyko spurned another peace bid in New York Saturday, which had been presented by British Foreign Secretary George Brown.

Rolison Is Proud Of N.Y. State's Education System

Jay P. Rolison, Republican candidate for State Senator in the Dutchess-Ulster District, stated that the high rating of the New York State's educational system is a tribute to the devotion to education of our Republican State administration and legislators as well as to teachers and others in the educational profession. His statement follows:

"As a New Yorker and a Republican I am proud of the fact that New York State was recently rated as having one of the two highest quality educational systems in the nation.

The non-profit Council for Basic Education recently rated the quality of education of our 50 States, using the results of the National Merit Scholarship tests as a basis for such rating.

New York State ranked second. Connecticut was first with a rating of 3.22 while New York was close with 3.18. The average for all fifty states was 1.69 and only 19 states exceed that average.

Thus we can see that our state rating was almost 2½ times that of the National average.

The results published in the recent bulletin of the Council on Basic Education reflect, among other things, the quality of the schools in each state.

In the past eight years our Republican Administration and legislators have been dedicated to ever increasing improvement in the educational system of our state. This rating is a tribute to their devotion and achievement.

This advance springs not only from our increase in State aid, which has made progress possible, but also from the dedicated service and efforts of those in the teaching and educational professions. They too must share in the credit for this achievement and I am proud and happy to salute them.

We can have no greater guarantee for the future than the proper education of our children, of whom almost 3 million are in school this year.

In the past eight years we have made great strides in all phases of education and in guaranteeing educational opportunities to all segments of our communities. This has taken us to a position of topping the educational systems of 48 other states and being right on the heels of the only state rated above us.

JULIE JUST

'66 Kapers Add

eral chairman. "Kingston holds a special place in her heart and that played a big part in her decision to revisit here to relive her moment of triumph."

Competing as Miss Taughannock Falls, Miss Just reigned as Miss New York State in 1964-65. She captivated the audience in Kingston with her song, "Anywhere I Hang My Hat Is Home" which won her the local talent category here. Singing the same song, she also was named the "most talented popular singer" at the Miss America Pageant in Atlantic City and won a $1,000 prize there.

Ithaca Graduate

Miss Just was graduated from Ithaca College in 1965 with a degree in Music and Drama.

She has sung in dinner clubs in St. Louis, Chicago, New York City, Ithaca and Buffalo, and currently is an active member of the Cornell University Savoyards (Gilbert and Sullivan Society) and the University of Michigan Savoyards.

Miss Just is teaching speech and drama at Lackawanna Senior High School, Lackawanna, and is doing productions with the Amhurst Players, Amhurst.

She was married in September, 1965, to Dominick Amato, a medical student, and her first child, Alex David was born this July.

Acts on Request

partment of Health were so stringent that many reputable firms, particularly those operated by funeral directors, would be forced out of business. The assemblyman said if this were to happen in Ulster County, as well as in other Upstate areas, hundreds of thousands of people would be denied ambulance service.

Asks Board Membership

In addition to requesting the hearings, Gov. Rockefeller in his letter to Dr. Ingraham also requested an advisory board for the new ambulance regulations be established as soon as possible, and that the membership of board be on a broad basis to allow all interested parties, including funeral directors who operate ambulance services, to be properly represented. Assemblyman Wilson pointed out the new rules will go into effect on the first of next year, and that he would urge that the implementaion of the rules be delayed if the proposed hearings have not been completed by that date.

Hurt in Crash

A 20-year-old Bronx youth was injured shortly after 5 a. m. Sunday when a car driven by his brother went out of control and hit a tree on the village green in Woodstock. Town Constable William Waterous reported Stephen Rathkopf, of the Bronx, was driving the car when it failed to negotiate a curve on Route 212 at Tinker Street. The vehicle entered the village green and sideswiped a tree. Rathkopf's brother, Barry, was taken to Kingston Hospital by Doctors Ambulance. He suffered a broken arm, lacerations and possible chest injuries. Constable Waterous said the Rathkopfs were with others who were in a "road rally," and their car apparently was traveling too fast for conditions.

Fish Declares Farmer Neglected

Hamilton Fish Jr., Republican Candidate for Congress in the 28th District, today said the resignation of a high administration agriculture official in disgust over the Great Society's farm problems demonstrates the need for a Republican Congress to really help solve the problems of the American farmer.

The official, Frank Le Roux, former general sales manager of the U.S. Foreign Agriculture Service, told a news conference that by any conceivable standard the past five years have been the worst for the American farmer under any political party in agricultural history.

The GOP candidate, declaring that Le Roux's statements reflect the points Republicans have made all along about the poor legislation of the Democrat controlled Congresses, said:

"We Republicans warned that Democrats' policies were not going to help the farmer. The attack on these policies by a leading Democrat farm official bears this out. Without question, the farmer has been neglected by the Great Society in favor of the consumer in a cynical appeal for more votes. But L.B.J.'s scheme hasn't worked. The consumer is now facing higher prices everywhere, higher taxes — and he certainly hasn't benefitted from the alleged attentions of the Great Society."

Suffers Fatal Attack Hunting Near Modena

While hunting with two other men near the Tony Mouzithras fruit farm on Route 32, Modena, Sunday, Charles Rensing, 67, of Forrest Hills, L.I., suffered a fatal attack.

Ulster County Coroner Arthur C. Chipp, Kerhonkson, who investigated with BCI Investigator Robert Greaves of the Kingston detail, ruled death due to natural causes. The body was removed to the Pine Funeral Home Inc., New Paltz, pending notification of next of kin.

According to authorities, Rensing went hunting with Richard Schultz, of Forest Hills, and Thomas H. Deen, 71, of South Ozone Park. Deen and Schultz were together when they missed Rensing, who they found lying on his back in the woods.

The Modena Fire Department ambulance was summoned. Dr. William Pugliese of New Paltz, pronounced Rensing dead.

Deen and Schultz told investigators there had been no shots fired in the area. It was reported Rensing had been under a physician's care for some time. He had been retired as a longshoreman's checker on the New York docks for some time.

Chinese Official Missing

NEW DELHI, India (AP) — Sun Wei-kuo, a 25-year-old official working in the Communist Chinese Embassy information section, has been missing since Sept. 29, Peking embassy sources said today.

The informants said the embassy has lodged a complaint with the Indian Foreign Ministry but so far no trace has been found of the missing official.

"We suspect it is a political case," one Communist Chinese official said. He did not elaborate.

An Indian government spokesman would say only that a complaint was received from the Chinese and they are investigating.

No Proof on Sukarno

TOKYO (AP) — Indonesian Foreign Minister Adam Malik said today he knew of no proof that President Sukarno was involved in the abortive Communist coup attempt in Indonesia last year.

However, he noted that Sukarno's name has been mentioned in testimony at the trial in Jakarta of former Foreign Minister Subandrio and said the judiciary would investigate those references.

Speaking at the Foreign Correspondents Club of Japan, Malik said if Sukarno's involvement in the coup attempt is established "or that he ever was at fault, the People's Consultative Assembly will ask for his explanation."

Break-In Investigated

At 5:10 a. m. Sunday the sheriff's department received an anonymous call that three men had broken into the Bryant service station on Route 28 along Esopus Creek. The caller said they were attempting to "peel" the safe. Deputy Sheriff Harold Dohnken was dispatched and found the front overhead door had been pried open to gain entrance. A back store-room door had been forced but there was no evidence of any attempt to open the safe. An inspection revealed nothing missing.

Driver Hurt in Crash

A three-car chain reaction collision on Route 9W, Town of Ulster, at 3 p. m. Sunday resulted in injuries to one driver and a violation filed against another, according to Kingston state police. Troopers said the car were driven by Ruth J. Freer, 48, of 49 Lamb Avenue, Saugerties; Philip F. Pflum, 19, of Rhinebeck, and Florence Woodward, 47, of Catskill. The cars were traveling in the same direction when the Saugerties woman and Pflum stopped for a school bus. The Catskill woman was cited for following too closely by Trooper John McMickle.

The word Orient comes from Latin and refers to the direction from which the sun rises.

Pa. Man Stricken While Visiting Here

A Pennsylvania man, John L. Thompson, 80, of Ingomar, was pronounced dead at Kingston Hospital Saturday night after being stricken with an apparent heart attack at the home of his son, Robert Thompson, Niles Drive, Woodstock.

The West Hurley Fire Department administered oxygen at the home until the arrival of Doctor's Ambulance. Attendants continued to administer oxygen enroute to the hospital but to no avail.

Thompson had been under the care of a physician and death was attributed to natural causes. Funeral and burial will be in Pennsylvania.

Ambassador's Wife Dies

NEW YORK (AP)—The wife of Subur Parthasarathi, Indian ambassador to the United Nations, died today at Mt. Sinai Hospital, a spokesman for the Indian U. N. delegation said.

The spokesman said she had been ill for some time.

Mme. Parthasarathi had served as a member of the Indian Parliament and had been both a college professor and principal (president) in India.

In the year she had been in the United States, the spokesman said, she taught English lieterature at Fairleight Dickinson University in New Jersey.

Famed Cellist Dead

LOS ANGELES (AP) — Gdal Saleski, Ukranian-born cellist who performed in this country and Europe for 50 years, is dead, a victim of heart illness.

He died Saturday and was buried Sunday at Mt. Sinai Memorial Park.

Saleski, 76, was born in Kiev and studied music at the Petrograd Conservatory. He played with several symphonies in Europe, and after immigrating to the United States performed as first cellist for several years with the Eastman Theater Orchestra in Rochester, N.Y.

P-TA Attendance

Editor, The Freeman

A recent article and accompanying photograph in The Kingston Freeman showed the president of the West Hurley P-TA "explaining the banner count to all." It was pointed out to all that "Parents who attend the P-TA meetings each month are counted and a school banner is presented to the class that has the greatest number of parents in attendance. Fathers getting two points and mothers getting one point. The class then retains the banner until the next P-TA meeting."

While full attendance at meetings is a noble enough end and one with which we fully sympathize, the means employed here are an outrage. It is nothing less than the system of using the childs' considerable vulnerability as a weapon against the parents.

We wonder if anyone has pondered the following questions: What arithmetic system teaches that one (male parent) plus one (female parent) equals three (points)?

Is there psychological counsel available to the child whose father is dead and thereby losing his surviving childs' class two banner points?

Is this lesson in the fine art of emotional blackmail endorsed by the school administration?

Are there guidelines for parents who do not attend and therefore must explain themselves to their own children?

Are grandparents or guardians included somewhere in this rating system?

Which brings us to a deeper and more profoundly disturbing question; Has the cult of conformity reached such prominence that its casual invasion of the classroom can be so quietly condoned? Where do we go from here? Do we carry this "parents-are-poker-chips" absurdity one step further and contemplate fines? Are the teachers being coerced in some similar fashion?

This method of intimidating the parents by using the potential intimidation of the children disturbs and saddens us. It discourages individuality and encourages sameness. It downgrades the uniqueness of each family unit and upgrades the standards of the group.

We laud the zeal with which the P-TA is trying to overcome the real problem of non-attendance, but we feel that this approach would appear to betray an insensivity to consequences all the more upsetting since it involves small children.

Sincerely,
MR. AND MRS.
ROBERT K. KOHLER

Hollywood Happy As Feature Films Score Hits on TV

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — No event in recent times has so cheered the film industry as when "The Bridge on the River Kwai" walloped its opposition during three hours on ABC a fortnight ago.

ABC gambled by paying $2 million to Columbia Pictures for two network showings of "Kwai." The gamble succeeded when Ford agreed to lay out $1,200,000, plus $600,000 for air time, to use the 1957 Academy Award winner as a showcase for its 1967 models.

60 Million Viewers

Ford has no complaints over the results, since the showing attracted an audience estimated at 60 million. That's approximately 10 million more than saw the film during its two releases worldwide.

The smashing success of "Kwai" touched off a gold rush for feature movies that have not been sold to television. CBS plunked down $800,000 apiece for 63 MGM films, including such recent films as "The Sandpiper" and "Night of the Iguana," plus 18 that haven't even been made yet.

ABC paid $19.5 million for 17 recent films made by 20th-Century-Fox. The deal included the biggest payment in history for a single movie: $5 million for two showings of "Cleopatra" in 1971 or after. The studio noted happily that the fee will push the $40-million epic into the black.

Plan More Big Deals

More big-money transactions are likely to be announced in the future, since the networks need five movies a week to fill nighttime schedules.

"Everything's coming up roses," exulted one top producer. The reason for his optimism: The networks' willingness to pay top prices for features changes the entire economic picture in the movie world.

Here's how:

1. The flow of millions into the film company treasuries simplifies what was becoming a thorny problem: financing. As in other areas of the economy, loans for movies were getting scarce, and banks were especially leary of multimillion-dollar productions.

2. The networks are now virtually underwriting part of the cost of producing new films. This is demonstrated in the MGM-CBS deal, in which the studio is paid $800,000 toward the budgets of each of 18 future films. Such pre-financing eliminates a great deal of risk in starting new projects.

Emphysema: A Counterblow

Good news can crop up in the most unlikely places. There is good news these days, for example, about the normally grim subject of emphysema — the "Sneaky Pete" of major lung diseases. An important step has been taken toward counterattacking this insidious ailment; if successful, the measure may help turn the tide of its disturbing increase shown during recent years.

The counterattack takes the form of a new program mounted by the Queens (New York) Tuberculosis and Health Association in cooperation with the Queens Hospital Center. The former organization, which has conducted an emphysema clinic for several years, is now undertaking to screen 5,000 working men between the ages of 40 and 64 who show no outward symptom of disease. Emphysema attacks principally men, and this is the most vulnerable age group.

The significance of this move becomes evident when we realize one of emphysema's outstanding characteristics. It usually creeps up on its victim without warning, damages the lungs without betraying any visible symptoms for a considerable time, and in advanced cases makes the act of breathing a desperate struggle. So stealthy is the disease that a relatively small proportion of its victims do not realize that they are ill until it has become well entrenched.

The Queens project, supported by the federal health service's Chronic Respiratory Disease Branch, will include chest X-rays, tests of lung function, and the taking of medical histories. Those in whom disease symptoms are discovered will be cared for as outpatients at the emphysema Clinic. Long-range treatment program will be planned, with monthly visits.

By detecting and treating emphysema in its early stage, it is hoped that results can be achieved in arresting the disease. For more information on emphysema, ask your Christmas Seal association for the free booklet, "Your Breathing Troubles."

Port Ewen WSCS To Host Voter Meeting Tuesday

The WSCS of the Port Ewen Methodist Church is sponsoring an important public meeting on Tuesday evening. The League of Women Voters will discuss in detail the pros and cons of the numerous proposed propositions on the November ballot. Copies of the League's excellent pamphlet "Facts for Voters" will be available.

Due to the large number of propositions listed on the ballot this year, the public is strongly urged to attend this meeting to acquaint themselves with all the details so they may make a wise choice in November.

The meeting will be held at 8 p. m. in the church hall of the Port Ewen Methodist Church, Main and Green Streets, Port Ewen.

Dear Abby . . .

Forget the Gossip — You Mean More

Abigail Van Buren

DEAR ABBY: After eight years of marriage, I decided to get a divorce. I had two children and would have stayed married for their sakes, but their father cared nothing for them, so it would have been pointless. Two years later I married a widower with three children. In six months I realized that I had made another terrible mistake. All he wanted was a cook, housekeeper and someone to raise his children.

He favored HIS children and accused me of favoring mine. (Actually, I bent over backwards so far trying to be fair to his, I was unfair to my own.) My problem is that I am miserable, but if I get another divorce everyone will say BOTH divorces were my fault. I am 30 years old and don't want to be a two-time loser. If it weren't for my children, I would commit suicide.

TRAPPED

DEAR TRAPPED: The people who talk don't help you to bear the burden of your misery. Do what is best for you and your children and forget everything else.

• • • •

DEAR ABBY: I was married 10 years ago and now have three children. Two years ago I found my birth certificate and discovered that my mother's maiden name was on it, not her married name, which means she had me before she was married.

This has been bothering me for a long time. I want my children to be legitimate. Are they or aren't they? I don't know who to ask without a lot of embarassment.

WORRIED

DEAR WORRIED: Your children are legitimate even tho YOU may have been born out of wedlock.

DEAR ABBY: I am being married soon and would like very much to have my brother to be an uster at my wedding, but my fiance told me that he has already chosen his ushers and he isn't planning on having my brother. He will give me no reason other than he wants his "friends."

Abby, I asked a cousin of his to be a bridesmaid, and she is no close friend of mine, but I thought it would please him. My brother feels very hurt about this and my parents are upset. Please give me a suggestion on how I can tactfully solve this problem?

OHIO BRIDE

DEAR BRIDE: Technically the groom selects whomever he wishes for his ushers, but since it has now become an issue it would be both wise and generous for him to include your brother, knowing that if he doesn't, ill feelings will prevail.

London Traffic Even Worse Than NYC, Says Barnes

LONDON (AP) — If misery loves company, then Londoners, strangling in their motor snarls, felt a little better when they read New York Traffic Commissioner Henry Barnes' remark:

"London was such a mess that it made me feel real good to come back to our own chaos."

Barnes came here to inspect London's traffic and its attempted solutions. His tart comments drew many a "Yeah, yeah, amen!" response.

Brains Are Trying

Some of Britain's best brains are working on traffic problems.

One of their handiest solutions is to push more people underground. The new Victoria-Oxford Circus subway link is being rushed to completion.

The number of buses is being reduced — has been for more than a decade.

But the London transport authority wails: "Even if large sums are spent on London's road network, the buses generally cannot be expected to run significantly better as a result of the construction program alone. There will be too many other vehicles trying to use the highways."

The Ministry of Health says Britain has halted its population explosion. The birth rate has fallen for the first time since 1955.

But back to Barnes. He told New York correspondents of British papers. "What London needs is somebody in a position like mine — with over-all authority to make any regulation deemed necessary for traffic control. In London there are too many fingers in the pie."

But Barnes had compliments for Britons. He found London drivers "excellent and extremely polite." The New York traffic czar was quoted:

"I can't imagine a New York cab driver or any other New York motorist motioning another car to go ahead. The courtesy of London drivers is fantastic. I suppose it has to be for them to stay alive."

Hold Woman in Death Of Former Boyfriend

BUFFALO, N.Y. (AP)—A 42-year-old woman faces a charge of first - degree manslaughter after, police said, she stabbed her former boyfriend during a disagreement.

Mrs. Maria Townes of Buffalo was charged in the death, a few hours after the body of Thomas Jackson, about 48, was found Saturday night in the kitchen of his apartment here.

Police said the cause of the disagreement was not known. A butcher knife found at the scene was believed to be the death weapon, they said.

Jackson lived at 459 Elm St. Mrs. Townes' home is at 297 Walnut St.

Carthage Has $150,00 Lumber Firm Blaze

CARTHAGE, N.Y. (AP)—Fire that destroyed five storage sheds and extensive supplies of building material at a lumber company here Sunday caused damage estimated at $150,000.

About 200 volunteer firemen from 14 area fire departments battled the blaze at W. R. Jones and Sons, Inc., facilities near this community east of Watertown.

Three firemen wre treated for smoke inhalation.

Charles W. Hayes, Jefferson County fire coordinator, estimated the loss, which included building supplies, two trucks, several oil burners and other materials.

Personalities Of Mills, Long Sway Tax Bills

WASHINGTON (AP) — As Congress sweeps aside the secondary bills and piles up for attention the business it must transact before adjourning, a contrast of personality and style near the top shows up more clearly, than ever.

It highlights the differences between two members who must work together if vital tax legislation is to move smoothly through the legislative machinery. The two top men in this field are the chairmen of the House Ways and Means and the Senate Finance Committees, Rep. Wilbur D. Mills, D-Ark., and Sen. Russell B. Long, D-La.

UC Needs Overhaul

Immediate problems facing Mills and Long include an overhaul of the 31-year-old unemployment compensation system. The bill was passed in different forms by the two chambers and has been stalled for more than two months as, apparently, Mills and Long have not been able to agree even on the preliminaries of compromise. The bill may die with this Congress.

Trouble evidently awaits another bill, passed by the House, to encourage foreign investment in the United States. Long's committee loaded it with no fewer than 27 wholly extraneous amendments, ranging from new depletion rules on clamshells to a pet plan of Long himself for financing presidential campaigns. Mills is known to detest the Senate practice of tying riders to House bills. These must be handled in conference, rather than through regular House committee deliberation.

LBJ Bill Passed

The House also has passed President Johnson's bill to suspend business tax incentives as an anti-inflation move. Besieged by requests for exceptions, which the administration opposes, Mills' Ways and Means Committee stood firm on all but two. But members are openly questioning whether the Finance Committe, and the Senate itself, will perform as firmly.

The different approaches of Mills and Long have been more and more apparent since Long succeeded to the finance chairmanship last year when Sen. Harry F. Byrd Sr. of Virginia retired. Mills, Chairman of Ways and Means for some nine years, worked well enough with Byrd.

A 90 Per Center

Meticulous preparation, caution and patience are Mills' characteristics. He brings bills to the floor only when there is no reasonable chance of defeat. An associate remarked, "Wilbur's idea of a consensus is 90 per cent."

Long takes chances and makes gestures. His current project for taxpayers to authorize $1 allotments to political parties of their choice is widely regarded as a trial balloon rather than a serious candidate for enactment by the present Congress.

Tree Burials

Among the Andamanese in the Republic of India, tree burial is an honorable form of burial adopted in the case of a man or woman dying in the prime of life. The coffin is placed upon a platform in a tree, according to the Encyclopaedia Britannica.

RFK Puts Sight On 1970 for 2nd Term in Senate

WASHINGTON (AP) — Sen. Robert F. Kennedy, D - N.Y., says he will run for re-election in 1970 and will not be a candidate for president or vice president in 1968.

New York's junior senator made that assertion Sunday in answer to speculation about his 1968 plans. In addition, there has been some conjecture that Kennedy might run for governor of New York in 1970.

Kennedy told a radio audience Sunday:

"I intend to remain in the United States Senate as long as the people of New York will return me to office."

Wawarsing Man Cited by Police After Collision

A 21-year-old man was cited by Ellenville State Police on Sunday on a charge of following too closely, after a three-car chain reaction collision on Route 209 at the intersection of Route 44-55, Town of Wawarsing.

Trooper R. R. Brooks said John Spiegle, Jr., 54, of Haddonfield, N. J., was stopped at the intersection intending to make a left turn and a car operated by Peter Trow, 22, of Red Hook, stopped behind him.

A third car driven by Larry Rider, 21, Wawarsing, reportedly was in collision with the Trow vehicle, which was pushed into the rear of Spiegle's car. Trooper D. H. Dymond investigated and reported no injuries.

THESE STRANGE OBJECTS resemble fancy millinery creations but their purpose is far more deadly—anti-submarine warfare. They are electric circuit boards for a device which simulates the maneuvers of enemy underseas craft so that appropriate action may be taken. Here, the circuits are checked out in final assembly at Clevite Corp. in Cleveland, Ohio.

O'Connor Backed By Fusion Party

NEW YORK (AP) — Frank D. O'Connor, Democratic candidate for governor, was endorsed today by the city Fusion party.

O'Connor, president of the City Council and the Fusion party joined in " a solemn pledge to labor for political independence for the City of New York."

A statement by the candidate and the party said "the failure by the present governor and his party to further the cause of home rule constitutes a serious blot upon his record."

Makes Further Attack

Gabriel A. Wechsler, general secretary of the Fusion party, made a further attack on the eight-year record of Republican Gov. Nelson A. Rockefeller, who is running for a third term.

In remarks prepared for a joint news conference by O'Connor and Fusion party leaders, Wechsler said: "The city Fusion party has watched with deep concern as Albany presssures and double-talking state administration officials dictate to the city on matters like transit fares, real estate and municipal services."

During his Sunday campaigning here, O'Connor received endorsements by two Democratic reform wing congressmen from the Bronx who appeared with him at a news conference at his campaign headquarters in the Commodore Hotel.n

Both Buckley Foes

They were Reps. John B. Bingham and James H. Scheuer, both political foes of former Rep. Charles A. Buckley, democratic leader of The Bronx.

Franklin D. Roosevelt Jr., gubernatorial candidate of the Liberal party, has accused O'Connor and Buckley of making a political "deal" to support O'Connor for the governorship. Both O'Connor and Buckley have denied it.

O'Connor flew to Buffalo and back here Sunday. He marched briefly in the Pulaski Day parade and made serveral campaign appearances in Buffalo.

Addressing 200 persons as he stood on a bridge over the polluted Cazenovia Creek on Buffalo's South Side, O'Connor said the creek is a "disgrace" and he promised to have it cleaned up if he is elected.

Peking Indicates Holdouts Remain Against Lin Rule

TOKYO (AP) — Red China indicated today that some of its army is still resisting Defense Minister Lin Piao's leadership, and a Hong Kong newspaper reported some of the Red Guards have criticized Lin.

Lin, boss of the Red Guards and No. 2 man to Chairman Mao Tse-tung, has issued new orders to the army to follow Mao's teachings, Peking's New China News Agency reported.

Position Questioned

The instructions seemed to indicate that the army has not knuckled under to the Mao-Lin leadership and that Lin's position next to Mao has been questioned.

In Hong Kong, a pro-Nationalist Chinese newspaper reported that some of the young Red Guards put up posters in Peking accusing Lin of "stealing things to eat" when he was a child. "How could a thief lead a country?" The posters asked, according to the report in the Kung Sheung Daily News.

Lin's latest instructions to the armed forces to put the party and Mao in control were released by Hsiao Hua, director of the army's general political department, NCNA said.

"In fighting a war," he said, "our armed forces have always relied on people's political consciousness, on their courage, on the political factor."

Hsiao also said that Lin took charge of the party central committee military commission several years ago. The powerful commission, headed by Mao, wields party control over the armed forces.

On Formosa, Nationalist Chinese President Chiang Kai-shek said in a statement that Mao Tse-tung is afraid of dethronement by anti-Mao forces on the mainland and a Nationalist counteroffensive from Formosa which would "deal a fatal, final blow to his tottering regime."

Fail to Find Viet Election Issue Yet

WASHINGTON (AP) — With less than a month of campaigning left, strategists of both parties are admitting privately they haven't found the Viet Nam war to be a congressional election issue.

Most candidates interrupting their campaigning to check in now and then for major Senate and House roll calls report the voters are disturbed about the ever-enlarging conflict and frustrated by the apparent failure of peace efforts.

But how the average citizen will react to this at the polls Nov. 8 remains largely a mystery. One Democratic senator, seeking re-election, seemed to voice the sentiment of many of his colleagues.

"I know the people wish we didn't have this war on our hands and wonder why we ever got into it," he said. "They'd like to have it end but not many of them want to cut and run. I think most of them believe President Johnson is doing the best he can.

"My opponent hasn't found any way yet to blame me for the war and as far as I can tell it isn't an issue that will affect many votes one way or the other."

Policemen Disarmed

TAMPA, Fla. (AP) — Warning shots were fired in the air and three Negroes were arrested after a crowd of them disarmed two policemen who tried to break up a fight.

Police said two white officers, W.L. Howell and G.R. Stroud, were surrounded Sunday by about 300 Negroes who took their guns, nightsticks and portable two-way radio.

Reinforcements dispersed the mob. Stroud was treated for head injuries at a hospital and released.

Firemen's Group Notes Statistics

The Kingston Uniformed Fire Fighters Association, noting observance of Fire Prevention Week through Saturday of this week, today listed national fire statistics in an effort to present "basic knowledge" about fire prevention to area residents.

According to these statistics, one in every 100 dwellings will suffer fire damage this year, with one in every 20 homes damaged over the next five years.

Association Vice President Gerard Kelder Jr. said fire strikes 1,650 homes daily with 6,650 persons killed last year by fire. He said the American Insurance Company reports one fourth of all fires are caused by smoking and matches.

Kelder, urging fire prevention be practiced 52 weeks of each year, added "it is up to each and every citizen not only to preach, but to practice fire safety."

Proclaims Columbus Day

ALBANY, N.Y. (AP) — Gov. Rockefeller describes Christopher Columbus as the man who "stirred men to thought and to action and opened the doorway to America" in proclaiming Oct. 12 as Columbus Day.

The governor's action Sunday followed similar action last week when he designated Oct. 1 as Leif Ericson day, in honor of another early navigator.

25th Year

Po'keepsie IBM Sets Open House Saturday, Oct. 15

POUGHKEEPSIE — The International Business Machines Corporation will hold an open house at its Poughkeepsie facilities Saturday, Oct. 15.

The open house will mark the 25th anniversary of the beginnig of IBM's operations in the Mid-Hudson Valley.

Eleven major manufacturing, development, education, product testing and programming buildings will be open to the public from 10 a. m. to 5 p. m.

There will be free parking at all the buildings and free shuttle buses from building to building.

"We have done everything we can to make the day an enjoyable and informative one for the public," said Louis Voerman, general manager of IBM Systems Manufacturing Division's Poughkeepsie plant.

"Special displays and demonstrations will help explain the work being done by the more than 10,000 IBM employes in Poughkeepsie," Voerman said.

In the five buildings along South Road making up the main manufacturing facilities, visitors will be able to see the step-by-step assembly of System/360 computers, from frame to completed unit.

They will see the process by which a single computer simultaneously controls equipment to print circuits on boards, to test the boards and to wrap additional wires on them automatically.

Visitors also will seee the area where each year billions of tiny ring-shaped ferrite cores are manufactured and tested for use as computer information storage devices.

Numerically controlled machines which automatically make parts for data processing equipment, assembly of IBM card punch equipment and the final testing of computers before they are sent to customers also will be on the tour route.

Voerman noted that visitors will see the same facilities that each year attract hundreds of the top executives of leading companies throughout the the world.

Reading Parley For City Teachers Conducted at KHS

A reading conference for secondary school teachers sponsored by Kingston City Schools Consolidated was held at Kingston High School last week.

Superintendent of Schools Dr. W. Wendell Hoover opened the conference saying that reading needs to be taught at all levels and by all teachers, not just English teachers.

Richard Scott, reading supervisor at the Multi-Media Center, here, presented a series of slides showing the center and how it works.

The main speaker for the conference was Mrs. Jane Algozzine of the State Education Department, a member of the State Bureau of Reading Education. Mrs. Algozzine talked about the whole reading program from kindergarten to senior high school. She stressed a sequential reading program that would cover a pupil through his entire school career.

"Most formal reading instruction ends at the sixth grade," Mrs. Algozzine said, "We must become more concerned with a reading program for grades 7-12."

"Is the loan department open?"

Seek a Second Nevada Test Site

By RICHARD E. MEYER

LAS VEGAS, Nev. (AP) — The United States wants a second chunk of loneliness in the middle of the Nevada desert to test its arsenal of nuclear weapons.

It already has one — the 1,300-square-mile Nevada atomic test site 100 miles northwest of Las Vegas, which embraces such desolate places as Jackass Flat, Frenchmen's Flat, Yucca Basin and Yucca Flat.

The area is honeycombed with plugged-up vertical shafts. At the bottom of each, the AEC explodes its atomic weapons and carefully measures their impact with electrical devices.

Site in Central Nevada

The agency announced Friday it was searching for a spot in central Nevada for another underground test site to combine with its present facility—but the two won't be contiguous. More than 6,000 persons are employed at the present site with a multimillion-dollar budget. There was official doubt the second site would grow as large.

The entire operation at the present site includes testing in the Plowshare program for development of peaceful uses for atomic explosives and experimental runs of the government's nuclear rocket engines.

The government needs the second site to make its Nevada testing operation "more flexible and suitable," an AEC spokesman said.

Refuses Answers

He refused to say whether the expansion means the United States is exploding bigger nuclear devices or whether its general testing program is growing.

The AEC said the new site would have to be studied carefully for any faults in the earth's crust that could mean an earthquake after a major explosion.

Such a fault — or crack in underground rock formations — also could provide a path for radiation to escape from the bottom of the plugged shafts into the atmosphere.

Weather Population Cited

Two other things will be important in picking the new site, the AEC said — weather and population density. Surface winds that might carry radiation must be minimal and blowing away from populated areas before explosions are authorized.

The AEC said it has narrowed its search for land to a triangle roughly bounded by the small towns of Tonopah, Eureka and Austin.

Have Most Autos

Thirty-six per cent of all automobiles registered in the United States are in five states—California, New York, Pennsylvania, Texas and Ohio.

Today in History

By THE ASSOCIATED PRESS

Today is Monday, Oct. 10, the 283rd day of 1966. There are 82 days left in the year.

Today's highlight in history.

On this date in 1913, the Gamboa Dike, the last obstruction to navigation through the Panama Canal was removed and the waters of the Atlantic and Pacific oceans were united.

On this date:

In 1845, the U.S. Naval Academy at Annapolis, Md., was opened.

In 1938, Nazi troops completed the occupation of the Sudetenland in Czechoslovakia.

In 1941, the British announced commandos were being trained for an invasion.

In 1943, Generalissimo Chiang Kai-shek took the oath of office as president of China.

In 1944, American forces delivered to the Germans at Aachen a 24-hour surrender ultimatum.

Ten years ago — The United States, Britain and France sent brief, identical messages to the Soviet Union urging the Kremlin to resume talks with the Western Allies on the reunification of Germany.

Five years ago—West Berlin sources reported 50,000 Soviet combat troops and some 10,000 Polish Communist troops had arrived in East Germany. Ostensibly they were sent to take part in Warsaw Pact maneuvers, but Western observers speculated the newly arrived forces would remain in East Germany.

One year ago—U.S. paratroopers killed 46 Viet Cong guerrillas near Saigon as thousands of Americun troops in South Viet Nam joined government forces in a giant sweep of the country's central highlands.

SAUGERTIES NEWS

Offer Traveling Grants Through Local Rotarians

Saugerties Rotary Club is seeking candidates for the Group Study Exchange Program to be conducted by Rotary International to promote better international understanding. The program provides travel grants for exchange teams of young business and professional men between countries. Rotary District 721, of which the Saugerties club is a member, will exchange with Greenland and Australia. The men selected will study business, institution and the way of life of their hosts and exchange ideas during a two-month tour.

Each Rotary club in the district may propose two candidates and six will be selected to make up the visiting team from the district. A candidate must be between the ages of 22 and 30 inclusive, of high moral character, intelligent and cooperative, presentable in appearance and able to express himself clearly and logically, and in good health.

While high academic qualifications are not required, a team member must have a sound general education. The member must be interested in, and show enthusiasm for, his chosen vocation. He should have outstanding, or at least above average, skill. He must have been employed in any recognized business or profession, on a full-time basis, for a period of at least two years prior to making application for membership on a group study team.

The member must, by his interest and active participation in community affairs, be a good citizen. He must be a citizen of the country in which he resides and must be employed in his business or profession in the Rotary district which endorses his candidacy, except that, in the case of members sponsored by Rotary clubs not in districts, the citizenship and location of employment must be those of the country of the sponsoring club.

A team member must not be a Rotarian, the dependent of a Rotarian, or the relative of a Rotarian by blood or marriage, a relative being defined for the purposes of the program as a child, stepchild, grandchild, brother or sister, and their spouses, if any.

Rotary International pays round-trip transportation. The candidates will be responsible for their own incidental expenses, clothing and insurance.

Young men in the Saugerties area, who are interested, should contact Dr. Dexter O. Arnold, superintendent of the Saugerties Cetral School District and president of Saugerties Rotary Club, who is serving on the Group Exchange Committee.

Buffalo Man Dies

MEDINA, N.Y. (AP)— Albert P. Sprung, 84, of Buffalo, died Saturday in Medina Hospital of injuries suffered Friday in a collision of an automobile in which he was riding and a truck on Route 104, north of this Orleans County village.

His address was 31 Cushing Place.

The porpoise's huge brain works with such incredible swiftness that the sea mammal may well regard man as a slowpoke.

Karen Brooks Choir President

Officers of the Mount Marion School choir have recently been announced by Mrs. Gloria Smith, vocal music teacher. Karen Brooks was elected president, with Joseph Hellenschmidt, vice-president, Fritz Clark, secretary, and Denise Borges, Diane Hendrick, Edwin Tate and James Whiteford, librarians.

The choir, consisting of members of the fifth and sixth grade classes, performs in assemblies and special programs throughout the school year.

The members of the choir are Joann Ahrens, Babette Bahorik, Kim Baker, Mark Baker, Jeanine Barker, Cindy Beadle, Diane Benter, Denise Borges, Karen Brooks, Toni Buckman, Harold Chapman, Donna Chargois, Jeffrey Cherny, Joseph Christiana, Fritz Clark, Patricia Cole, John Crantz, Dewitt Doman, Barry Frer, Barbara Gardner, Evelyn Geisler, Wendy Harbinger, Joseph Helelnschmidt, Gladys Henderson.

Also, Diane Hendricks, Mark Hildebrandt, John Hillje, Kathy Hoy, Cindy Kurtz, Brian Lockemann, Laura Langon, Mary Ann Lee, Rodney Lemon, Donna Martin, Mary Martine, Barbara Martino, Mary Mercer, Donna Misasi, Debra Myers, Linda Myers, Laurel Nelson, Gail Olson, Susan Putnam, Kathleen Reinhard, Deborah Schuman, Martin Slattery, Debra Sutton, Edwin Tate, Patrica Temple, Sharon Terpening, Eleanor Warfel and James Whiteford.

Religious Education Released Time Program

The released time program for religious education was placed in operation on Oct. 5 for pupils in the Saugerties Central School District. Superintendent of schools, Dr. Dexter O. Arnold, announced the following schedule:

Main Street School: 2:40-3:25 —First Baptist Church—grades 1 through 6 and special class; St. Mary Roman Catholic—grades 1 through 6 and special class; St. Josph's Roman Catholic—grades 1 through 6 and special class; St. John's Roman Catholic — grades 1 through 6 and special class.

Glasco School: 2:15-3:00 — St. Joseph's Roman Catholic—grades 1 through 6.

Mt. Marion School: 2:15-3:00 — St. John's Roman Catholic — grades 1 through 6.

Grant D. Morse: 2:15-3:00 — St. John's Roman Catholic—grades 1 through 6.

Junior-Senior High School: 1:36-2:20 — St. Mary's Roman Catholic—grades 7 through 12 and special class; St. Joseph's Roman Catholic — grades 7 through 12 and special class; St. John's Roman Catholic—grades 7 through 12 and special class; Saugerties Reformed Church — grades 8 and 9 only; Atonement Lutheran Church — grades 7 and 8 only.

At the request of church authorities, the program conducted at St. John's Roman Catholic Church of Veteran will not begin until Oct. 19. The program for all pupils will end May 24, 1967.

Set Turkey Dinner

Thanksgiving and all the dinner fare it offers will come early to St. Paul's Lutheran Church, West Camp. According to Mrs. M. Moose, president of the Ladies Auxiliary of the church, the organization will sponsor a turkey dinner on Thursday, Oct. 13, at 5:30 p. m. at the church. The public is invited.

Psychologist Is Guest of Rotary

Rotary Club of Saugerties members heard Robert Valachovic, newly appointed psychologist for the Saugerties Central Schools, speak at their meeting last week.

The guest lecturer, introduced by program chairman Lawrence Cahill, addressed his audience on the role of a psychologist in a school and community. He noted that varied functions are performed but that emphasis is placed on serving the individual and his or her adjustment to school.

Vice-president Cornelius Cox, serving in the absence of Dr. Dexter O. Arnold, president, reminded members that the deadline for applications of candidates for the Australian Exchange Program is Nov. 30 and asked that suggestions be submitted early.

Members of the local club who served as visiting Rotarians recently were Dr. Arnold and Gerald Snyder to Rhinebeck and Merlin Snyder to clubs at Chattahoochee, Fla., and Biloxi, Miss. Visiting the Saugerties club at its last meeting was Lorryne Connick, of Woodstock Rotary.

Many local Rotarians who have missed meetings have made these up during the past week in an effort to get 100 per cent attendance for Saugerties for as many months as possible.

WSCS Held Meeting

Thirty-three members of the Woman's Society of Christian Service of Saugerties Methodist Churc attended the Oct. 4 meeting in the chapel. Highlights of the evening were a short talk by Mrs. George Transom about her visit to London during the World Methodist Conference, and a one act play entitled "Two in a Trap" narrated by Mrs. David Jones and acted by Mrs. John Whritenor and Mrs. Robert Baker.

Mrs. John Whritenor, president, thanked Mrs. Ernest Brietung and Mrs. David Cartmell and their committees for conducting the rummage sale on Sept. 31 and Oct. 1. Mrs. George Transom led the devotions for the evening. Refreshments were served by Mrs. John Thompson, Mrs. Jan Metzlaar and Mrs. Robert Gilbert. The next meeting of the Woman's Society will be on Nov. 1. The guest speaker will be Miss Marie Labelle from ISTA.

Farm Worker Killed In Thruway Mishap

COEYMANS, N.Y. (AP) — A migrant farm worker was killed early today when, State Police said, he opened the door of a quickly moving automobile on the State Thruway and plunged to the pavement.

Troopers said the man, identified tentatively as Charles McCrady, about 25, of Baltimore, Md., was struck by three other cars on the superhighway, near this community south of Albany.

The car, traveling north at about 50 miles an hour, was enroute to Waterville, in central New York.

State Police said four other men were in the car.

Mineral springs, first discovered in 1326, made the town of Spa in Belgium a fashionable 18th century resort, and created a name for health fonts the world over.

DEMOLITION SLED developed for use with a tank is said to be capable of clearing a safe path through a mine field in three to four minutes. A demolition team using present techniques requires three to four hours to complete the dangerous chore. The production line, left, of the Martin Co. at Baltimore, Md., is turning out 1,000 of the 12-foot glass fiber sleds for the Army. Artist's conception at right shows how the sleds will be used. An M60 tank tows two sleds into position as a rocket fires out of another sled to lay an explosive charge through mine fields. Entire firing operation can be carried out from inside tanks that have withdrawn to safe positions after positioning sleds.

Ford Turns Down Red Bid for Moscow Plant

MOSCOW (AP) — The Ford Motor Co. turned down a Soviet request that it build a car and truck factory in Moscow, Soviet sources said today.

The sources also said that between $30 and $50 million worth of American metal presses would go into a Fiat car factory being built on the Volga River.

The sources gave this account of the Ford case:

The Soviet Union approached Ford at the same time it was negotiating with Fiat of Italy, Renault of France and other foreign car companies to expand Soviet auto production from 201,000 cars last year to 700,000 or 800,000 in 1970 and higher later.

Secret Talks

Secret talks with Ford were held first in Detroit and then here. The company president, Arjay Miller, visited Moscow for five days at the beginning of August on a Soviet invitation.

The sources declined to say why Ford, which built a tractor factory at Stalingrad in the 1930s, had rejected the Soviet proposal.

Observers here noted, however, that the Soviet Union has been requiring credits on its car deals.

Require Credit

Ford apparently would have been required to tie up capital in a 10-year credit in order to build the factory.

The Soviet Union is buying car factories and then running them itself.

Fiat, of Turin, Italy, is supplying $300 million worth of equipment. Its contract with the Russians says it will handle $200 million additional in foreign-equipment purchases, and sources say only the United States makes the kind of big metal presses that are needed to stamp out car body parts. Fiat uses U.S. presses in Turin. The names of the manufacturers were not available here.

Assurances Given

Before the Fiat contract was signed here Aug. 15, the sources said, Fiat had obtained assurances in Washington that U.S. export controls would not block shipment of the presses.

President Johnson said Friday that the U.S. Export-Import Bank "is prepared to finance American exports for the Soviet-Italian Fiat auto plant."

Maj. Carr Will Retire Oct. 29, 46 Service Years

ALBANY, N.Y. (AP) — A former infantry private will close more than 46 years of military service Oct. 29 when he retires as commanding officer of the New York Guard.

He is Maj. Gen. W. Reynolds Carr, whose retirement was announced Sunday by Gov. Rockefeller.

The State Guard assumes the role of the state's Army National Guard when the National Guard is mobilized into federal service. Maj Gen. Almerin C. O'Hara commands the Army component.

Carr began his military career in 1918 when he enlisted as a private in the 10th Infantry, New York Guard.

He became a second lieutenant in the Guard in 1924 and reached the rank of major general in November 1963.

Carr, an Albany resident, is president of Carr Manufacturing Jewelers Inc.

Lodge Game Law Charges Against 4 in Deer Killing

Accused of killing two deer out of season near Trail's End, Town of Rochester, early Sunday, four men were charged with conservation law violations and paid $1,110 in civil compromise before Justice of the Peace Abram Smith.

Trooper R. R. Brooks of Ellenville identified the men as Michelango Terrana, Francesco Cina, Guiseppe Ancona, all of Staten Island, and Salvatore Guaguano, Brooklyn.

The conservation violations were lodged by Game Protector Paul DeWire, Grahamsville; Town Constable Frank Cortright of Cherrytown, Kerhonkson; and Troopers J. M. Curtis and R. R. Stauch of the Ellenville State Police detail.

According to troopers, the four men were hunting in the Samsonville-Cherrytown area of the Town of Rochester. Civil compromise was made before Judge Smith.

Released From Hospital

Mrs. Martha Lamb, of Beckley, W. Va., who was injured in a traffic accident on Route 375 on Sept. 28, was released from Kingston Hospital Saturday afternoon. She was taken from the hospital to Kingston Airport by Doctors Amblance and placed aboard a plane that returned her to Beckley.

Educators Going To State Meet

Educational developments and problems will be among topics to be discussed at the 47th annual convention of the New York State School Boards Association in Syracuse on Oct. 23, 24 and 25, it was announced today by Arthur Withall, president of the Kingston Consolidated Board of Education.

Members of the Kingston School board planning to attend include, Withall, Mrs. Evelyn Corsones, Milton Reynolds, Ellsworth Johnson, Dr. W. Wendell Hoover, school district superintendent also will attend the three-day session.

Howe to Speak

U. S. Commissioner of Education Harold Howe II will be the featured speaker at the Sunday general session.

These local school officials will be among the 4,000 men and women who will be learning how to meet their responsibilities as school trustees more effectively my hearing state and nationally known speakers, viewing a sizeable exhibit of educational products, equipment and services, conferring with government officials, taking part in the association's business, and discussing mutual problems with the hundreds of other school board members who have "tried and tested" in solving all sorts of school board problems on the local level.

Representing over 800 school districts, these school officials come from all parts of the state annually to take part in the largest school meeting of its kind in the country. This year their activities will be directed toward the theme, "School Boards in the Service of the Nation."

Welcome Opportunity

Kingston School Board members who have attended these conventions in previous years are agreed that this is a fine opportunity for them to learn from other school board members who have met and solved local problems. They agreed that attendance at the convention is particularly helpful to them because as board members they are obligated to keep abreast of the many rapid changes which are taking place in education.

Keynote speaker at the convention which opens Sunday afternoon will be Dr. Wesley W. Williams, member and past president of the Board of Education of the District of Columbia. Dr. Charles A. Briand, counsel for the State Education Department, will present a Question Box relating to school legal problems.

The Sunday evening program will feature Commissioner Howe, a former superintendent of the Scarsdale Schools. The Ithaca College Band will present a musical program and R. B. Maloney of the International Cash Register Company in Syracuse will bring greetings from the exhibitors.

On Tuesday morning there will be a panel discussion of a currently controversial topic, "The Church, The State, and The Schools", featuring Monsignor Edgar P. McCarren, Diocesan Secretary of Education on Long Island, Dr. George LaNoue of Columbia University, and Leo Pfeffer, a noted constitutional lawyer, who is general counsel for the American Jewish Congress.

An impressive exhibit of educational supplies, equipment, and services will occupy an acre and a half of space on two floors of the War Memorial Auditorium. School buses will be on display in addition to small items of school equipment exhibited by more than 200 companies.

State agencies will be represented by scores of consultants who will be on hand to discuss local problems with the boardmen. Among those represented will be the State Education Department, Departments of Audit and Control, Civil Service, Health, and State Retirement Systems, the Public Service Commission, and the Office for Local Government.

FUTURE FARMERS may feel something like jet pilots at the wheels of their tractors as farm equipment takes on increasing sophistication. The interior of a demonstration model futuristic tractor unveiled by Allis-Chalmers at Milwaukee, Wis., includes: 1) two-way citizens' band radio; 2) stereo tape player; 3) AM-FM radio; 4) cab air-pressurizing blower; 5) closed-circuit television camera; 6) television receiver; 7) electronic seed planting indicator; 8) air-conditioner and 9) tractor operating controls. Cab also is upholstered and carpeted.

Will Add Doctors Under Medicaid Set of Standards

ALBANY, N.Y. (AP) — The State Health Department is preparing statewide standards for the Medicaid program that will permit an increased number of physicans to treat hospitalized patients.

That development appeared Friday as Health Commissioner Hollis Ingraham set forth qualifications for general practitioners under the federally aided state plan to pay medical bills for those deemed needy.

Meet Standards

At the same time, Ingraham asserted that the qualifications for physicians under New York City's stalled medical - assistance plan were "consistent" with state standards.

He said, howeyer, that the city's standards of qualifications for medical practitioners would be "superceded" by the wider state standards.

The commissioner met with Dr. Howard Brown, city health service administrator, to help end a logjam preventing the start of New York's program.

Issued Statement

Ingraham later issued a statement that named qualifications for general practitioners as either:

—Affiliation with accredited hospitals.

—Possession of a diploma certifying specialization.

—Membership in the American Academy of General Practice.

—Evidence of continuing medical education for physicians neither affiliated with a hospital nor possession membership in the academy.

Last 2 Pave Way

The last two requirements were seen as opening Medicaid practice to certified physicians who otherwise might have been barred by previous regulations.

Ingraham said the Health Department would ensure that necessary education programs would be avilable to physicians not qualifying immediately.

New York City's medical-aid program is more than a week old but has yet to provide service for any eligible recipients.

Dispute Is Cause

The logjam was caused by a dispute between city authorities and city medical societies that prevented physicians from receiving letters inviting them to participate.

Among items at issue was whether the city had the right to set standards of physician-eligibility.

The Medicaid program, which took effect last April, was expected to have a first-year price tag of up to $1.2 billion, shared by federal, state and local governments.

Congress Could Trim

Action now before Congress could trim the national participation in New York State's program by $50 million.

In general, a family of four, with one wage-earner and a net income of less than $6,000, would be eligible to have the state pick up the bill on its medical expenses.

No Hope of POW Data

SAN ANTONIO, Tex. (AP) — Gen. Harold K. Johnson, the Army's chief of staff, says he sees no hope for obtaining knowledge about the condition of U.S. and South Vietnamese prisoners of war.

"All efforts to establish communication with the North Vietnamese through the Red Cross and others have been unsuccessful to date," he said Thursday night.

A little information has been obtained but generally the United States does not know how many men are imprisoned in North Viet Nam nor how they are being treated, Johnson said.

Johnson was here to address the Alamo Chapter of the Association of the U.S. Army.

NEWSPAPER ENTERPRISE ASSN

hints from Heloise

Dear Folks:

Before laying your own wall to wall carpets, ESPECIALLY runners on stairways and in halls ...

Test which way the nap runs! All you have to do is take a broom or your hand and sweep or rub the carpeting gently. The direction the nap runs will show immediately. It will rub or sweep hard one way and easy another. The rug will also shade just a little.

Don't lay the rug with the nap running the wrong way.

Always lay carpets with the nap running the direction in which you ordinary sweep.

In your hall, on a stairway, or in the living or bedroom, always lay it with the nap running toward the door or down a staircase or toward the entrance where you collect the dust in a long hall.

This not only prevents imbedded dust in your carpet, but it is far easier to clean it. Sure saves energy and your carpet in the long run.

Dear Heloise:

Here is a really free item:

Remove the corks that come in pop bottle caps. Let them dry out thoroughly. Then glue on the bottom of your ash trays, vases, or anything that may scratch your table tops.

They can also be cut into different shapes to fit things like picture frame corners, etc.

Dolores C. Donatelli

Dear Heloise:

When you use tomatoes in sliced meat sandwiches, slice your tomatoes thin and sandwich them in between your meat slices.

This way your bread does not become soggy when left wrapped for any amount of time.

Mrs. A. Parker

Dear Heloise:

I find that instead of doing Spring and Fall cleaning, if a room is done each month, it is much easier than doing it all at once.

If you have six room's, your whole house is still done twice a year.

Grace M. Whipple

Dear Heloise:

We love nylon net pompons at our house. We use them for dishes and also use them as wash cloths—real good for scrubbing children.

I make miniature pompons for my older daughter to use as complexion brushes.

Audrey Menth

Dear Heloise:

In one of your articles, you suggested laying a towel on an old screen and drying sweaters on this.

Why not use nylon net—more than one layer if necessary.

The air can get through the net more easily than through a towel, thus hastening the drying of the sweater.

Mrs. Lois Mungello

Dear Heloise:

I was given a pair of down pillows, but they have a slighly musty smell.

Is it possible to launder them, and if so, what is the best method?

Mrs. L. C. M.

* * *

The following is information we received from the Cleanliness Bureau, and I think it is very good advice:

"Pillows filled with feathers, down, Acrilan, Dacron, or Orlon can be laundered and dried by machine.

"To balance the washer load, wash two pillows at a time or add clean towels.

"With feather filling, use extra soap or detergent because feathers cause the suds to die down quickly.

"Pillows tend to float on the surface of water, so turn them over during washing, if possible, to give both sides a thorough sudsing.

"Rinse well, then dryer-dry them at a LOW setting, or hang them out on a breezy day in the shade. NOT for a prolonged tims in hot sunlight. Shake and punch pillows several times during the drying to plump up and fluff the filling."

British Transport Minister Is Lady Non-Driver

LONDON (AP) — Barbara Castle, 55, buoyant redhead, wept when Prime Minister Wilson appointed her British transport minister.

"But I can't even drive a car," she reportedly told Wilson.

It was her last excuse to avoid leaving a job in the Overseas Development Ministry to head the Transport Ministry — the traditional "hot seat" in ministerial appointments.

To Tour U.S.

But today Mrs. Castle begins a 12-day tour of the United States to study transportation developments in San Francisco, Los Angeles, New York, Boston and Washington.

Enthusiasm is her big quality. She throws her energy completely into everything she undertakes.

"When you're a woman in politics, you have to prove yourself three times over — you can't be average," she says.

"It was tough at times, but never in my whole life have I felt like giving up politics," she added.

Political observers say Wilson knew what he was doing when he gave Mrs. Castle the nation's complex and frequently snarled traffic problems.

The task of managing Britain's often antiquated road and rail system is one vitally tied in with the big rescue operation which Wilson seeks for the ailing economy.

Mrs. Castle put it in a nutshell when she told newsmen after her appointment in December last year: "The problems are there for us to see. We live with them. The misery of the computer, the death toll on the road and the fact that traffic will come to a standstill unless we have some new ideas."

Married to Newsman

She is married to a British newsman. They have no children.

Mrs. Castle says she often falls back on her husband, Ted, for consolation when the going gets rough.

"I sit there moaning 'I'm a failure, I'm a failure,'" she says, "until he can't stand it any longer and shouts, 'All right, you're a failure, now shut up.'"

The wedding took place on October 9th at 2 p. m. in Highland, N. Y., with the Rev. Clair Fredrick Yohe offciating.

The attendants were Mildred and Ronald Sprague.

New Members Are Welcomed Here By Hospital Group

Eight new members were introduced at the first fall meeting of the Benedictine Hospital Auxiliary on Wednesday, Oct. 5. Mrs. Jr. Edward Costello, membership chairman presented the following: Mrs. Frank Jankowski, Mrs. Maurice Patenaud, Mrs. Ethel Lowe, Mrs. Mary Steeger, Mrs. George Bulans, Mrs. Marge Kachendorfer, Mrs. Robert March and Mrs. Donald Donahgy.

Mrs. Charles Turck, president, presided at the regular business meeting after the covered dish supper. A report was made on the summer volunteer program. Mrs. Maynard Burroughs, volunteer chairman, gave the total number of volunteer hours, over 1,000 for the auxiliary, and also 1,000 hours worked by the Junior Volunteers. A new project has been included in the auxiliary program at the hospital in the nature of a diaper service made available to mothers. The auxiliary will derive additional revenue from this service to continue payment on their pledge towards the hospital building fund.

The president expressed appreciation to Mrs. Angeline Carputo and Mrs. Sue Benicase for successfully conducting the recent rummage sale. It was also announced that Mrs. Richard Larsen is the new hospitality chairman and will welcome help from the members in making tray favors for the patients at the hospital.

Through the efforts of Mrs. Turck and Mrs. Edward Thomas, a new television service is in operation at the hospital. Pillow speakers and remote control operation are features of this new service.

The regional meeting of the Southeastern Zone of the hospital auxiliaries will be held on October 13 at the Tappen Zee Inn. Two delegates from the Benedictine Auxiliary will attend and other members are urged to take part in this session.

A bus trip to New York for the benefit of the Auxiliary will be held on Oct. 15. Miss Margaret Finn is in charge of reservations.

Mrs. J. Collins Troy will be chairman of the annual card party to be held on Tuesday, Oct. 25 at 8 p. m. in the auditorium of the Nurse's Residence.

PRINCIPALS AT COMMUNION BREAKFAST—The ninth annual communion breakfast for Columbiettes of Kingston Council 275, took place on Sunday, Oct. 9 in the Knights of Columbus Hall, this city. TEMPLE EMANUEL DINNER PLANNED—A committee of Sisterhood members met last week to complete plans for the annual roast beef supper which will be served this year on November 2 at the Temple. On the committee are, front (l-r) Mrs. Robert A. Ronder, Sisterhood president; Mrs. Irwin Gellen, supper co-chairman; Mrs. Sidney Wolff, coordinator; rear (l-r) Mrs. Alfred D. Ronder, coordinator; and Mrs. Harold Shorr. Another member of the committee, not pictured, is Mrs. Irving Goldberg, co-chairman. Tickets to the event have been mailed. (Freeman photo by John Kruh)

Roast Beef Supper Planned for Nov. 2 By Sisterhood Here

The 18th annual roast beef supper sponsored by Sisterhood of Temple Emanuel on Albany Avenue, will be held Wednesday, Nov. 2.

This is one of the largest church suppers held in the area, a spokesman for the group told the Freeman. Last year almost 1000 dinners were served. Traditionally, many of the candidates for election made an appearance at the supper to talk with the voters on an informal basis. This year, many of the Congressional and state-wide candidates have already made reservations to attend.

The chairmen for the event are Mrs. Irwin Gelien and Mrs. Irving Goldberg. The menu they have planned includes juice, a chopped liver entree, roast beef, potatoes and vegetables, relishes, desert and coffee. It is urged the early reservations be made for the 5:30 seating by contacting Mrs. Morton Cohen or Mrs. Albert Spiegel. After the 5:30 seating, all will be served on a first come, first served basis.

Mrs. Morris Kalish and Mrs. Sam Jacobson will head the cake sale of homemade goods held in conjection with the supper. Mrs. Herbert Bloom will have a booth to sell plants and Mrs. Sam Mann will chair the merchandise booth. A gift of a radio has been provided by Channel Master, Mrs. Mann has announced. Kingston Knitting Mills has provided the tickets.

Some of those working on committees for the supper are: Mrs. Sidney Wolff, Mrs. George Goldfarb, Mrs. Joseph Mautner, Mrs. Joseph Honig, Mrs. Roy Freeman, Mrs. Lewis Neporent, Mrs. Charles Jacobs, Mrs. Richard Kalish.

Also Mrs. Herbert Kletske, Mrs. Herbert Greenwald, Mrs. Alfred Ronder and Mrs. Adrienne Kaplan.

Providing waiter service will be the Temple Brotherhood under the direction of Robert Wolff, president.

Assisting the Sisterhood will be Al Trest, Sam Beck and Harry Beck. A further list of committee members will be available soon.

The entire community is invited to attend the supper as they have in other years.

Janice M. Benicase Is Bride-Elect

Mrs. Susan Benicase of 224 Foxhall Avenue, Kingston, has announced the engagement of her daughter Janice Marie, to Donald W. Whitford, son of Charles Whitford of Utica and the late Mrs. Whitford.

Miss Benicase, who is the daughter of the late Frank Benicase, is a graduate of Kingston High School and Kingston Beauty School. She is employed by LeCoiffure in Kingston.

Mr. Whitford was graduated from Utica Schools and is now employed by IBM in Kingston.

The wedding is planned for February 4, 1967.

Membership Campaign, Gala Fashion Show Will Be Topics at Tuesday's BPW Meeting

Members of the Ulster County Business and Professional Women's Club, an affiliate of the National and International Federation of BPW Clubs, will complete plans for a gala fashion show and hear reports from membership, civic participation, and legislative chairmen as well as other pertinent reports at a dinner-meeting Tuesday, Oct. 11 at 6:30 p. m. in the Governor Clinton Hotel.

Guest speaker in honor of the occasion will be Guin Hall, Deputy Commissioner, New York State Department of Commerce, 230 Park Avenue, New York.

Another attraction will be the apearance of soprano Mrs. Yukio Doi of Tokyo, Japan, who will sing several selections. Mrs. Doi is pictured above during a scene of The King and I, in which she apeared in Community Theatre of St. Louis Park.

Program chairman for Tuesday night will be Miss Mary Polhemus, BPW Chairman on World Affairs. Mrs. Polhemus has announced that guests are cordially invited to attend this dinner-meeting. Mrs. Mary Fisher, BPW corresponding secretary is in charge of reservations.

MRS. VICTOR J. MEZZACAPPA JR.

Schoenewald-Mezzacappa Wedding Is Told

Miss Elizabeth Anne Schoenewald, daughter of Mr. and Mrs. Louis Schoenewald of Red Hook, became the bride of Victor Joseph Mezzacappa Jr., son of Mr. and Mrs. Victor J. Mezzacappa of Kingston, on Oct. 8, 1966. The double ring wedding ceremony took place in St. Christopher's Church, Red Hook, N. Y. with the Rev. Patrick Markey officiating. Mrs. Madeline Horkan of Red Hook was the organist and Mrs. Michael Breh of Syracuse was soloist.

For the occasion the church was decorated with bouquets of white gladioli and pompons and the bride was given in marriage by her father.

The bride wore a white crepe empire styled sheath gown, a detachable chapel length train, and an illusion veil with crown of waxed apple blossoms. She carried a traditional white bridal bouquet.

Miss Kathleen J. Krausz of Red Hook was the maid of honor in an empire sheath gown of gold velvet and chiffon. A crown of gold daisies held a matching circular tulle veil.

Bridesmaids were Miss Antoinette Mezzacappa of Kingston, sister of the bridegroom; Miss Cynthia Kolos of Barrytown; and Miss Joyce Coburn, Stowe, Vt. Their gowns of moss green were identical to that worn by the maid of honor attendant and they wore matching circular tulle veils. All carried cascade bouquets of bronze and yellow pompons.

James Mezzacappa of Quarryville was best man. Ushers were Ronald Dixon of the Bronx; John Dixon of Kingston; and Richard Greenhill of Syracuse.

A reception was given for 125 people at Beekman Arms in Rhinebeck. Afterwards Mr. and Mrs. Mezzacappa Jr. left on a trip to Florida.

The bride is a graduate of Red Hook Central School and the Benedictine Hospital School of Nursing. She is employed as a staff nurse at the Benedictine. Her husband is an alumnus of Cardinal Hayes High School, New York, and attended City College of New York. He is employed by Manpower Inc., Poughkeepsie and is a member of the National Guard.

Mr. and Mrs. Mezzacappa will reside in Kingston.

MAY BRIDE REWORD INVITATIONS WHEN WEDDING IS POSTPONED?

Dear Mrs. Post: Shortly after I received my wedding invitations, I was forced to postpone the marriage for a month due to illness. The invitations were all addressed, but had not been sent out. Must I order new ones, or would it be permissible to cross out the old date and write in the new?—Darlene.

Dear Darlene: Under the circumstances, and because most people are well aware of the cost of engraved invitations, I'm sure no one and certainly not I, would criticize you for writing the new date in.

How to Summon Evasive Waiter

Dear Mrs. Post: What is the best way to attract a waiter's attention? They invariably are staring fixedly in the other direction when I need something, and especially when I am ready to ask for the check.—J. K.

Dear J. K.: Although in Europe it is common practice knife, or in some Latin-Amerto hit your glass with your ican countries to hiss loudly, it is not done in the United States and you must try to attract his attention with a wave or a nod. If he refuses to look in your direction, you may call "Waiter," quietly. When he is too far away to hear you, ask any other waiter nearby, "Would you please tell our waiter to bring us our check?"

Precedence in the Theater

Dear Mrs. Post: I know that a woman always goes ahead of a man going into a row in the theater, but what happens when they get up to leave? Does the man go out first, or does he push back and let her slide in front of him so that she goes out first?—F. L.

Dear F. L.: The man leads the way out of the row but when he reaches the aisle, he stands back so that the woman may go first, or he walks out at her side.

Who pays for what at the wedding? The booklet, "Wedding Expenses," answers this question in detail. To get a copy, send a dime and a stamped, self-addressed envelope to Elizabeth L. Post, in care of this newspaper.

Identical Twins Win Beauty Honors; One Vies for Top Crown

MIAMI, Fla. (AP) — Laura Beckwith, an impish green-eyed blonde, will never be an Orange Bowl queen. But there's a chance she'll be mistaken for her highness.

Laura, 21, is a University of Miami senior who has a sister named Imogene (Gene to her friends). Identical twins, they were princesses in last year's Orange Bowl pageant.

Both wanted to enter the competition for queen this year. But they didn't want to compete against each other, and princesses cannot succeed themselves.

They decided they would have a better chance if only one entered her candidacy.

One thing led to another and a coin was tossed into the air. As a result, Gene entered the race.

Daughters of Betty Beckwith of Miami, the twins were born in Wisconsin but moved here in 1951 with their family.

They dressed alike until their senior year in high school when their clothes were stolen.

"We didn't have enough money to buy two sets of everything again so we just bought one set, and both used it," said Laura. "Now we wouldn't think of dressing alike."

They will graduate this spring. Gene is a math major interested in computers and Laura leans toward psychology.

Most persons can't distinguish between the twins but the girls are astounded when somebody mistakes one for the other.

"We don't think we look anything alike," says Laura.

Sally Ruffner, Michael DeWitt Hasbrouck Take Marriage Vows in Episcopal Church

Miss Sally Jo Ruffner, daughter of Mr. and Mrs. Edmund B. "Tiny" Ruffner of Shadowlawn, High Falls, N. Y., exchanged marriage vows with Michael DeWitt Hasbrouck, son of Mr. and Mrs. DeWitt Relyea Hasbrouck of High Falls, N. Y., on October 8, 1966 at an 8 o'clock evening wedding in St. John's Episcopal Church, Kingston. The Rev. Robert Shellenberger was the officiating clergyman and James Sweeney was organist.

Given in marriage by her father, the bride wore a full length ivory satin shantung gown accented with seed pearls and a chapel length train. Her shoulder length veil of silk illusion was held by a headpiece of ivy. The bride carried a circular bouquet of gardenias.

Terry Ruth Williams of Evans City, Pa., served as maid of honor in a full length gown of raw silk in plum color. She carried white Fuji mums.

Serving as attendants were Susan Jo Hasbrouck of High Falls, sister of the bridegroom, and Mrs. Kenneth G. Guy of Cambridge, Mass. Their gowns were identical to that worn by the honor attendant and they carried similar bouquets.

John Nicholas Novi of High Falls served as best man for the bridegroom. Ushers were David A. Sheeley of Cottekill; Richard A. Muth of High Falls; Daniel DeVita of West Orange, N. J.; and Kenneth G. Guy of Cambridge, Mass.

A reception for 150 guests was given at Williams Lake Hotel after the church ceremony.

The bride attended Denison University and was elected to Sigma Delta Pi. She is a member of Omega National Fraternity and was graduated Magna Cum Laude from Columbia University, Faculty of Medicine, Department of Nursing. She will begin study for her masters in psychiatry at the University of Colorado in the spring. A graduate of Kingston High School, the bride is a member also of Sigma Theta Tau, Naional Nursing Honorary.

The bridegroom was graduated from Dutchess Community College and is now attending the University of Colorado.

When they complete their wedding trip to Los Angeles, Calif., Mr. and Mrs. Hasbrouck will reside in Denver, Colo.

Bridal Shower for Linda Bailey

Achieves High Regents Score

Among the highest-scoring students in the state on the National Merit Qualifying Test was Michael Dmoch, son of Mr. and Mrs. Eugene Dmoch of Tillson. Dmoch is a senior at Our Lady of Lourdes High School, Poughkeepsie, and as a semi-finalist is entitled to participate in the National Merit Program, and to compete for top national honors.

Semi-finalists, whose achievement places them in the top 1 per cent of the nation, must receive endorsement from their schools, take a second examination, and submit information about their achievements and interests before advancing to the rank of finalist. These scholarships, provided by business firms, foundations, and colleges, provide up to $1,500 per college year.

India Art Speaker At Paltz Oct. 17

Dr. Jane Gaston Mahler, an expert on Oriental art, will speak at State University College, New Paltz, Monday evening, Oct. 17, on "The Lover and His Beloved in India Art," the third of a week-long series of events in the College's first "India Festival," Oct. 16 - 23.

The lecture, in the College Theatre at 8:30 p. m., is open to the public without charge.

Professor Mahler received the first doctorate granted by Columbia University in the field of Chinese Art. She is associate professor of Art at Barnard College and holds an appointment on the graduate Faculties of Columbia University.

Dr. Mahler's work has frequently taken her to Asia for first hand study. She has visited India, Afghanistan, Pakistan, Ceylon, and Burma in order to study the cultural interchange of these countries from the fourth to the eighth centuries A. D. In 1958, Dr. Mahler visited Thailand, Viet Nam, Cambodia, and Hong Kong.

While on a semester's leave of absence from Barnard in 1961, Dr. Mahler traveled around the world in order to gather information and new material for courses on Oriental art, returning to Burma for further study of the medieval capital at Pagan. She also made archeological investigtions of sites in Northwest India and in the Valley of Kathmandu, Nepal. Dr. Mahler holds a Master of Arts degree in fine arts and archeology from Columbia University in addition to her doctorate.

Dr. Mahler is editor-in-chief of the "Art Treasures of Asia" series and author of numerous articles and book reviews

She is a trustee of Asia Society and a frequent lecturer at Asia House and at museums along the East Coast. She appeared on the Columbia University "Survey of the Arts" TV Series in 1964-65, and represented Barnard in the "Great Teachers of Our Time" TV series the previous year.

Dr. Mahler's lecture will be supplemented during "India Festival" week by an exhibition of arts and contemporary crafts of India at the College Art Gallery, which is open from 9 a. m. to 9 p. m. weekdays and 9 a. m. to 2 p. m. Saturdays. The art portion of the collection will continue on exhibit until November 18.

Government Must Help All Schools Rockefeller Says

NEW YORK (AP) — Gov. Nelson A. Rockefeller said today "it is a valid function of government" to assist colleges and universities "which are in the public interest — whether they be public or private."

"I wish to say most emphatically that I do not share the belief that our private schools will die out," he declared in an address for a private college group.

"Private, independent colleges and universities," he added, "must continue to stand as a guarantee of academic diversity, as the bulwarks of academic freedom and sources of academic excellence they gave always been."

The Republican governor who is running for a third term, discussed private and public colleges in a speech prepared for a meeting of the faculty and student body of St. Francisc College, Brooklyn. The meeting was under auspices of the college's International Relations Club.

Rockefeller in a statement issued from his Albany office Sunday night urged a program to provide more cultural opportunities to "those who are too often cut off from the mainstream of urban life."

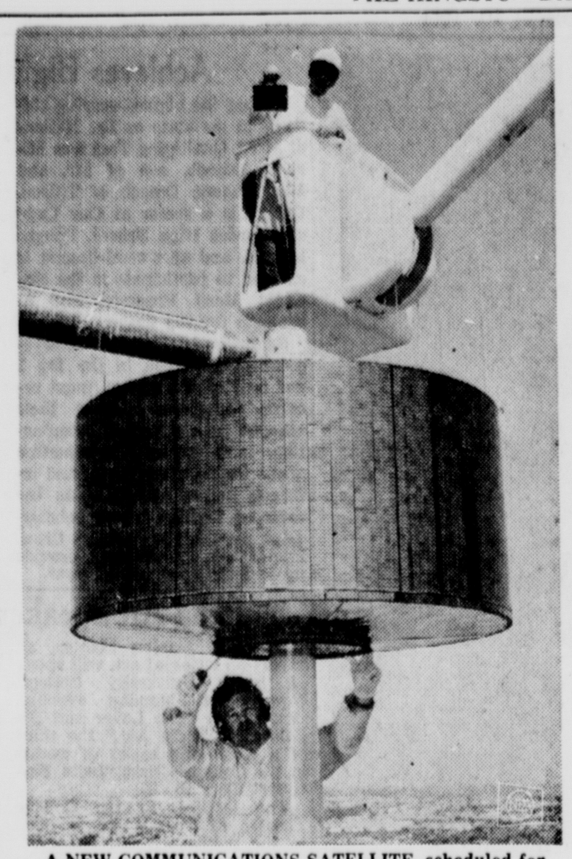

Main points in the program were: establishment of community exhibition centers, increased community visits by performing artists, special training programs in administration of cultural events and information services on the availability of exhibits and performances.

Slate Four Hearings

ALBANY, N.Y. (AP) — The governor's Special Committee on Criminal Offenders plans to explore in four public hearings problems in dealing with habitual criminals.

Gov. Rockefeller's office said Sunday the committee seeks to develop more effective rehabilitation programs for adult and juvenile offenders.

The hearings will be in New York City, Oct. 14, in Buffalo, Oct. 25, Syracuse, Nov. 1 and Albany, Nov. 15.

A NEW COMMUNICATIONS SATELLITE, scheduled for launching for the Comsat Corp. from Cape Kennedy in late October, gets a final checkout by technicians at the Hughes Aircraft Co. at Los Angeles. A second of the new-generation models, larger and more powerful than the original Early Bird, is being readied for a November launch. The improved satellites will provide space communications across the Atlantic and Pacific oceans and also for the nation's Apollo astronauts.

Red Car Buyers Face Many Delays

By JOHN WEYLAND

MOSCOW (AP) — One of Moscow's three car dealers has come out with a scathing criticism of the way cars and parts are sold here.

V. Osiko, director of the car and parts distribution center near Yelokhovka Cathedral, voiced his complaint in the popular Moscow newspaper Vechernaya Moskva — Evening Moscow. He said his showroom is too small and always overcrowded.

"Many people coming in are surprised to find out how long the procedure is," he said.

"You have to wait in line to make an application. You leave a postcard with your address. You wait. Finally you are invited to come back.

Pay Now—Drive Later

"But not to get your car. First, you have to pay for it."

Osiko did not mention the prices, but they are high. A $4,000 Moskvich is smaller than an American compact. Other models are similarly expensive.

Despite this and the many difficulties involved, the Soviet public shows every intention of bringing a full-fledged car civilization to this country. Passenger car production is scheduled to rise from 200,000 last year to 800,000 in 1970.

The director said the buyer had another wait of some months after paying his money.

When the buyer finally drives off in his new car, his troubles are not over.

No Spare Parts

"You discover you need a spare part," Osiko said. "Something simple, like a float for a carburetor or glass for your tail light. Something that should cost only a few kopecks.

"But it is impossible to find this on our shelves."

Osiko said the shortages arise because all spare parts are given to a giant combine called Zelkholz Tekhnika and "this organization, naturally, provides first for its own branches. What is left goes to retail outlets. Unfortunately, this is very little."

Meredith Says Negro Male Must Act Like Man

PHILADELPHIA (AP)— James Meredith, the first known Negro to attend the University of Mississippi, said last night that the American Negro has a lot of "shaping up" to do if he wants a better life."

Meredith told a civil rights rally here that the Negro male has to start acting like a man around the house and admonished Negroes of both sexes to stay out of bars and look for work.

Negro religion, he said, has been too busy with "pacifying" instead of urging the Negro to "get out and work, quit getting drunk."

He added, "busing, integrated education and what have you may be great for a few, but what is most needed now is good education for the people where the people now live whether there are whites in the same school or not."

Meredith, whose lone march through Mississippi last summer was carried on by scores of civil rights workers after he was wounded by a white gunman, was joined on the platform by Dr. Martin Luther King, head of the Southern Christian Leadership Conference.

He told the 1,500 persons assembled in the Philadelphia Arena that he was "sick of violence." He said, "Our power does not lie in Molotove cocktails, bricks, stones or guns."

Albany Episcopal Diocese Urges Lottery Defeat

LAKE PLACID, N.Y. (AP) — The bishop of the Episcopal Diocese of Albany urges church members to work for defeat of a proposed state lottery that will appear on the November ballot.

The Rt. Rev. Allen W. Brown joined sides Sunday with a resolution approved Saturday by the State Baptist Conference in Utica, which also opposes the lottery amendment.

Bishop Brown took that position before 700 clergymen and lay leaders at the opening session of the diocese's 98th annual convention, which continues through Tuesday.

He also announced that the Rev. Bradford Burnham, rector of the St. John's Church, Troy, would be chairman of the Second Century Program, designed to chart expansion of church facilities, social agencies and missions.

Bishop Brown has expressed personal opposition to the statewide lottery previously, but this was the first time he has urged Episcopalians to vote against it.

The lottery was designed to provide additional funds for state education programs.

Baptists Urge Members to Work Against Lottery

UTICA, N.Y. (AP)—The State Baptist Conference urges church members to work for the defeat of a proposed state lottery that will appear as a constitutional amendment on the November ballot.

Delegates to the 159th annual convention also approved resolutions over the weekend that call upon the state to raise its drinking age to 21, ask member churches to implement programs to aid migrant workers and reaffirm support for the United Nations.

The Rev. George W. Hill of Rochester was named president, and the Revs. F. Maxwell Towne of Glens Falls and Richard E. Lyon of Elmira were elected vice presidents.

About 500 delegates attended the two day convention, which ended Sunday

Notes Objection To Salary Raise For Local Board

Salary increases approved Tuesday by the Common Council for city officials including aldermen and the alderman-at-large, today was criticized by Ronald F. Woods, of 15 Len Court, a teacher at Morse Junior High School, Poughkeepsie.

The Council vote of 8-4 boosted the salaries of aldermen from $1,000 to $1,500 and the salary of alderman-at-large from $1,800 to $2,500.

Woods said that pay increases might be justified if the city was in "sound financial condition," but he noted that former Mayor John J. Schwenk and incumbent Mayor Raymond W. Garraghan and other city officials have made it quite clear to the taxpayers that the city desperately needs more revenue in order to provide "even the basic services" of city government.

Woods, statement to the Kingston Freeman follows:

"In a recent letter to the Common Council I went on record as opposing the proposed pay boosts for the Aldermen and Alderman-at-Large. I was very disturbed to see that this measure was approved by the Common Council on Tuesday night. On January 1 of this year most Kingstonians believed that the new Mayor and Common Council were going to provide us with fresh, nonpartisan leadership which would eventually get our city moving forward. However, now I am afraid that the residents of Kingston will place very little faith and confidence in the Common Council or Mayor and when the leadership is not responsive to the taxpayers then little can be accomplished.

Cites His Objection

"I was and still am opposed to the 50 per cent pay boosts for the Common Council for the following reasons:

1. The pay raises might be justified if we were in sound financial condition, but former Mayor Schwenk, Mayor Garraghan and other city officials have made it quite clear to us that we desperately need more revenue in order to provide even the basic services of city government. For example, the city library is one of the most poorly financed libraries in the state and has already been forced to consider closing its doors. All Kingstonians are familiar with our poor recreation facilities such as the city parks having practically no playground equipment and there is only one recreation center, which is in very poor condition. Lawton Park has been abandoned, which is in direct contradiction to the Raymond & May report which advised us to develop this area for recreation, and the same report mentioned that we are 152 acres short of the necessary recreation acreage.

Need Cornell Station

"The Cornell fire station is merely a ghost house, and the people in this section of Kingston are poorly protected against the danger of fire even though they are paying the enormous property tax rate. Perhaps the raises could have been used to help lower the high property tax rate for the elderly with fixed incomes.

"2. The Charter Revision Committee is charged with the duty of setting the salaries for city officials and this will be included in the revised charter which they will submit to the citizenry in the near future. The Charter Revision Committee will be giving much investigation to this phase of their task and I suggested that the board wait until their report is made public.

"3. It is my opinion that the Board of Aldermen should not receive pay raises at this time because statistics taken from the 1965 Municipal Yearbook for cities of a population between 25,000 and 50,000 show that the present average salary for councilmen is $1,000, which is the salary that the aldermen are now receiving. Actually most Mayor-Council cities of a similar population as Kingston compensates their councilmen at a lower rate than $1,000.

"4. Statistics show that most cities in our population classification are governed by an average of only nine legislators whereas we have four additional aldermen plus an alderman-at-large to perform the necessary duties.

"Generally, I am not opposed to a salary raise for any group but in the light of the above facts it is my opinion that the action taken at Tuesday night's meeting was completely opposed to the will of the people. I do believe that the eight members of the Council who passed the pay hikes were sincere in their convictions but first they should have explained their reasons for desiring to boost their pay to the general public."

'Festa Italiana'

"Festa Italiana," featuring highlights from Italy's tournaments and festivals, closes out its two-week run at Madison Square Garden on Wednesday with a special Columbus Day matine performance, after playing to near capacity crowds. The spectacle of daring horsemanship, music, dances and colorful pageantry will then leave in its first North American tour to cities including Utica, Washington, Boston, Philadelphia, Pittsburgh, Rochester and Buffalo. The public response to "Festa Italiana" has exceeded all expectations and the advance sale for tickets in other cities on the tour indicates sellouts or large crowds for all performances.

Illegal Drug Use By Los Angeles Workers Is Cited

LOS ANGELES (AP) — The fast-spinning wheels of today's industry are often oiled, a police narcotics specialist says, by workers who are hooked on illegal drugs.

The problem of illegal pep pills — used primarily by production line workers — "is not actually condoned so much as that backs are turned on it," said Sgt. F. E. Sweeney of the Vernon Police Department. Vernon, a Los Angeles suburb, has many industries.

Stopping the drug traffic — by arresting all those who use the drugs and those who sell them — would mean industrial firms would have to hire whole new shifts of employes, Sweeney said. That, he explained, is how deep the problem runs.

Sweeney addressed an industrial health conference Saturday.

Inez May . . .

pointed its 135-mile-per-hour winds toward the South Texas coast.

The Weather Bureau said Inez' present course would put Brownsville, a city of 52,800 on the Texas-Mexico border, out of the hurricane-force area.

Hurricane warnings remained in effect from Tampico to the Brownsville-Port Isabel area, gale warnings another 150 miles northward to Corpus Christi and a hurricane watch alert to Port Arthur near the Texas-Louisiana line.

Thousands of evacuees from the flatlands surrounding Tampico jammed into the City Hall and other concrete structures there.

Grocery stores and service stations in towns near the Gulf Coast of South Texas exhausted supplies of candles and flashlight batteries.

Citrus growers in the lush Lower Rio Grande Valley said their trees were heavy with ripening fruit and a storm could inflict severe damage. In the 1933 hurricane 90 per cent of the crop was destroyed.

Inez came out of the eastern end of the Caribbean late last month, pounded parts of the West Indies and took two whacks at Cuba before moving northward toward Florida.

The hurricane reversed itself and drifted westward through the Gulf of Mexico.

Must Win Fast

de-escalate or anything else.

"I do know we must do whatever is necessary to win as quickly as possible. If not, the war will grow in costs, both in money and lives, and the nation's morale will be lowered."

And he says:

"The morale of a nation is just as important a factor — probably a more important factor — in determining its capacity to lead as is its military or economic strength."

Eisenhower, who will observe his 76th birthday at his farm home here Friday, differs sharply with the Johnson administration in the domestic policy area. But he shows no little irritation at the thought that anyone would attempt to drive a wedge between him and Johnson on the matter of how to conduct the Viet Nam war.

This does not mean, necessarily, that Eisenhower endorses all the fine print of Viet Nam policy. But he strongly believes that in war Americans ought to stand squarely behind the commander in chief.

Cautions Republicans

In that connection the former president cautions fellow Republicans seeking election to Congress Nov. 8 against trying to make an issue of administration policy in Viet Nam. He thinks such an effort would be very risky from a political standpoint, and that domestic issues such as spending and inflation danger offer GOP candidates much better opportunity to capitalize at the polls.

It described all peace propositions advanced so far as "deception" to obtain for the United States a right to "hang on in South Viet Nam."

Four Killed in Israel

TEL AVIV, Israel (AP) — Two weekend border incidents took the lives of four Israeli policemen and injured seven other persons.

The policemen were killed Saturday night when their jeep hit a mine in the Jordan Valley south of the Sea of Galilee as they were rushing to investigate two explosions near the village of Shaar Hagolan. Two other policemen in the jeep were injured.

A foreign office spokesman said the Israeli government views the worsening border situation with gravity. The Israeli Cabinet met Sunday to consider the situation.

Hunger Pains Beginning

could scamper to other territory in a frantic attempt to avoid capture.

"Every time I tried to get out of the woods, I would see a trooper detail heading my way," Davis was quoted by Shannon. Davis said he could see uniformed troopers passing along the highway and back roads in unmarked cars.

Early Saturday morning, according to Shannon, Davis went to the home of Mr. and Mrs. Eric Wasenius on Whitfield Road. He attempted to remove the locked screen door but was frightened away when a dog in the house began to bark and awakened the family. Shannon said although the dog was deaf he heard Davis prowling on the porch of the house.

Took Blankets from Car

Before he disappeared into the nearby woods, Davis stole a blanket from Wasenius' car, which was parked in the driveway. He had the blanket when he was captured by Troopers Jackson and Howard.

Incidents that led to the apprehension of Davis began shortly after 10:30 a. m. Saturday, when Mrs. Edgar W. Marshall of Whitfield Road, Accord, saw a man walking along the back road toward her house. The doors and windows of her farm home had been locked securely since warninge were sent out by news media that the much-sought man was dangerous and armed.

"I wanted to go outside," Mrs. Marshall told a Freeman reporter, "but when I saw this man walking toward the house I remained quiet. He went to the door and knocked. Then he tried the screen door knob, but that was locked. The man apparently saw my husband coming and he took off through a field. I called state police.

"As I looked through a window, I saw the man walk to the back door of the home of Everett Babcock, our foreman. Mrs. Babcock, I learned later, went to the door. She opened the inside door and the man asked for cigarettes. He didn't get any and he walked back to the road and started toward Route 209."

Meanwhile, Mrs. Marshall's telephone call had been received at Command Post, which had been set up and manned at the old Patroon Grange Hall on Route 209, Accord. Radio calls were sent out to all cars in the area, and Troopers Jackson and Howard were only about a half mile away. They sped to the location and saw Davis walking on the road.

No Food Since Thursday

Jackson and Howard told a reporter, Davis gave no resistance. He was immediately disarmed of a rifle and a loaded revolver, which he didn't attempt to use. Handcuffs were clamped on his wrists. Major Robson, Capt. Croswell, and BCI Investigator Roger Gardner joined Jackson and Howard and the fugutive was taken to the Ellenville state police station for screening and questioning.

"Davis told us that he gave up because he was hungry," Trooper Jackson said. "He hadn't eaten since sometime Thursday. Davis told us that everytime he started to leave the woods he saw troopers and he sneaked back into hiding. Davis also said that his parting with Brown after their stolen station wagon chacked up on Route 209 near Wiedy's Furniture store, was not planned.

Trooper, Not Companion

"Davis told us that when he and Brown fled the damaged station wagon, he thought his buddy was right behind him. Once he looked back, saw a light and thought it was Brown coming, but it was a trooper."

That Davis knows his rights when involved in crime, was evidenced by his remark to Jackson and Howard, "I have constitutional rights."

Earlier broadcasts carrying descriptions of Davis noted he wore a white T shirt and dark pants. When he was taken in custody he was wearing a charcoal gray shirt and a blue jacket which he said he found along the road.

The bizarre case started after 9:30 p. m. Thursday, when Trooper Kowalik pulled alongside a suspicious station wagon in front of Smith's Garage on Route 209. He questioned the two occupants and checked an expired Texas driver's license which was handed him by one of the pair.

When Kowalik asked for the registration, Brown allegedly reached and pulled a revolver from a holster in the glove compartment. Davis was behind the steering wheel as Brown reached over him and fired at Kowalik, wounding his left arm. The trooper crouched backward as the car sped away.

"Trooper Kowalik emptied his gun, hitting the get away car," Investigator Shannon said. "Brown was firing from the vehicle, but not one bullet hit the trooper car. Kawlik radiod for assistance and gave his location. Sergeant Henry Rhodes, Investigator Charlie Teelon and other troopers joined in the case."

110-MPH Speeds

Shannon said that during the purusit, the station wagon hit speeds up to 110 miles an hour. "While riding at that speed," Shannon said, "Davis and Brown switched places. Brown took over the wheel and Davis got in back with the rifle and fired several shots at the trooper's car. Although wounded and riding more than 100 miles an hour, Kowalik managed to reload his gun and keep in touch with headquarters by radio."

The chase ended when the station wagon spun around and hit a fence off Route 209. Both men fled before Kowalik and others arrived. "The shooting continued as the men disappeared in the darkness," a trooper said.

Shannon explained that it is a tricky method of men trying to escape when caught with "hot cars" to spin the vehicle and try to slow up their pursuers. "The driver had been looking for a soft green lawn to spin around on, but when he couldn't find a lawn, he decided to end the chase by spinning on the pavement, not planning to nit the fence," Shannon said.

According to available police records at the Ellenville state police office, Davis was last convicted in Salt Lake City, Utah, for a Dyer Act violation. He was sentenced to 4-6 years but was paroled. Brown, authorities said, admits grand larceny convictions in Maryland in 1952, a burglary conviction in Maryland in 1954. He also was convicted of a narcotics violation in Chicago, Ill., and was sentenced to 5 to 8 years in the penitentiary at Lewisburg, Pa., troopers said. He is on parole on that conviction.

After an armed robbery in Seattle recently, the pair allegedly stole a Volkswagen and fled. They abandoned that car in Oregon and stole the station wagon they had when they arrived in Ulster County Thursday night at Grants Pass Oregon.

Air of Tension Lifted

With the apprehension of Davis, hundreds of residents in the vicinity of Accord, Kerhonkson and Ellenville eased their tension and fear of being accosted or shot by the fugitive. Homes had been locked securely since Thursday night, and children had been kept at home in fear.

State Police officials generously praised the cooperation of residents, town constables and deputy sheriffs and others who had worked and assisted during the long hours of waiting for the arrest of Davis.

Thwart Apparent

come out with his hands up. Torrisi surrendered as did his alleged accomplice, George L. Greenidge, 16, of 64 Van Buren Street.

Torrisi, who lives at 95 East Chester Street, and Greenidge, were arraigned today before City Judge Hubert H. Richter. Torrisi was charged with third degree burglary and second degree assault. Greenidge was charged with third degree burglary. Both cases were adjourned until 9 a. m. tomorrow for the purpose of obtaining council for the defendants.

Yanks Mass . . .

Marines uncovered another grave containing 25 North Vietnamese bodies at a site where heavy fighting took place last week. It raised the enemy death count to 1,071, U.S. headquarters said.

B25s Pound Base Camp

Formations of B52s struck at dawn just north of the demilitarized zone, pounding a base camp and bivouac and supply areas used by the North Vietnamese infiltrating into South Viet Nam.

It was the fifth raid by the eight-engine bombers since Sept. 21 just north of the demilitarized zone and the seventh B52 raid of the war against North Viet Nam.

Inside the six-mile-wide demilitarized zone itself, U.S. Marine and Air Force planes flew 12 missions Sunday, hitting at North Vietnamese positions west of coastal highway No. 1.

Other B52 raiders hit suspected Viet Cong troop concentrations 35 miles southeast of Saigon today.

Mac on Eighth Visit

McNamara, visiting Viet Nam for the eighth time, noted that U.S. forces here had nearly doubled since his last visit a year ago. There were 170,000 U.S. servicemen here then. There are 321,500 now and the total is expected to grow to 350,000 to 400,000 by the end of the year.

"We do not intend to destroy the Communist regime in North Viet Nam," McNamara said in a brief airport statement. He said the American objective remained the same — to enable the South Vietnamese government to act without fear of pressure from the North.

He said U.S. ground forces would not occupy the six-mile-wide demilitarized zone between North and South Viet Nam even though North Vietnamese troops are using it as a base for infiltration in to the South.

The Pentagon chief immediately plunged into a round of briefings and conferences with top commanders headed by Gen. William C. Westmoreland, commander of U.S. forces in Viet Nam.

In the air war against North Viet Nam, U.S. Navy pilots reported downing two MIG jets Sunday and damaging a third.

Pilot Evens Score

One of the Red jets — a MIG21 — was the victim of a Californian who was himself shot down by a MIG three months ago. Cmdr. Richard M. Bellenger, 42, of San Diego, had managed to ditch his damaged plane in the Gulf of Tonkin last July. He evened the score Sunday, hitting the MIG with two heat- seeking Sidewinder missiles from his F8 Crusader jet and knocking a wing off.

Lt. (j.g.) William T. Patton, 26, of Sinks Grove, W.Va, bagged the second MIG with his much slower, propeller-driven Skyraider, using rockets and 20mm cannon fire Neither Patton nor Lt. (j.g.) James W. Wiley, of Augusta, Ark., who damaged another MIG, were sure whether they had hit MIG17s or MIG21s, although the U.S. command earlier had identified the enemy planes as MIG 21s.

The MIG 21 is the most advanced jet in the Communists' Far Eastern arsenal, capable of flying more than 1,200 miles an hour. The kills boosted the Americans' dogfight score in the air war to 23-5.

However, Communist ground fire brought down a Navy Skyraider on Saturday and a Navy F4B Phantom Sunday, raising the total of U.S. planes reported lost over the North to 397. Both pilots were missing.

Faces Larceny Count

Richard Savino, 54, of Tillson, was arrested on a warrant by sheriff's deputies Sunday charged with grand larceny. Taken before Police Justice Wilfred Doolittle of Rosendale he was released on $100 cash bail for a hearing later. The complainant was Samuel Greenstein.

Not at Address

Louis Levine, who was charged with making a malicious telephone call, as reported in Saturday's Freeman, does not reside at 91A Fairmont Street, The Freeman was told today. The Freemans' account of the story listed the address as supplied by the police blotter.

Financial and Commercial

NEW YORK (AP)—The stock market stumbled again and seemed headed for another "Blue Monday" early this afternoon.

The Dow Jones industrial average at noon was off 3.75 at 740.75. If the average were to close at that figure or below it would be the lowest close since Nov. 22, 1963, the day of the the average closed at 711.49.

Prices were lower from the start and were driven to a substantial decline, with the ticker tape running late after the first hour of trading. There was a partial recovery as the tape caught abreast of transactions.

The weekend news was not of the kind that would reawaken investor interest, brokers said, and so the market followed its usual custom of the past few months and declined on a Monday.

Early in the day, airlines, mail order-retails, autos and aerospace issues advanced against the general trend.

The Associated Press average of 60 stocks at noon was off .9 at 268.5 with industrials off 1.5, rails off .8 and utilities up .3.

IBM was off a couple of points as it described a new duplicating machine a week ahead of schedule to quash rumors it was entering the office copying machine field.

Xerox, which began the day with a gain, settled down to a net loss of about 4 despite the IBM proposal.

campaigns are being conducted on the old argument over who can do most for the home district. Such issues as the Viet Nam war and burgeoning inflation are making their marks only in isolated cases.

Candidates for the Legislature as usual are hoping for some kind of coattail lift from the head of the state ticket However, uncertainty over the outcome of the Rockefeller-O'Connor contest has convinced most that they had better try to win on their own.

No single issue is dominating the legislative campaigns, although there is lingering discontent Upstate with the state sales tax enacted two years ago and apprehension that the new medical-aid program might prove too costly.

At present, Democrats have a wide margin of control in the 165 - member Assembly. The breakdown is 88 Democrats, 75 Republicans and two vacancies in heavily Democratic districts.

Republicans enjoy a similar advantage in the 65 - member Senate, holding 37 seats to the Democrats' 28.

Under the reapportionment plan ordered into effect earlier this year by the State Court of Appeals, the Assembly will be cut back to 150 seats and the Senate to 57.

At the time the plan was promulgated, studies of the makeup of legislative districts indicated that the divided political complexion of the Legislature would be preserved.

Political strategists in both parties now concede privately that this is the outlook, although party leaders insist publicly that they have a chance to win it all.

At present, Democrats appear to be assured of at least 77 Assembly seats and Republicans of 59, with about 14 contests in doubt. A simple majority of 76 will be needed to control.

In the Senate, the GOP seems to have a minimum of 28 seats safely tucked away — just one under the number needed for control. Democrats are banking on at least 23. They would have to win all of the six additional races rated as "doubtful" in order to gain majority control.

In the congressional delegation, Democrats have top-heavy control — 27 to 14 — largely because of gains scored in the Johnson landslide of 1964. Previously the GOP had a 21-20 edge.

The AP survey indicates 20 "safe" seats for the Democrats and 15 for the Republicans, with six in doubt. The GOP thus would have to win all six marginal races to regain its numerical edge, but such a sweep appears unlikely.

Generally the "doubtful" seats are held by freshmen Democratic congressmen waging determined campaigns to retain their offices.

Among such Democrats given a good chance of succeeding are Rep. James M. Hanley of Syracuse and Rep. Herbert Tenzer of Lawrence, Nassau County.

Toss-up Races

Other first - term Democrats are locked in toss-up races — Joseph Y. Resnick of Ellenville, Richard L. Ottinger of Westchester, Lester L. Wolff of Great Neck, on Long Island, and Richard D. McCarthy of Buffalo.

Resnick faces a stiff challenge from Hamilton Fish Jr., son of a former congressman who enjoyed great popularity in the mid - Hudson Valley district. Wolff and McCarthy are running against the Republicans they beat last time — former Reps. Steven B. Derounian and John R. Pillion, respectively.

In other districts, Democratic and GOP strategists are counting on party - enrollment edges and traditional voting patterns to carry their candidates safely though.

The same situation holds true in the Legislature, although the reapportionment disrupted long-established political fiefdoms by laying out new district lines. This has created some uncertainties.

'Doubtful' Races

Among the "doubtful" Senate races being watched with interest are these, by district:

51st (Rochester area) — Republican Sen. Kenneth S. Barclay versus Democratic Assemblyman James E. Powers; 39th (Troy area) — former Assemblyman Douglas Hudson, Republican, versus, former Sen. F. Warren Travers, Democrat; 33rd (Bronx) — Republican Sen. John D. Calandra versus Joseph F. Fischera.

In the Buffalo area, there is an interesting three - way race, involving Republican William Doering, Democratic nominee James D. Griffin and the incumbent Democrat Sen. Bertrand D. Hoak, who was defeated in his party's primary election and is running as the Liberal Party candidate. The district is Democratic-oriented, but Hoak could siphon enough votes away from Griffin to cause Doering's election.

In the Assembly, reapportionment has thrown incumbents into the same district in two races. Both figure to be especially close.

The combatants are Republican Donald Campbell and Democrat John F. Kirvin, in the Amsterdam-Schenectady area, and veteran Republican Julius Volker and Democrat Dorothy H. Rose, in the Buffalo area.

Other Assembly contests expected to be close include:

Republican Assemblyman Alvin M. Suchin versus former Assemblyman Lawrence A. Cabot, Democrat, in Westchester County; Democrat Clarence D. Lane versus author Hilary Masters, Democrat, in the Columbia - Greene county area; Democratic Assemblyman Louis E. Wolfe versus Republican Peter Darlington, in Clinton and Essex counties; and Assemblyman Francis P. McCloskey, Stuart R. Gordon, in Nassau County.

Many of the Democratic legislative candidates — and a few Republicans — have endorsements also of the Liberal Party. The Conservative party also has endorsed a handful of Republicans.

Growth Potential Strong In Electronics Industry

Q) "I am greatly attracted to defense and electronic issues, and would like you to suggest one or two low-priced stocks in this group. I prefer growth to dividends and am willing to speculate as I have no dependents." F. LaC.

A) Electronics is generally regarded as one of the most promising growth areas in our economy. I'm not sure just what you mean by "low-priced"—my suggestions are trading in the 20s. Recently I have mentioned Avco Corp., which has come out with record high profits for the third quarter and first nine months, ended August 31. A $645 million backlog of government orders has more than doubled year-to-year and share net stands at $1.64 for nine months vs. $1.26 for the like period in 1965. Commercial operations include TV-radio broadcasting, water purification, farm machinery and financing facilities.

Ampex is somewhat more speculative. It occupies a dominant position as a maker of high-quality video-tape recorders, stereo-tape and a wide range of stero equipment. Another attractive speculation on the American Exchange of Giannini Controls, a leading producer of measurement and control instruments for aerospace, military and industrial uses.

A "package" purchase of these three speculatives issues might work out nicely for you.

Q) "I own 100 DeLuxe Check Printers at 27, now selling around 15. Should I switch to McCrory? What does this company manufacture?" T. R.

A) McCrory is a retail merchandising complex, operating over 500 variety stores and 140 outlets for auto accessories and household appliances. It owns controlling interest in Lerner Stores and Klein Dept. Stores and a substantial share of Glen Alden, a manufacturing concern. Since acquisitions were largely financed by issuing convertible preferred stock — and there are warrants and purchase options outstanding — potential dilution of common shares is a speculative hazard to be avoided.

I would hold DeLuxe Check Printers which, though not a glamor stock, shows steady earnings gains over a decade of increasing sales.

down an embankment and hit a a second tree, Quinlan said.

Miss Wrisley was rushed to Vassar Hospital, Poughkeepsie, where she was pronounced dead. She suffered a fractured skull, lacerations of the brain and other injuries.

Wing sustained abrasions of the left hand and back, cerebral concussion and possible internal injuries.

It was Dutchess County's 37th highway fatality of 1966. Ulster County's traffic death toll for this year is 49.

Leeds State Police said Joseph P. Maier, 16, of Woodside, Queens, was killed when struck in the head by a .22 caliber slug white sitting in a car in the Town of Durham.

BCI Investigators M. P. Matera and P. J. Romagnano and Trooper G. E. Davis investigated. They said the dead youth's brother, Vincent, 15, and James Darrin, also described as a teenager, were sitting in a car eating lunch prior to going hunting.

Vincent, troopers said, loaded two shells into his rifle, but the weapon failed to discharge as he aimed at a tree. A check revealed one of the shells had jammed in the chamber of the gun.

Vincent returned to the car after firing the rifle to get a knife from the back seat to eject the shell, troopers reported. The boy leaned the rifle against the back of the front seat with the muzzle up behind the head of his brother, Joseph. As Vincent leaned down to pick the knife off the floor, the gun accidentally discharged.

The slug hit Joseph's head, killing him instantly.

Mrs. Elizabeth Fandozzi of Athens and Edgar Couse, RD 2, Catskill, Town of Durham, were reportedly wounded Sunday on the Couse farm. The two, accompanied by Mrs. Fandozzi's husband, John were cutting cedar trees in a gully when John Machiarelli of Totowa, N. J., reportedly fired his 12 gauge shotgun at a rabbit coming out of the brush about 75 feet away.

Mrs. Fandozzi was hit in the right arm and right side of the back by pellets, troopers said. Couse was wounded in the left side of his back by a stone or pellets.

Authorities reported neither the Fandozzis or Couse heard the shot.

Four persons were killed and three injured Sunday near Peekskill when the automobile in which they were riding went off the Taconic State Parkway, hit a stone wall and spun into an oncoming car.

Dead are Frank Kucera, 85, Mrs. Julia Kucera, 49, her daughter, Jean, 16, and Antonio Jaume, 16, all of Manhattan. There were no injuries in the other car.

The hunting accidents, during the first weekend of New York's small game season, also took the lives of John F. Walerk, 24, of Messena, and Thomas Minota, 17, of Phoenix.

Walerk was drowned when he waded into a creek near Waddington to retrieve a game bird he had shot.,

Rockefeller also charged that the federal report.

—Failed to recommend a federal financial contribution for Hudson River Valley preservation.

—Lays no foundation for its contention that the Hudson River Expressway from Ossining to Tarrytown should not be built.

—Recognizes only the importance of recreation and scenic beauty and virtually ignores the need for continued economic development of the valley.

Udall's report suggested restoration of the waterfront for recreation purposes in urban areas along the 315 - mile - long river where the federal report said dock and terminal facilities are unused and decaying.

The federal report also recommended that the powerhouse and nine miles of transmission lines of the proposed Consolidated Edison Co. hydro - electric plant at Storm King Mountain be placed underground.

On this subject, Rockefeller said the matter needed further consideration.

The governor consistently has opposed federal intervention into the Hudson River Valley affairs and stood opposed to recent congressional action supporting an interstate-federal compact.

LBJ to See Prince

WASHINGTON (AP) — The State Department says President Johnson probably will see Prince Souvunna Phouma, the prime minister of Laos, at the White House later this week.

The prince's schedule has not been announced for his annual visit to the U.N. General Assembly, but officials Sunday night said he probably would meet Johnson in midweek.

KHS Stops Passing Attack, Beats Poughkeepsie, 13-6

Highland Captures 20-6 UCAL Decision Over Ontcora

HIGH TACKLE—Rudy Jones, Poughkeepsie High end, gets Kingston runner Bill Dugan high enough to spill him after the KHS flash had picked up some valuable yardage Saturday. Nigel Davis (48) and Jerome Grammas (26) are coming to aid Jones in the tackle. Dugan scored the winning touchdown later in the game when he rambled 38 yards.

Baltz, Dugan Reach Paydirt In Dietz Tilt

BY ED PALLADINO
Freeman Sports Staff

Though the offense sputtered throughout the afternoon and the defense was constantly being bombarded from the air, Kingston High put enough good football together at the right times to beat Poughkeepsie, 13-6, Saturday before more than 2,000 at Dietz Stadium.

The Pioneers, under new coach Don Smith, showed a vast improvement in the fundamentals of the game and gave the home side some shutters with its passing.

Kingston scored when Jack Baltz caught a seven yard pass from quarterback Pete Watzka in the second quarter and on a nifty 38 yard run by halfback Bill Dugan in the third session. Clint Ellis rambled six yards for the PHS touchdown, the score coming in the second quarter.

After an exchange of punts in the opening session, the KHS defense brought the crowd to life when it charged Nick DeCuittiis, the Poughkeepsie punter, and forced him to "eat" the pigskin on his own 33.

33 Yards in 7 Plays

It took the home side only seven plays to cover the distance. Dugan carried twice for gains of nine and five yards, fullback Gerard Boggs made six yards in two tries and Watzka moved for six before passing to Baltz for the score. Tim Bownes booted the extra point.

The touchdown came on the first play of the second period.

The Pioners then put on the day's biggest sustained drive. Putting the kickoff in play on the 20, the visitors went 80 yards in 14 plays and were aided by a KHS penalty.

Defense Shines

The defense then took charge. Digilio moved the Pioneers to the 24 early in the fourth period, but he was stopped by the KHS forward wall.

Later in the period another PHS drive was halted, this time Boggs and Baltz throwing Digilio for successive losses when he was getting set to pass.

A poor pass from center put Kingston in a hole late in the game as the visitors recovered on the 28. Digilio found end Rudy Jones in the clear on the first play but the ball went in and out of his hands, finally falling harmlessly to the turf. The contest ended seconds later.

Indians Have Many Chances To Win Contest

Failure to come up with the "big play" cost the Onteora Indians a chance to remain unbeaten and they dropped a 20-6 UCAL decision Saturday at Highland.

Though they came close to scoring several times, the only time coach Paul Jordan's players went all the way was on a six yard run by fullback Al Cocks in the second period.

Highland, the defending champion, tallied twice in the opening session. Quarterback Fred Cappillino tossed 22 yards to end Ken Simone for one score and speedy halfback Mark Morano galloped 79 yards for another.

The Indians reached the Highland two in the opening period but a pass was dropped in the end zone. In the second stanza, Onteora was stopped on the 15. A fourth period drive was also halted near the goal line.

Morano gained 139 yards in 10 carries to lead Highland. Cocks picked up 122 yards in 17 carries for the visitors. In fact, Onteora outgained the home side on the ground and was only three yards off in the passing department.

Nicklaus Blowup Grabs Headlines Reading Parlay

VIRGINIA WATER, England (AP) — Gary Player beat Jack Nicklaus 6 and 4 in the final of the World Match Play Tournament, but Nicklaus' heated exchange with a referee grabbed the headlines.

The argument occurred between Nicklaus and referee Col. Tommy Duncan on the ninth hole of the 36-hole final over the Wentworth West course Saturday.

Nicklaus hooked his drive into a ditch, claimed that an advertising sign obstructed his view of the flag and wanted to drop without a penalty.

Duncan said a free drop was not warranted. When Nicklaus continued to argue and called it a "bum decision," Duncan offered to bow out to another referee. It was the first time in British golf history a referee quit in the middle of a big time match.

Bavarians Edge KSC

League leading Bavarians of New York scored two goals late in the game to edge the Kingston Sport Club, 2 to 1, Sunday in a German-American Soccer Association contest at Oehler's.

Bill Newmershinsky scored early for Kickers but the margin was wiped out by Bavarian goals at the 72 and 79 minute mark. The victory was the third in four games for the Bavarians.

Kingston has now lost two and tied one in three starts.

The B squads of the two teams battled to a 4-4 tie.

Sunday results in the German-American Association:

Roosevelt, AHS Gain Victories

Roosevelt and Arlington, the co-leaders of the DCSL Football League, won narrow victories in Saturday's games.

The Presidents scored 13 points in the third quarter to beat winless Wappingers Falls, 20-6. Arlington used two touchdowns in the fourth period to break a scoreless tie and topple Beacon, 13-0.

Roosevelt is now 3-0 in the league while Arlington is 2-0 and trails by only half a game.

BEAR HUG—Bill Dugan, Kingston halfback, is tackled by three Poughkeepsie High players after a short gain Saturday at Dietz Stadium. The player with his back to the camera is Ricky Geisler (38). The others are not identified. Kingston won, 13-6.

Marlboro Wins, 13-6, Over New Paltz Club

Quarterback Mike Pagano fired a pair of second period touchdown passes and they were enough to give Marlboro a 13-6 UCAL win Saturday over visiting New Paltz.

The Dukes hit with a long "bomb" to score the initial touchdown as Pagano teamed with Fred Monroe on a 65 yard play.

Later in the quarter, Pagano fired 10 yards to Rich Faulk for the second TD. Pagano tossed to Gene Kurtz for the extra point.

The Huguenots came on strong in the third quarter, hitting paydirt on a pass from Lee Halversom to Jim Schiller. The play covered six yards.

Fullback John Culver was an offensive threat for New Paltz. He gained 91 of his team's 124 rushing yards.

Meehan Paces Rondout Over Pine Bush, 20-13

John Meehan Jr., son of the Rondout Valley football coach, made his first varsity start a successful one as the Ganders broke into the win column, 20-13, Saturday over visiting Pine Bush in a UCAL game.

The young sophomore threw a pair of touchdown passes in the last period as the Ganders came from a 13-7 deficit to post the decision.

Meehan threw for 32 yards to halfback Tom Frazier and to Jay Spiegel for 10 yards. He also passed to Spiegel and Frazier for extra points. All told, he completed eight of 14 pass attempts for 106 yards. It was a sparkling debut.

The visitors jumped to a quick lead in the opening quarter when halfback Rich Zajicek ambled six yards for a score.

A 32 yard run by Chuck Elston put the Ganders on the scoreboard only moments later. Bob Crispell climaxed a Pine Bush drive by sweeping over from the four. It was the last score for the visitors.

After both sides had put on brilliant defensive displays in the second and third periods, Meehan took charge in the final stages to put his club in the victory column.

High School Gridder Dies From Injuries

JACKSON, Miss. (AP) A high school football player died Sunday night in a hospital of injuries suffered in a game 15 days earlier.

The victim was David Mills Jr., 16, who was an end for a school that opened this year, Jackson Wingfield.

Mills suffered a broken neck in a game against another new school, Gulfport East, played in Jackson Sept. 23.

Quick Action Saves Soccer Player's Life

MENLO PARK, Calif. (AP)—Quick action by a Menlo College football coach was credited with saving the life of a soccer player George Boza, 18, of Lima, Peru, after Boza was knocked unconscious in a soccer game here Saturday.

Coach Bo Molenda, a spectator, noticed Boza had gone into convulsions after being knocked unconscious in a collision with another soccer player.

Molenda pried Boza's mouth open with his pipe and pulled Boza's tongue clear of his windpipe.

hunters beware!!

To millions of Americans, the coming of autumn will mean the adventure and excitement of another hunting season. More and more people participate in this popular sport every year. Over 18,000,000 persons are expected to purchase hunting licenses in 1966.

While hunting trips are a lot of fun, they also can be dangerous. Hunters need accident protection against —

● ACCIDENTAL DEATH
● BITES
● BRUISES
● BURNS
● CUTS
● DROWNINGS
● FALLS
● FRACTURES
● GUNSHOT WOUNDS
● STRAINS

Hunting accidents take their toll of thousands of victims and thousands of dollars every season and 1966 will be no exception. If previous years are any criterion as many as 500 persons will lose their lives as a result of gunshot wounds, and six times that many will be injured by gunshot!

McNally Blanks Dodgers, 1-0, to Complete Series Sweep

Frank Robinson Homer Wins It In 4 Straight

BALTIMORE (AP) — Outside Memorial Stadium, on one of the approaches to the ball park, a big, bold sign asks the question:

"Would you believe four straight?"

The sign belongs to the city of Baltimore and so does the World Series following the Orioles' amazing—and convincing—four-game sweep of the Los Angeles Dodgers.

But now a bigger question is being kicked around:

Did the Orioles, in holding the Dodgers scoreless for a record 33 consecutive innings while putting together the first American League sweep in 16 years, destroy the myth of National League superiority?

Strangely enough, Frank Robinson, the guy who did the most to destroy the National League representatives, thinks not.

"I believed that when I was in the National League," said Robinson, who supplied the only homer in Sunday's 1-0 Series finale. "I still think over-all the National League is stronger, but it's not so much different in the two leagues as you're led to believe."

Not Many Agreed

Not many experts agreed before the Series. The myth of superiority had been built through three straight World Series triumphs by National League teams and a succession of All-Star Game victories, and the Dodgers were quickly installed as 8-5 favorites for the Series.

Then it happened. The names were Moe Drabowsky, Jim Palmer, Wally Bunker and Dave McNally—and they completely stifled the Dodgers, holding them scoreless from the third inning of the first game to the end of the Series.

Was it American League superiority?

The answer, as it came from the dressing rooms, depended on the point of view. Harry Brecheen, the Orioles' pitching coach, said it was Baltimore's pitching superiority. Maury Wills, the Dodgers captain, saw it more as Los Angeles' inadequacy at the plate.

"To me I gotta say it's good pitching," Brecheen explained. "We didn't hit and they didn't hit. It's gotta be real fine pitching. I think the kids were able to pitch against Koufax and Drysdale because it was a challenge that they were pitching against a superstar and a star."

Wills Observation

"With all due respect to their pitching a lot of it had to do with the fact that we were lousy with the bat," said Wills. "We had a bad hitting Series. They had a good pitching series. It was a combination of both.

"They say when you watch the Dodger bats, it's just like watching a silent movie."

It was just that after McNally was lifted in the third inning of the opener. Drabowsky pitched 6 2-3 innings of shutout relief in winning 5-2, Palmer won 6-0 while allowing only four hits, Bunker won 1-0 while allowing only six hits and then McNally came back Sunday and finished it off with another four-hitter.

The only run was supplied by Frank Robinson, who powered the first pitch to him by Don Drysdale in the fourth inning some 410 feet into the left field stands for a homer and the final revenge shot heard back in Cincinnati.

Robinson had been traded to the Orioles on Dec. 9 last winter and labeled with an old-man tag. And his only thought had been wiping it out.

"I've been playing this season since Dec. 9," he said after the game. "I wanted to have a good year—it was the first thought on my mind. I wanted to show the people that I wasn't washed up."

Worst In 63 Years

The Dodgers' feeble hitting turned out to be the worst in the 63 years of the World Series. They hit only .142, compared to the previous low, .161 by the Philadelphia A's in the 1905 Series against the New York Giants.

And by not scoring a run for 33 innings, they cruised past the A's record in that department. The A's had been held scoreless for 28 innings back in 1905.

The Orioles, meanwhile, completed the first sweep by an American League team since the 1950 New York Yankees took four straight from the Philadelphia Phillies.

And they brought the city of Baltimore its first major league championship since the days of Ned Hanlon's old Orioles of the National League in 1894, 1895 and 1896.

Robinson Sees Vindication In Big Season and Series

BALTIMORE (AP) — Frank Robinson, baseball's first Triple Crown winner in a decade, leaned against the dugout railing, waiting for his turn in the batting cage and talking about the World Series that would start the next day.

"The big men know the other team is concentrating on them, and they feel the pressure more; they try too hard," the Baltimore superstar said in reply to a question about picking a Series hero.

"The little fellows don't get as much fanfare, and they go out real easy. Sure, I feel pressure. I feel I got to get some hits and drive in some runs. The team expects it."

The next day, in his first time at bat at Los Angeles, Robinson drilled a Don Drysdale pitch into the left-field stands for a two-run homer, and the Orioles were headed toward a first-game victory.

Robinson hit another home run off Drysdale into the left field stands at Baltimore Sunday and wrapped up a 1-0 victory over the Dodgers and a four-game sweep of the Series.

No "little fellow' had come through for the Orioles the way the "big man" had. He led them to the American League pennant with a .316 average, 49 homers and 122 runs batted in, and now he had led them to a Series championship in as little time as a team can win it.

One-Sided Trade

"This is the greatest thing that's ever happened to me," said the 31-year-old outfielder who came to the Orioles from Cincinnati last December in what has turned out to be one of the most one-sided trades ever.

"I've been playing this season since Dec. 9. I wanted to have a good year — it was the first thought in my mind at that time.

"I wanted to have a good year especially to show the people in the front office there that I wasn't washed up, and I wanted to show them I could have a good year.

"And I wanted to show the people, the officials and the city of Baltimore they were getting a guy who still could play baseball.

"Now it's all gone. Next year I don't have to show Mr. DeWitt (the Cincinnati owner). I don't have to show him what I can do again. As far as that's concerned, it's gone."

When the Reds traded Robinson, a 10-year veteran, to Baltimore for pitchers Milt Pappas and Jack Baldschun and outfielder Dick Simpson, Bill DeWitt justified the trade to shocked and angered Cincinnati fans by saying Robinson was getting old.

Koufax Rested, No Place to Go

BALTIMORE (AP) — Sandy Koufax is rested and ready to work that fifth World Series game today. The only trouble is the Los Angeles Dodgers ran out of games Sunday afternoon.

Operating on the theory that one game wouldn't help much especially if he had to use his talented left-handed ace with only two days rest, Manager Walter Alston chose to keep Sandy in the barn for the fifth game.

"Our problem is winning four," Alston said Sunday when asked if he had thought of moving up Koufax from his regular turn. "Who would I pitch Monday?"

Actually the Dodgers looked like a snake-bit ball club. When you can score only two runs in four games and set a record for futility by going 33 straight innings without a run, no kind of pitching rotation can save you.

A team with a .142 club batting average, an all-time low for a Series of any length, cannot blame anybody but itself.

The best second guess on this Series is on the experts who said the Dodgers had the pitching and Baltimore would have to make up for their raggedy pitching staff by bombing the ball.

The Orioles did a little bombing with a total of four home runs including two in the first game by the Robinson boys, Frank and Brooks. Paul Blair won the third game with his homer and Frank Robinson's second of the Series was all Dave McNally needed Sunday.

PARIS (AP) — French-owned Bot Mot came on in the stretch Sunday and won the Prix Arc de Triomphe by a half-length over Sigebert. The 3-year-old colt earned $219,000 of the $374,000 purse.

SHS Tops Lourdes, 26-12, Konopka Has 2 Touchdowns

Halfback Tony Konopka scored twice and the Sawyers of Saugerties High won their first game of the season, a 26-12 decision Saturday over Our Lady of Lourdes at the SHS gridiron.

Coach Fred Seither's eleven put on its best offensive display of the season in easily beating the Warriors, who didn't score until the final quarter.

Konopka tallied on runs of 14 and eight yards. Fullback Joe Ferraro bucked over from the one while Vince Buono passed for five yards to end Drew Craig for the other SHS tally.

While the offense moved the ball well, the defensive line limited the visitors to short yardage until reserves took over in the final session.

Quarterback Craig Digilio threw a pair of key passes in the surge. The first was a scr n pass to fullback Ricky Geisler, the completion covering 29 yards to the K34.

With a second down and 10 situation on the 23, Digilio passed to end Rocky Veronesi for a 16 yard gain, shoving the pigskin to the six. A penalty put it on the three and made it first and goal to go.

Ellis Scores

After Boggs and Rich Clausi had teamed to throw Digilio for a three yard loss to the six, Geisler hit the middle for no gain and a pass fell incomplete, making it fourth and six. Ellis picked up the yardage for the score but he was stopped on his try for the PAT.

Dugan stopped a PHS threat when he swiped a pass at the three just before halftime. Again it was the passing of Digilio which featured the drive. He completed one for 14 yards and then hit Ellis with an 18 yard screen pass. Dugan's interception halted the bid.

Another interception, this one by Charlie Lay, started the locals on their final touchdown drive. The surge went 53 yards and took only four plays.

Lay swiped the pass on the 47 and Dugan went to the P45 on the first play. After Boggs moved for a first down to the 43, Dugan carried to the 38. He then took a handoff, went to his own left, avoided a tackler at the 35 and went all the way to the end zone. Baltz and John Berardi threw the key blocks. Bowens' try for the extra point was blocked.

Speedy Rodney Takes Gotham

Speedy Rodney, vastly improved with age, sets his sights this week on Yonkers Raceway's $100,000 United Nations Trot.

Fractious as a colt, the 5-year-old bay stallion holds the one-mile, small - track race record and annexed the Gotham Trot last Saturday night at 1¼ miles.

Speedy Rodney turned back a tiring Noble Victory in the Gotham, but barely held off Earl Laird to win by a nose. The latter, a 6-year-old gelding, may find the 1½-mile United Nations more to his liking. But Del Insko, who drives Speedy Rodney, said he expects his horse to be sharper for next Saturday's meeting against foreign opposition.

Lord Gordon was fourth in the Gotham and Speedy Count fifth in the field of eight. The five are eligible for the United Nations. The foreign entries are France's good mare, Roquepine, and the Russian entries of Osman and American-bred Apex Hanover.

Speedy Rodney returned $8.20 for his victory in the Gotham. That race was timed in 2:33 1-5.

In other feature races in New York State last Saturday night:

—At Vernon Downs, Santo Sal ($8.40) led all the way and won the $3,000 Invitational Pace by a nose over Patty Dares. The time for the mile was 2:00 1-5.

—At Batavia Downs, Mighty David ($10.40) took the lead at the first turn and won the $2,500 Invitational Pace in 2:05.

—At Saratoga Raceway, Armbro Guest ($10) won the $2,000 Conditioned Pace in 2:06.

EMPLOYMENT

NOTICE TO JOB APPLICANTS
The Kingston Daily Freeman does not knowingly accept Help Wanted advertisements from employers covered by the Fair Labor Standards Act if they offer less than legal minimum wages or pay wage differentials based on sex. Most employes engaged in interstate commerce or in the production of goods for such commerce must be paid not less than $1.25 an hour and time and one-half for hours worked over 40 in a week. Beginning September 3, 1964, most employes in certain large retail service, construction and other enterprises engaged in or producing goods for commerce must be paid not less than $1.15 an hour and time and one-half for hours worked over 42 in a week. The Act also requires equal pay for equal work for men and women. If you are offered less by covered employers, or if you have questions concerning the Fair Labor Standards Act, call or write the U. S. Labor Department's local office at 881 Gerard Ave., Bronx N. Y., 10452, WYandotte 2-1235.
IMPORTANT NOTICE: The New York State Law against Discrimination and the Federal Civil Rights Act of 1964 prohibit discrimination in employment because of sex unless based on a bona fide occupational qualification. Help Wanted and Situation Wanted advertisements are arranged in columns captioned "Male" and "Female" for the convenience of readers and are not intended as an unlawful limitation or discrimination based on sex.

WANT-AD WONDERS Trade Mark

WILLIAM FAULKNER WROTE WANT ADS, TOO!

The famous American author, William Faulkner, once placed this Want Ad in the Oxnard (Miss.) Eagle, addressed to hunters who were trespassing on his property:

"The posted woods on my property inside the city limits of Oxnard contain several tame squirrels. Any hunter who feels himself too lacking in woodcraft and marksmanship to approach a dangerous wild squirrel might feel safe with these."

THE PEOPLE OF THE STATE OF NEW YORK, BY THE GRACE OF GOD FREE AND INDEPENDENT.
TO—
Francis Stunning, Albert Kersman and William Jessie Deyo
GREETINGS:
YOU AND EACH OF YOU ARE HEREBY CITED TO SHOW CAUSE at a Surrogate's Court to be held in and for the County of Ulster at the Surrogate's Office in the City of Kingston, N. Y., on the 15th day of November, 1966, at 9:30 o'clock in the forenoon of that day, why a certain instrument in writing, dated November 14th, 1957 relating to both real and personal estate, presented to said Surrogate's Court, should not be proved, admited to probate and recorded as the last Will and Testament of Florence S. DeWitt, late of the Town of Shawangunk, Ulster County, deceased, upon the petition of The Valley National Bank of the Village of Wallkill, the Executor named therein.
IN TESTIMONY WHEREOF, We have caused the seal of said Surrogate's Court to be hereunto affixed.
[L. S.] WITNESS HON. ARTHUR A. DAVIS, JR., Surrogate of our said County of Ulster, at Kingston, N. Y., this 29th day of September, 1966.
MATTHEW A. WEISHAUPT

Powell Looking for Next Four

By DICK COUCH
Associated Press Sports Writer

Art Powell is looking forward to the next four miles. Tom Flores will settle for 261 yards and a full-time job every weekend.

Flores and Powell, Oakland's veteran pass-and-catch combination, traveled the high road together Sunday in the Raiders' 21-10 American Football League victory over the Miami Dolphins.

Flores, a six-year pro, started at quarterback for the first time this season and went the distance, firing three touchdown passes and completing 14 of 24 for 261 yards.

Powell made only two catches but one was a 25-yard touchdown strike and the other, a 13-yarder, made him the first player in AFL history to reach the four-mile mark on pass receiptions. The 29-year-old end, in his seventh AFL season, has gained 7,053 yards — 13 over four miles — on 432 career receptions.

The Raiders' second victory — both over the winless Dolphins — in five starts keep them alive in the Western Division race, two games behind co-leaders San Diego and Kansas City.

The Chargers fell into a first-place tie with Kansas City, at 4-1, Saturday night when they bowed to the New York Jets 17-16 while the Chiefs battered Denver 37-10. Boston stunned Buffalo 20-10 in another Saturday night game, helping the Jets take a commanding lead in the Eastern race.

Powell's touchdown grab sent Oakland ahead 7-3 in the second quarter. After Joe Auer's three-yard scoring plunge gave the Dolphins the lead again, Flores hit fullback Roger Hagberg with a 24-yard TD pass, giving the Raiders a 14-10 edge at halftime.

Namath on Spree

Joe Namath passed 44 yards to Bill Mathis and 17 to George Sauer midway in the fourth quarter, setting up an eighty-yard touchdown burst by Emerson Boozer that lifted the Jets past San Diego before a Shea Stadium crowd of 63,497 — the largest in AFL history.

The Jets hung on in the closing minutes as Dick Van Raaphorst, who had booted three field goals for San Diego, missed on 30 and 21-yard attempts. The Jets, 4-0-1, are the only unbeaten club in the league.

Bert Coan's 18-yard touchdown pass to Chris Burford started Kansas City on a 21-yard first-quarter binge and the Chiefs breezed the rest of the way as Mike Garett scored twice and Mike Mercer added three field goals.

The Patriots, who tied New York a week ago, handed Buffalo's defending league champions their third setback in six games. Boston jumped to an early lead on Gino Cappelletti's 10-yard field goal and a 19-yard touchdown run by Jim Nance, then held off the Bills with a blitzing defensive charge.

Packers Topple To Mira, 21-20

By ED SCHUYLER JR.
Associated Press Sports Writer

San Francisco Coach Jack Christiansen thinks some people might want him to make a halfback out of quarterback George Mira. Some people are wishful thinkers.

True, Mira did run well against Green Bay Sunday. But he also called a good game, faked well and threw two touchdown passes as the 49ers upset the Packers 21-20 and dropped them into a first-place tie with Los Angeles in the National Football League's Western Conference.

Los Angeles gained a tie with Green Bay at 4-1 by defeating Detroit 14-7, while St. Louis and Dallas remained unbeaten in the Eastern Conference — St. Louis scoring a comeback 24-19 victory over the New York Giants for a 5-0 record and Dallas blasting Philadelphia 57-6 for a 4-0 mark.

Chicago beat Baltimore and Washington whipped Atlanta 33-20 in other Sunday games. Cleveland trounced Pittsburgh 41-10 Saturday night.

Mira, starting in place of $700,000 quarterback John Brodie who has a groin injury, got the previously winless 49ers a 7-0 halftime lead by throwing a 27-yard touchdown pass to John David Crow.

Then with the 49ers leading 14-13 in the fourth quarter, Mira hit Crow with an eight-yard TD pass after setting up a score with a 38-yard run.

More Scores Twice

Los Angeles got two touchdowns from Tom Moore and a tough defense in beating Detroit. Moore scored on a four-yard run in the first quarter and combined with Roman Gabriel on a 30-yard TD pass in the fourth before Detroit scored.

It looked as if St. Louis was headed for its first defeat and New York for its first victory until Charley Johnson hit Billy Gambrell with a fourth down, 30-yard scoring passing in the closing minutes of the game.

In Dallas, there was no mention of turning Don Meredith into a halfback as the Cowboys' quarterback led the rout of Philadelphia with 19 pass completions in 26 attempts for 394 yards and five touchdowns. Bob Hayes caught three of the TD tosses.

Gayle Sayers scored on runs of 30 and seven yards and Joe Fortunato and Bennie McRae led a fired-up Chicago defense against Baltimore. Fortunato ran 24 yards with a recovered fumble for a TD, and McRae intercepted two Johnny Unitas passes and batted at least three others out of receivers' hands.

Washington scored its third straight victory and made new Atlanta 0-0-5 as Charley Taylor scored on a 12-yard run and again on an 86-yard pass play.

Brockport Booters Defeat NP

Brockport State made goals in the second and third periods stand up Saturday at New Paltz and nipped the defending SUNYAC champions, 2-1.

The highly touted visitors had Don Prozik score in the second quarter and Jim Karm a tally what proved to be the clincher in the third session.

Coach Al Miller's Hawks, who dropped their first decision of the season, made it close as Eugene Ventriglia made a third period penalty kick. Ventriglia had a chance to knot the score in the final period but his penalty kick just missed the mark.

New Paltz takes to the road Tuesday, playing at Oswego. The Hawks return home Saturday for a game with Cortland State.

Set Cuban Revival

STOCKHOLM, Sweden (AP) — A 140-man group from the Full Gospel Businessmen's Fellowship International has completed two weeks of revival meetings in Northern Europe and the Soviet Union.

President Demos Shakarian of Los Angeles said today the group had met with the Cuban ambassador to the Soviet Union in Moscow and arranged to send a team to Havana.

Accompanying Shakarian in his talks with Cuban Ambassador Carlos Olivarez were the Rev. Harold Bredesen, pastor of the First Reformed Church of Mt. Vernon, N.Y., and Dr. Steven Anderson, formerly of Cuba.

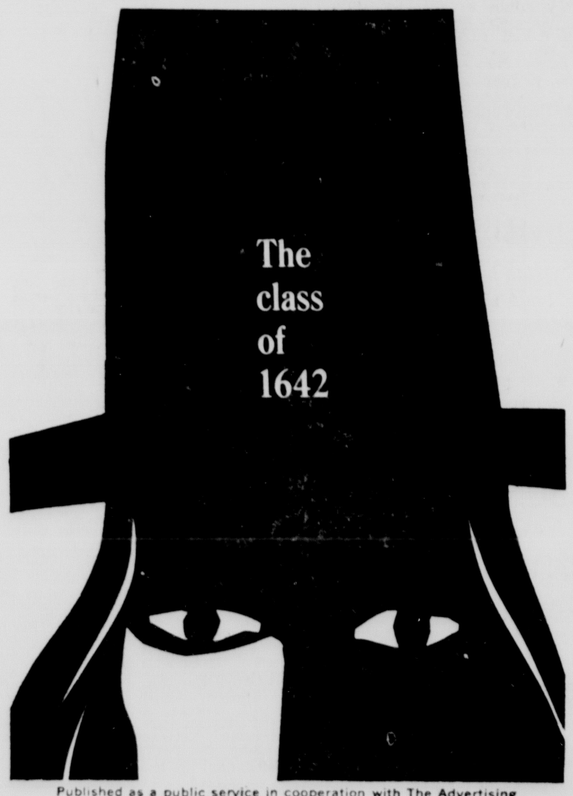

In 1620 the Pilgrims landed. They set about building the new world.

A college was needed. So they worked together, giving land, books, tools, or their labor. And in 1642, Harvard graduated its first class.

The world is still a-building. Education still needs each of us giving what we can.

Few of us can establish a college. Most of us can help keep one going.

Give to the college of your choice.

Two Resolutions For South Africa On UN List Today

By WILLIAM N. OATIS

UNITED NATIONS, N.Y. (AP) — Two more resolutions aimed at South Africa's white supremacy policy were slated to get committee approval today at the U.N. General Assembly.

One resolution sponsored by Poland and Saudi Arabia, appeals to the Security Council to take effective measures to eradicate apartheid (racial segregation) in South Africa and other adjacent territories.

Another resolution sponsored by 40 African and Asian countries, urged all countries to comply with previous General Assembly recommendations for economic and diplomatic measures against South Africa and with the arms embargo which the Security Council voted against her.

British Foreign Secretary George Brown was to discuss his Viet Nam peace plan with U.S. Ambassador Arthur J. Goldberg late today.

Soviet Foreign Minister Andrei A. Gromyko rejected it Saturday, and the Viet Cong turned it down today.

Diplomatic sources said the Security Council also may meet Oct. 27 to discuss Secretary-General U Thant's decision not to seek a second term when his current one expires Nov. 3. They said council members were still hopeful he would change his mind and accept a new five-year term.

Say Hope Fading For Moon Photos

PASADENA, Calif. (AP) — Hope of getting pictures from America's revived Surveyor 1 mooncraft faded today as the spidery spaceship's battery power system was diagnosed as probably too weak for the task.

Spokesmen for the Jet Propulsion Laboratory — which controlled the 620-pound craft in its controlled landing and television survey last June—said the craft appeared to be operating on its auxiliary battery, which wasn't intended to be used after landing.

"It (the auxiliary battery) was designed to back up the main battery while in flight only, and was not shielded in any way to withstand thermal shock — the 500-degree variation in temperature on the moon's surface," spokesmen said.

The first faint signals from the spacecraft—which had been presumed dead—were received Friday.

Sports Briefs

BALTIMORE (AP) — Coach Gene Woodling of Baltimore kept his World Series record in tact when the Orioles swept four games from the Los Angeles Dodgers.

"I haven't been with a loser in the Series yet," Woodling said. "I played on five winners with the Yankees, starting in 1949, and now we took this one. Six in a row. That ought to be a record."

Others were actor Hugh O'Brian; singer Vic Damone; night club entertainer Don Rickles; comedian Don Adams; actor Paul Newman; Earl Cohen, Beverly Hills, Calif., banker; Philip J. Levin, board chairman of the bank of Bloomfield N.J., and Arthur Rubloff, head of a Chicago real estate firm.

Child Violinists Tour

NEW YORK (AP) — Shinichi Suzuki, Japanese violinist and teacher who has revolutionized the teaching of music to the young, brought 10 of his Japanese pupils for a recital Sunday in New York's Philharmonic Hall.

Nine of the children ranged in age from 6 to 10; one was 16.

They played numbers like the solo parts of the first movement of Bach's Concerto in D minor for two violins.

Suzuki starts with children who are 3 or 3½ years old and teaches them to play by imitation, just as they learn to talk. They memorize musical masterpieces before they learn to read the music. Suzuki says more than 150,000 children in Japan have learned the violin by his method.

TOKYO (AP) — North Korean Vice Premier Kim Il announced today that North Korea has been forced to extend is seven-year development plan three years in order to build up its defense.

Kim told the Communist party conference the extension was due to "the harmful activities of various hues of opportunism" including Soviet revisionism.

Red Talks Begin

MOSCOW (AP) — Poland's top leaders arrived in Moscow today for talks on Viet Nam, China and other subjects.

The talks are part of a series of Soviet consultations with East European allies. With some signs pointing to improved East-West relations on subjects other than Viet Nam, there has been diplomatic speculation that some change on Viet Nam might be in the offing, but there has not been any evidence of this.

Robin Hood Pardoned

Mysterious Fall Kills Daughter Of Ralph Bunche

NEW YORK (AP) — Jane Pierce, daughter of Nobel Peace Prize-winner Ralph J. Bunche, fell or jumped to her death from her apartment residence in the Riverdale section of the Bronx.

The fully clothed body of Mrs. Pierce, 33, and mother of three children, was found early Sunday in the courtyard of the nine-story building.

It was not known from what height she fell. The Pierces live on the first floor. No notes were found. An autopsy report said she was killed by a fall from "a good height."

The body was found by Samuel Salamon, the building superintendent. He told police that he had heard a roof alarm go off, went to investigate, but found no one there. The alarm is set to sound when the roof door opens. When he checked the outside of the building he discovered Mrs. Pierce.

Mrs. Pierce's husband, Burton, returned home from a night football game to find his wife missing. He awakened their daughter, Karen, 9, who told him she thought her mother was visiting friends. It was then that the superintendent reported finding the body.

The Pierces were married in September, 1956. Their other two children are Nina, 4, and John, 7.

Pierce, an alumnus of Cornell University, is a labor relations executive.

Bunche is United Nations undersecretary for special political affairs.

Police Withhold Death Statement

EWPORT, R.I. (AP) — Doris Duke, once called "the richest girl in the world," has made a formal statement about an auto mishap which took the life of a companion, but police declined to disclose its contents immediately.

Eduardo Tirella, 42, of Dover, N.J., an interior decorator and actor who had been Miss Duke's companion in recent years, died instantly Friday night when a car slammed him against the iron gates in the driveway of her showplace estate, "Rough Point."

Police say Tirella had stepped from the car driven by Miss Duke to open the gates when it lurched forward, throwing him against the gates and then dragging him across Bellevue Avenue.

Miss Duke, 53, apparently the only witness to the incident, suffered shock and facial cuts. She was found wandering dazed near the scene and taken to Newport hospital for overnight observation, police said.

Miss Duke came to public attention at age 21 when she began to inherit her father's tobacco fortune. It had been valued at $100 million when he died in 1925.

Convicts Pry Off Door

PARSONS, W.Va. (AP) — Three prisoners pried off a door and pushed down a wall at the Tucker County Jail Sunday to flee from the jail's second floor. Sheriff Carl Hedrick said seven other prisoners could have fled, but didn't.

The jail adjoins Hedrick's house and the men escaped while he was preparing to serve them breakfast.

New Los Angeles, Chicago Flight -- By Way of London

CHELMSFORD, Mass. (AP) —London has become a stopover point for trips from Chicago to Los Angeles and Los Angeles to Boston — at least for two passengers who passed through Chicago's O'Hare International Airport.

Fred Hildreth one of the passengers, says his unscheduled flight to Shannon, Ireland, and London as "quite a colorful experience — I saw the Irish countryside."

Headed for Boston

Hildreth, 26, assistant to the sales manager of a safety equipment manufacturing firm in Glendale, Calif., boarded Trans World Airlines Flight 770 in Los Angeles Saturday, expecting to reach Boston in six hours.

He arrived in Boston Sunday night, 30 hours later. His trip included landing at Shannon due to fog over London, and a 2½-hour wait in the London terminal because he had no passport to leave.

He said that when he got off TWA 770 in Chicago and went looking for TWA 120 to Boston he got wrong directions and reboarded TWA 770, which was headed nonstop for London.

Misplaced Grandmother

TWA 770 was also the flight that last Tuesday carried Josephine Griffin, a grandmother, from Chicago, where she had been visiting her sister, Lila Long, to London. She had intended to board a plane headed back home to Los Angeles.

An airline spokesman said someone giving directions had assumed Mrs. Griffin wanted to meet someone who had arrived on TWA 770 from Los Angeles.

At the TWA headquarters in Kansas City, a spokesman said Hildreth's misrouting might have been due to "any one of a number of things," including "just a plain mistake on someone's part."

The airline didn't charge for the extra rides.

Study Supports Relationship of Smoking, Cancer

CHICAGO (AP) — California male members of the Seventh-day Adventists, a religious group which frowns on smoking, had sharply lower than average death rates during a recent four-year period, two medical investigators reported today.

They said in a report in the current Journal of the American Medical Association that these men had particularly low rates of respiratory disease — one-fourth the statewide average.

A summary of the article said the findings "support the casual relationship of cigarette smoking to lung cancer" but discount the theory that a person's physical constitution is a major factor in whether he gets lung cancer.

The report was made by Drs. Frank R. Lemon and Richard T. Welden of the department of preventive medicine, school of medicine, Loma Linda University, Loma Linda, Calif.

The tobacco industry says there is no scientific proof of a connection between smoking and lung cancer.

Baby Girl Killed In Upstate Crash

CANASTOTA, N.Y. (AP)—A 2½-month old girl, daughter of a young doctor from India, was killed and four other Indians were injured Sunday night when their automobile struck a sign post along the State Thruway near this community in central New York State.

The girl was Cheandini Gowda, daughter of Dr. Basugula Gowda, whose residenee was listed as Ellis Hospital, Schenectady. He was listed in critical condition at Syracuse Memorial Hospital.

The child's mother, Hetthur, 19, was in fair condition at Oneida City Hospital.

Dr. Barbagur Gowda, 29, also of Ellis Hospital was injured critically and was admitted to the hospital in Oneida. His wife, Lakshmi, 22, was in fair condition at the Syracuse hospital.

Cheandini's 1½-year-old brother was not injured seriously.

State Police said the Gowda car attempted to pass a tractor trailer truck, collided with the vehicle, crossed the mall into the superhighway's other lane and veered into the sign post.

END OF THE LINE — The station wagon through the closed window of which Ellenville State Trooper Stanley Kowalik was shot early last Thursday night, is empty but bullet-ridden in front of the Old Grange Hall in Accord, after crashing into a fence to end a chase by troopers to capture its occupants. Car was used by Roy Edison Davis and Wesley Allen Brown for getaway after Brown senselessly shot Kowalik, who stopped them for questioning at Napanoch garage. Both were captured later in intensive manhunt which lasted two nights and more than a day—Brown at roadblock two hours after the car above was abandoned and Davis Saturday morning at an Ellenville farmhouse. Troopers looking over the damage to the vehicle from an exchange of shots and the crash are among the many who came from hundreds of miles to aid in the search. They are Trooper Paul Mitchell (left) of Deposit, near Binghamton, and Trooper Ray Mickelson, of Ferndale. Gunshots have almost totally demolished side and back windows of the wagon and dent made by bullet fired by Kowalik immediately after he was shot is seen in rear side. "On the road" fugitives traveled heavy and rear of wagon is packed solid with suitcases and clothing. (Freeman photo by Kruh).

ZILLAH, Wash. (AP) — Chief Elmer Schultz of the Zillah rural fire department visited Zillah elementary school last Thursday to lecture on fire prevention.

Sunday, the first day of Fire Prevention Week, he was back again — to fight a fire.

The blaze destroyed 10 of the school's 13 classrooms, a library and an office despite efforts of three fire departments. Damage was estimated at $200,000.

Cases Settled In Civil Court, Select Juries

Two automobile negligence actions which had been partially tried in Supreme Court before Justice Harry E. Schirick were settled Friday. The actions were Margaret Bartholmess against George Dickover and others; William Bartholmess against George Dickover and others, and and action brought by Davis Lacascio and another against George F. Dickover and others.

The actions arose over a three car accident on Route 28 near Pine Street, West Hurley on April 26, 1964. Gaffney and Hill appeared for Plaintiffs Bartholmess, Albert Boyar and Ewig and Beck appeared for plaintiff Lacascio and others. The defendants were represented by Cook, Tucker, and Dwyer, Donald H. McCann and Smith & Formodini and Levinson, Jenkins and Cassidy.

A jury was selected to try another automobile negligence action, Jeanette Ferraro and another against Timothy J. Smythe and another. Vernon Murphy is attorney of record for plaintiff nad John J. Mclevy for defendant.

Selection of a jury in an action brought by Eleanor Geiselhart against Sullivan County Ready-Mixed Concrete Corporation and others, for the death of her husband, was scheduled for today.

It is alleged the deceased was employed at the Homowack Lodge, town of Wawarsing, and was working on a scaffold. The concrete corporation was delivering concrete through a cellar window. When the cement chute was claimed to have been withdrawn from the cellar window and a hook caught on the scaffold. Geiselhart was thrown from the scaffold.

Both the Sulivan County Ready-Mixed Concrete Corporation and the building contractor are named as defendants. Napoletano, Kelly and Saccoman apeared for plaintiff and Cook, Tucker and Dwyer; Gaffney and Hill and Larkin and Vogt appear for defendants.

Rome Man Killed

ROME, N.Y. (AP)—John F. Moore, 50, of Rome, was killed early today when his automobile left Route 26 and struck a tree seven miles north of Rome. Moore lived at 602 Elm St.

Prior to 1862, the U. S. Patent Office managed the government's agricultural affairs.

Capitol News In Brief

Doubts Price Drop

WASHINGTON (AP) — Sen. George McGovern says he doubts whether bread prices will drop despite a 30-cent a bushel decrease in the price of wheat in recent weeks.

The South Dakota Democrat said the baking industry used an earlier rise in wheat prices as an excuse for boosting retail prices for a loaf of bread two cents or more.

"But I have not heard of bread prices falling even one-tenth of the amount they rose when wheat went up," McGovern said in a speech prepared for the Senate but released Sunday night.

The senator challenged fellow senators to stop at their grocery stores and compare the price of a loaf of bread to that of several months ago when wheat sold for higher prices.

Warns of Insolvency

WASHINGTON (AP) — Jacques Rueff, a French fiscal expert, says failure of the United States to solve its balance-of-payments problem is threatening it with insolvency.

Rueff, monetary adviser to French President Charles de Gaulle, said "nothing is wrong with the American economy." But he said there is cause for alarm because of the steady rise in foreign claims in dollars — against a decreasing amount of gold.

In a copyrighted interview in this week's "U.S. News & World Report," Rueff said "this situation — diminution of assets and increases of liabilities — can only result at some point, in inability to pay, in insolvency."

Rueff, interviewed at Paris, said that to finance growing world trade and payments, the value of gold should be doubled in value simultaneously by all countries.

AFL-CIO Cites Threat

The AFL-CIO says billion-dollar sums of giant corporations are being used to shape political, social and cultural standards as well as the nation's economy. And, it adds, "the urge to merge" among the corporate giants carries the danger of eventually turning the United States into one enormous company-owned store.

In its new guidelines for cigarette commercials, the television code review board of the National Association of Broadcasters say cigarettes shall not be advertised "as to indicate to youth that the use of cigarettes contributes to individual achievement, personal acceptance or is a habit worthy of imitation."

Mishap Claims Second

BUFFALO, N.Y. (AP)—Mrs. Emilie Lipp, 66, of suburban Cheektowaga, died early today in Mercy Hospital of injuries suffered Saturday night in a collision of two automobiles on Highway 3E, about a mile east of Ridgeway, Ont. She was the second victim of the accident.

Bertha Laasch, 64, of Buffalo, was killed in the collision.

Mrs. Lipp lived at 70 Shanley St. Mrs. Laasch's address was 87 Nottingham Ter.

Daley Critical Of T-Way Stand To Labor Ties

YONKERS — The New York State Thruway Authority has an "ostrich-like approach to labor relations," according to Theodore G. Daley, secretary-treasurer of Teamsters Local Union No. 445.

Daley, whose request for a meeting to discuss recognition of his local as sole and exclusive bargaining agent for the Thruway's toll collectors and maintenance workers was turned down last week, today said he was not at all surprised.

Daley likened the Thruway brass to ostriches because, as he explained, "they have this weird idea that if they can't see you, then you can't see them either.

"But, we of Local 445 can see the Thruway quite clearly," he noted. "We see it as an $80,000,000 a year toll road which charges the public a goodly fee to drive on its highway, and then uses the profits to create a bureaucratic hierarchy for retired politicians.

"Naturally," Daily added, "the only people who don't share in this bonanza are the men and women who keep the Thruway operating night and day, seven dasy a week; the toll collectors and the maintenance workers.

"Whether the Thruway Brass want to believe it it or not, Local 445 now represents a majority of the toll collector's and maintenance workers," Daley said, "and we are prepared to prove it to the Authority in an open meeting with the press as impartial observers.

"However," he continued, "the Thruway Brass are unwilling to face this reality. They have refused to meet with us on the self serving grounds that they will not recognize any union that will not sign their own, self-written statement of personnel relations policy.

"Of course, once any union signs the Thruway Authority's policy statement," Daley explained, "it ties its own hands in any negotiations because it is then bound by the Thruway Authority's rules and regulations.

"In other words," he interpreted, "the Thruway Authority has told Teamster's Local Union No. 445, 'You either abide by our rules, or you don't play in our ball park.'

"This ostrich-like approach to union relations by the Thruway Brass," Daley stated, "has blinded them to the fact that a majority of their employes have joined a militant union of over 2,000,000 teamsters who play a vital role in the motor transport industry which provides the Thruway with 40 per cent of its revenue.

"And the Thruway Brass can be sure we will not disappear because they stick their heads in the sand. They have just begun to hear us, and I'm sure they will see us in the months to come," Daley concluded.

Hudson Drops Fire Home From Tax Rolls

The $1.7 million property assessment against the State Volunteer Firemen's Home in Hudson has been cancelled by that city. Hudson had been highly criticized by the State Volunteer Firemen's Association for placing the home on the tax roll. Many other firemen's associations, including the Ulster County Volunteer Firemen's Association, had protested the action.

In a surprise move the city did a complete about face when Corporation Counsel Joseph McDonald announced Friday that "owing to certain practical developments which have occurred since the Firemen's Home was placed on the assessment roll, it is presently deemed to be in the best interests of the City of Hudson that said assessment against the firemen's home be canceled."

It had been anticipated the net gain by the city through taxing the home would be about $23,000 annually.

During past months the Hudson Board of Education is reported to have discussed with representatives of the Firemen's Association the possibility of securing a portion of the Home's land for a school site.

Hurley GOP Will Meet Tuesday Night

The Town of Hurley Republican Club will hold its monthly meeting Tuesday night at Dick McCarthy's Brookside on Lucas Avenue Extension at 8 o'clock.

Present at the meeting will be the three Republican constitutional convention candidates, R. Watson Pomeroy, H. Clark Bell and S. James Matthews. Officials noted many voters do not realize the importance of electing qualified delegates to this position. At Tuesday night's meeting the qualifications of the Republican candidates will be outlined and they will be given an opportunity to discuss the issues with the club members. A question and answer period will follow. Refreshments will be served.
